

Name of Program: Seminar on Careers in Management and Science and Technology

Number of Participants: 200 students of B.Sc (Hon) and B.Com (Hon) .

Date: 22/9/2025

Brief Report:

IQAC organized a Seminar on Careers in Management, Science and Technology to create awareness among students about the wide range of career opportunities available in both scientific and managerial fields. The program aimed to guide students in understanding how management skills can complement scientific knowledge to build successful and dynamic careers.

Resource persons Dr.Jayaseelan ,Associate Dean ,Dept of Biological Sciences,SRM University AP and Dr.A.V.S. Kamesh ,Professor ,Paari School of Business, ,SRM University AP delivered insightful talks on topics such as career prospects in research, science and technology, management, entrepreneurship, and business administration. Students were encouraged to explore interdisciplinary fields that bridge science and management, preparing them for leadership roles in various sectors.

The interactive sessions helped students gain clarity on higher education options, skill enhancement, and emerging job trends. The program was highly informative and motivated students to plan their future careers effectively by integrating scientific expertise with managerial competence
