CONTENTS....

Unit No.	Unit Title	Page No.
Unit 1	Foundations of Generative AI	1-65
1.1	Introduction to Artificial Intelligence and Machine Learning	1
1.2	Understanding Generative AI: Concepts and Applications	17
1.3	Types of Generative Models: GANs, VAEs, and Diffusion Models	33
1.4	Key Components of Generative AI Frameworks	42
1.5	Mathematical Foundations: Probability, Statistics, and Linear Algebra	54
Unit 2	Generative AI Techniques and Models	66-126
2.1	Generative Adversarial Networks (GANs): Architecture and Workflow	66
2.2	Variational Autoencoders (VAEs): Theory and Implementation	79
2.3	Transformer Models in Generative AI (e.g., GPT, BERT)	90
2.4	Diffusion Models: Principles and Applications	103
2.5	Reinforcement Learning with Human Feedback (RLHF)	114
Unit 3	Tools and Frameworks for Generative AI	127-186
3.1	Introduction to TensorFlow and PyTorch for Generative AI	127
3.2	Using OpenAI API and Hugging Face for Model Deployment	140
3.3	Pre-trained Generative Models: DALL·E, Stable Diffusion, and ChatGPT	154
3.4	Customizing and Fine-tuning Pre-trained Models [136-137]	164
3.5	Data Preprocessing for Generative AI Projects	174

Unit 4	Real-World Applications of Generative AI	187-234
	
4.1	Text Generation: Chatbots, Content Creation, and Summarization	187
4.2	Image and Video Generation: Deepfakes, Art, and Visual Media	198
4.3	Music and Audio Synthesis with Generative AI	207
4.4	Healthcare Applications: Drug Discovery and Medical Imaging	216
4.5	Generative AI in Gaming and Virtual Worlds	225
Unit 5	Building Generative AI Projects	235-297
	
5.1	Project 1: Building a Text Generator with GPT Models	235
5.2	Project 2: Image Generation with Stable Diffusion	247
5.3	Project 3: Music Composition using Generative Models	259
5.4	Project 4: Developing a Conversational AI Chatbot	272
5.5	Project 5: Healthcare Image Synthesis for Diagnosis Assistance	284
	References	298-310
	

ABOUT AUTHORS

Dr. R.V.S. Praveen is a distinguished professional with an illustrious career spanning 24 years, renowned for his visionary leadership and technical acumen. He holds a pivotal role in steering Fortune 500 companies toward innovation and excellence as an entrepreneur and committed to advancing the field. Dr. Praveen's extensive research focuses on leveraging cloud technology to solve complex business problems. Throughout his career, Dr. Praveen has made significant contributions to the world of science and innovation through numerous research papers published both internationally and nationally. His dedication to advancing technology is evident in his cutting-edge advancements in Cloud Learning and deep learning technologies. Under his direction, organizations have achieved remarkable accomplishments in product engineering, reflecting his dedication to shaping the future of technology, making him a pivotal figure in the industry.

Satya Subrahmanya Sai Ram Gopal Peri, popularly known as Ram Gopal Peri, is a seasoned thought leader in Business Integration Architecture, bringing over 28 years of global experience in driving large-scale HCM and Payroll transformation initiatives. Throughout his career, Ram has architect and delivered comprehensive HR technology solutions—spanning both on-premise and cloud platforms—for Fortune 100 companies and global enterprises across diverse sectors including technology, pharmaceuticals, telecommunications, aviation, oil & gas, and life sciences. A recognized expert in ERP and cloud ecosystems, Ram has led complex, multi-country implementations, established Centers of Excellence, and championed test automation and modernization strategies. His unique ability to bridge the gap between strategic vision and hands-on execution has made him a go-to advisor for executive leadership and transformation teams worldwide. Currently serving at Accenture, Ram plays a pivotal role in leading enterprise-wide transformation programs for leading U.S.-based organizations. His approach emphasizes scalability, compliance, and user experience while aligning technology with business goals through effective stakeholder engagement and global delivery models. Ram's expertise is reinforced by numerous professional certifications and academic achievements from top institutions. As an author, he brings a wealth of real-world insights, a strategic mindset, and a passion for integrating people, processes, and platforms in the evolving digital HR landscape. His writing reflects the depth of his experience and offers practical perspectives for professionals navigating today's complex transformation journeys.

Hari K. Vemuri is a seasoned expert in Finance and Business Consulting, specializing in enterprise-wide financial strategy, compliance, and operational excellence. With over 20 years of experience in business operations and finance transformation, Hari has been at the forefront of driving complex financial systems implementations, process optimizations, and strategic decision-making across global enterprises. A leader in finance-driven transformation initiatives, Hari has played a pivotal role in financial process optimization, taxation, audit compliance, and enterprise risk management. His expertise spans financial reporting, treasury, and corporate governance, ensuring that businesses achieve long-term sustainability and regulatory alignment. Currently engaged in major ERP finance transformation projects, Hari leads high-stakes financial strategy implementations, overseeing process integration, system architecture, and corporate financial restructuring. His leadership ensures seamless alignment between business goals and financial execution, driving profitability, risk mitigation, and operational agility. Hari's expertise is reinforced by ERP finance certifications and deep knowledge of regulatory frameworks, including SOX compliance, financial controls, and global taxation policies. His ability to navigate multi-country financial operations, corporate governance, and strategic investments positions him as a trusted advisor in financial leadership and transformation. A thought leader in enterprise finance optimization, Hari's work reflects deep industry expertise, strategic foresight, and a commitment to bridging finance and technology for sustainable growth.
