

As part of Skill enhancement Course, “Retail and Digital Marketing” the Department of Economics organized study visit to Flipkart , Nidamanuru ,Vijayawada for IIIBA students on 08-09- 2025. This field trip is typically an educational excursion, while Flipkart is a major Indian e-commerce company. Therefore, a "field trip to Flipkart" would likely refer to a visit to one of Flipkart's facilities, such as a warehouse or office, for educational or training purposes, possibly to learn about e-commerce operations, logistics, or technology. However, you would need to contact Flipkart directly to see if they offer such educational programs or visitor tours, as this is not a standard public service.
