

Types of defects in Materials

“Types of defects in Materials” was organized by the Department Dr.K.Surendranath, Asso.Prof R.V.R & J.C College of Eng. Guntur as resource person on 6-12-2017.

The Resource Person explained various defects that arise in materials. i.e., point defect, Vacancies, Line defects, Surface, Creep, Fracture defects and Volume defects. He also explained the effect of these defects on various materials, how they influence our daily life and the remedies to prevent these defects.
