

INNOVATION THINKING IN DESIGNING OF PROJECTS

The Department of Physics & Electronics, in association with the MHRD Innovation Cell, Andhra Pradesh, organized a workshop on 28-02-2025 titled “Innovation Thinking in Designing of Projects.”

The workshop aimed to enhance students' ability to think creatively and innovatively while designing projects. It introduced various techniques for problem-solving, idea generation, and strategic planning to help students develop impactful and sustainable project designs.

This was a hands-on session where students actively engaged with the Design Thinking approach. Students from **I Year Major Physics, I Year Major Electronics, and II Year Major Physics, III MECS** participated enthusiastically in the workshop.

The session was conducted by **Dr. D. Srinivas Reddy**, Assistant Professor in Electronics, **P.B. Siddhartha College of Arts & Science, Vijayawada**.
