

National Seminar on “Need of True Leaders in contemporary Society”

Organized by:

Department of Physics, Sri Durga Malleswara Siddhartha Mahila Kalasala, Vijayawada

Date: 10 December 2025

Participants:

Around 150 students of Physics, Electronics, Statistics & Maths

Venue:

Webinar Hall, SDMSM Kalasala

Description of the Programme:

As part of the academic enrichment activities, the Department of Physics conducted a National Seminar on “Need of True Leaders in Contemporary Society.”

The distinguished speaker, Prof. Allam Srinivasa Rao, Vice-Chancellor, Vikrama Simhapuri University, Nellore, addressed the gathering with an inspiring lecture. He explained the qualities of true leadership required in the present world and highlighted the role of quantum technology in shaping future leaders. He discussed photons, electrons, and their applications in modern science in a simple and motivating manner.

He also referred to great historical personalities like Abraham Lincoln and Hitler, explaining how leadership shapes society either positively or negatively. He emphasized the importance of education, values, and responsibility in building a progressive nation.

The college Principal Dr. V. V. S. Kumar delivered the presidential address and appreciated the Department of Physics for organizing a thought-provoking seminar.

Head of the Department Smt. M. Geetha Madhuri welcomed the speaker and highlighted the importance of such programs for student development. And Teaching staff Kum. S.N.Sunitha and Kum.D.Neeraja, along with the Non-teaching staff, supported the programme. Students participated with great enthusiasm. Their active involvement helped in the smooth and successful conduct of the seminar.
