

WORKSHOP ON APPLICATIONS OF MOLECULAR BIOLOGY IN RESEARCH & DIAGNOSIS

Nature of Programme : Workshop
Title : “Applications Of Molecular Biology In Research & Diagnosis”
Resource person : Dr. G. MOHANA SHEELA
MD, Vetdiag Genomix Pvt Ltd, Andhra Pradesh
Number of Students : II B.Sc. Honours Microbiology,
Biochemistry, Food science & Technology,
– 92 Students
Date : 11/09/2025 to 12/09/2025

Brief Report:

Department of Microbiology, Biochemistry together organised a Two-day workshop on “Advanced Techniques in Molecular Biology in research & diagnosis”.

The students are trained on extraction of DNA from blood sample and run the samples on agarose gel electrophoresis and also provided insights on other molecular techniques involved in disease diagnosis. In the valedictory session certificates were given to all the participants.
