

Field Visit

Preamble:

Department of Chemistry arranged a Field Visit to “**K.C.P. Sugars & Industries Corporation Ltd, Vuyyuru**” on 06.02.2023 and 08.02.2023.

Participants:

108 (41+28+39) III B.Sc. FMC, MCCS & AZC Chemistry Students and Two faculty members.

Description of the Programme:

The Department arranged a field Visit to **K.C.P. Sugars & Industries Corporation Ltd, Vuyyuru** for III B.Sc. FMC, MCCS & AZC Chemistry Students. In this visit students got awareness about the extracting of Sugar from Sugarcane. The staf of the industry explained about various chemical techniques used in sugar preparation and formulation. Students also learnt about analytical methods and instruments which are used in the process of production of Sugar. They also explained about the working of various machineries in the industry. Finally they discussed about the packing and marketing of Sugar. Students are very much impressed and gained knowledge about manufacturing of sugar.
