Preface

In 2019, after series of experimentations, I found that the main hurdle of learning/teaching any subject/language of any standard is the lack of reading skills. The only way to overcome this hurdle is to learn pronouncing skills.

Towards the end of 2020, I developed the Concept of Sub-Syllables in the English language which is a new system for learning English pronunciation efficiently.

The Concept of Sub-syllables is applicable to any existing language in the world and could herald the beginning of learning foreign languages (including Hindi) in a new way. The applications of the Concept of Sub-syllables in the English language are reflected in this book, which covers all general aspects of teaching and learning English pronunciation. It has enabled us to pronounce every word in an English dictionary correctly and easily. English Pronunciation (A-Z) pronounces every word in the Oxford Advanced Learner's Dictionary (10^{th} Edition), the Cambridge Advanced Learner's Dictionary (4^{th} Edition) and other standard dictionaries which are not in the two dictionaries (without using IPA) using only Author's phonetic symbols of pronunciation with both British and American pronunciations along with parts of speech and origin (country/region/people) of the word. Using only Author's phonetic symbols of pronunciation can enable to master English pronunciation.

Development of the Concept of Sub-Syllables in the English language is a major breakthrough in learning English pronunciation which is the outcome of my relentless efforts to systematically transform both students and teachers in the way they speak, read, listen, and write. It is a new innovative idea which goes beyond the content of existing knowledge and system.

This new innovative idea is expected to enhance the proficiency in the English language for every professional.

Acknowledgement

Firstly, I express my deep gratitude to my beloved wife, Apongming Kaping and my three children who has always been the source of my strength and inspiration to this point of achievement. My special gratitude also goes to Mr. Masagui Rungsung (IFS), Rev.Dr. Timothy Kim Kaping (brother-in-law), Dr. Fr. Parvis John (Principal of St. Joseph College, Ukhrul, Manipur) , Mr. Ram Muivah (Rt. IAS), Prof. Ringkahao Horam (Principal of Pettigrew College, Ukhrul, Manipur), Asst. Prof. Thokchom Monica Devi (Department of Teacher Education, Manipur University), Dr. Chong Shimray (NCERT), Dr. Vareishang Dangbu (NCERT), Dr. Jovial Kalita (Vice- Principal and Head of the Department of English at Digboi Mahila Mahavidyalaya in Assam), Dr. Kaghatoli Aye (Head of the Department of Sociology, USTM), Dr. A C Kharingpam (Assistant Professor in the Department of English, Jamia Millia Islamia in New Delhi, India), Mr. A S Josiah (Principal, Ukhrul Higher Secondary School) and his teaching staff, Dr. Surmangol Hanjabam Sharma (Linguistics Department, Manipur University) for their constant support and for giving platform, feedback and encouragement to carry on developing new ideas; New strategy of Teaching and Learning, the Concept of Sub-syllable in the English Language and Discovery of Bi-Quartet Number System.

My sincere gratitude and appreciation goes to the IIP Technical Team for their professionalism in publishing the book in a very impressive way. I express deep gratitude to Mr. Worinza Vasha (Graphic Designer, Colorbasket) for giving professional guidance and assistance right from the start of publishing the book.
