

Workshop Student Induction Programme

Department of Physics has organized **Workshop** on “**Basics of Electricity**” under Student Induction Programme for I B.Sc. students on 24-11-2022 by Sri.U.Lakshmana Suri, Indian Association of Physics Teachers (IAPT) AP Anveshika Coordinator.

In this workshop he has demonstrated the experiments of Lenz’s Law, Self-Inductance, Mutual inductance, Conversion of mechanical energy into electrical energy etc. He also explained about single phase and three phase wirings & their advantages and disadvantages and –ve temperature coefficient of Thermister. He also explained about the parallel integration of solar cells.
