

DEPARTMENT OF BOTANY & ECOCLUB

Name of The Event: “ Scope of Higher Education, Careers, and Research in Botany”

Date: 12-02-2026

Brief report:-

The Department of Botany organized a guest lecture for Botany students to create awareness about career guidance and employment opportunities in the field of Botany. The resource persons for the session were Dr P. Veera Bramhachari , and Dr.P. Srinivasa Rao, Lecturer from P. Siddhartha College.

During the session, the speakers explained various career opportunities available for Botany graduates. They provided detail information about job opportunities in the Forest Department, including positions such as Forest Range Officer, Forest Beat Officer, and other government sector jobs. They also discussed research opportunities in Botany, including higher education options like M.Sc., Ph.D., research fellowships, and project-based research work in universities and research institutions.

The lecture was highly informative and motivated students to explore different career paths in academics, government sectors, and research fields. Students actively participated and clarified their doubts regarding competitive exams and higher studies.

The Botany students actively participated in the session and understood the lecture.
