

Role of Statistics in Various Sectors

Preamble:

Arranged an Awareness Programme (Student Induction Programme) on Role of Statistics in Various Sectors on 07-04-2021.

Participants:

48 students of I B.Sc. MSCS 'B'

Resource Person:

Miss. B. Pavani, III B.Sc. MSCS 'A' SDMSM Kalasala, Vijayawada.

Description of the Programme:

The Department organized an Awareness Programme on “**Role of Statistics in Various Sectors**” for the first year MSCS 'B' students. Students were explained that Statistics is the scientific application of Mathematical principles to the collection, analysis and presentation of numerical data and also Statistics teaches people to use a limited sample to make intelligent and accurate conclusions about a greater population. Statistics is important because today we live in the information world and much of this information is determined mathematically with the help of Statistics. Statistics plays a major role in the fields like financial market, medical field, quality testing, weather predictions etc.

Miss. B. Pavani creating Awareness to the students of I MSCS 'B' class.
