## **2. Objective of the Program**

The primary objectives of organizing the State Level Technical Event **TechSparks – Waves of Technology** were to provide a platform for students to enhance their technical knowledge in emerging areas of computer science and information technology. To encourage innovation, creativity, and analytical thinking among students To bridge the gap between theoretical concepts and practical applications in technology. To promote interaction and knowledge sharing among students, faculty members, and academicians from various institutions. To motivate students to develop professional skills and to prepare for future career opportunities in the technology sector.

## **3. Description**

Every year the Department of Computer Science organizes Inter Collegiate Technical Fest. The students participate competitively in it and are eager to record their achievements & accomplishments in their resumes. The aim of the fest is to provide a platform for the students to showcase their talents. Students from various colleges participated in different events and made it successful. A poster on **TECHSPARKS-2K25** was released in advance to publicize the event.

**Techno Fiesta:** Techno Fiesta is a quiz where 200 students participated. It is a mind game which tested student's technical knowledge. The competition has 2 Rounds. In the first-round students answered 20 logos, tagline, expansions and word arrangements in 20 minutes. In the second-round students answered 10 questions on technical questions in 10 minutes.

**Tech Blind “c”:** It is a technical event on C/Python language to test student's coding skills. The program was described to the students. Later the students wrote the program and executed the program.

**Insignia (Logo Making):** The participants have designed an effective logo to promote public identification and reorganization. The topic for this event was given on the spot for the participants.

**Stud-Weber:** Stud-Weber is a technical event where participants suggested innovative solutions to tackle sustainable webpage design. The students are interested in unleashing their creativity, push boundaries, and craft stunning digital experiences that captivate and innovate in webpage designing.

**Predicament:** Predicament is a real-time challenging game in which the participants should solve the given puzzles in a given time. This game enhances the mental ability of the participants and also projects the capability of an individual to solve the problem

**Game Miniature:** Game Miniature is a designing game in which the participants should build and bring a real-world game model and make the participants to play. This game projects the creativity of the participants by making a game model design.

**Short Film/Reel:** Short Film/Reels is an event where students prepare short films of high quality. This game projects the creativity of the participants. The participants brought their own short film and played it to the judges.
