Date & Time : 9-11-2022 & 3.15 P.M – 4.15 P.M

Description of the Programme:

Money helps us get some of life's intangibles –freedom or independence, the opportunity to make the most of our skills and talents, the ability to choose our own course in life, and financial security. With money, much good can be done and much unnecessary suffering can be avoided or eliminated.

Money helps a sick/injured person recover quickly and better. Money cannot really increase our happiness beyond meeting our basic requirements. People who figure out what they truly value have the strongest sense of financial and personal well being.
