One great victory is often a lot more important than numerous small wins – no matter how much longer it takes or how much more effort it demands. Because, that victory has the power to create a real difference!

And that is what our philosophy is and has been. Over the years we have collected our share of wins, put in our efforts in 3 separate avenues, and garnered results as well. But it's how all of it has gradually built up to create the bigger, stronger Trident with a lot more potential than ever before, that truly stands out today. As Trident, we are geared to claim a greater share of success in the industry, with our driven efforts, mastery of skill and strategic implementations of ideas. Because to us, one is greater than three, and the future will always be bigger than the past ever was!

# one company three businesses

Operating with a mission to create value in all business segments, Trident Limited (hereinafter known as Trident) is a leading textile and paper company, contributing to the economic and social development of the country. Led by the visionary founder and Group Chairman, Mr. Rajinder Gupta, we are positioned for delivering long-term sustainable growth.

Established in 1990, and headquartered in Ludhiana, Trident was initially a Yarn manufacturing company, with its first unit set up in 1993. Gradually, we forward integrated into Home Textiles (bath linen) eventually into Paper manufacturing and then widening our textiles unit to to provide employment and contribute bed linen. We aggressively expanded our three businesses verticals, bringing our deep-rooted knowledge and experience into the picture.

With an innovative approach and focus on new product development, Trident has created a niche for its products for customers in domestic and international markets. Our commitment towards growth has helped us scale our efforts to the nation's economy while creating value for our shareholders.

Inspired by challenge, we will add value to life and together prosper

To provide customer satisfaction, through teamwork based on honesty and integrity, for continuous growth and development.

# Chairman's message

People who don't buckle in, don't walk away. People who ooze good under pressure and smile when it rains on them. People who make bitter, better. Fix what's broken and improve what's not. People who stumble. Fall. Fail. Hurt. But are just not ready to give up until it is done. We are for these kinds of people. And we believe these people have the power to inspire all of us.

#### To our Shareholders.

t Trident, we have a belief of our passion, where our team does not buckle under pressure and deliver despite challenges.

One is greater than three' is an acronym that symbolizes Trident perfectly. It is the one sentence that unleashes the imagination to envision possibilities for future. Over the years, we have rapidly taken strides to grow as a conglomerate - something that was not even dreamt of at one point of time. Our operating and financial positions remain strong while our strategic roadmap is clear. We are confident of excelling in all our business verticals and thereby drive on our integrated business model to higher

I take this opportunity to thank the employees for living by our values, working safely and acting with integrity to achieve our goals. I also thank the

Management and the Board for their continued trust and valuable guidance. As the industry prospects remain promising, we at Trident are well positioned, inspired and eager to lead

#### Rajinder Gupta

He holds a Master of Science degree in chemistry from the Panjab University, Chandigarh and has also participated in the Programme on Strategic IT Outsourcing at the Indian Institute of Management, Ahmedabad.

# **Management Discussion and Analysis**

#### **Economic review**

#### Global

The modest improvement in global activity that commenced in 2016 strengthened in the first half of 2017. This was on account of stronger domestic demand in advanced economies as well as improved performance in China and other large emerging market economies. This improved demand translated into increased global investment, stronger manufacturing activity and domestic demand and output growing faster from the second half of 2016 into the first half of 2017. The result is that real global GDP growth is expected to report its sharpest improvement in years – an estimated 60 bps from 3.1 per cent in 2016 to 3.7 per cent in 2017. (Source: IMF)

#### US

US, the world's largest economy entered its ninth straight year of growth in 2017 (2.3% compared to 1.6% in 2016) catalysed by a government spending spillover by the previous administration coupled with US\$1.5 trillion worth of tax cuts, stimulating investments. Private consumption growth continued to be robust despite modest real income gains and moderate wage growth, as personal savings rate declined. (Source: IMF)

#### Europe

The European economy performed significantly better propelled by resilient private consumption, stronger global growth and declining unemployment. Investment also picked

up amid favourable financing conditions and a brightened economic scenario. In 2017, the Eurozone grew at an estimated 1.6% compared to 1.7% in 2016. (Source: IMF)

#### China

China's growth was estimated at 6.8% in 2017, which was up from a 26-year (6.7%) low in 2016, but well exceeding the government's target of 6.5%. China witnessed the fourth quarter growth rate of 6.8 per cent, which was unchanged from the third quarter. China's exports rose 6.9 % from the previous year to US\$188.98 billion in October 2017. In 2018, China's growth is projected at 6.6% (Source: WEO, NBS).

#### GDP at Market Prices (in %)

Emerging Asia continued to deliver strong growth in the face of growing protectionism concerns, ageing society and slow productivity growth. Emerging Asia reported GDP growth of 6.4% in 2017 following a rebound in trade and domestic consumption volumes.

#### GCC

Being oil-dependent, GCC countries were affected by the oil price decline (-60% since 2013), which resulted in macro-economic instability, inadequate job creation and slow growth. GDP growth was subdued at 1.8% in the region in 2017 despite initiatives to boost the non-oil private sector economy amid fiscal consolidation. (Source: World Bank)

#### Indian

After registering GDP growth of over 7 per cent for the third year in succession in 2016-17, the Indian economy is headed for somewhat slower growth, estimated to be 6.6 per cent in 2017-18. Even with this lower growth for 2017-18, GDP growth has averaged 7.3 per cent for the period from 2014-15 to 2017-18, which is the highest among the major economies of the world. That this growth has been achieved amidst lower inflation, improved current account balance and notable reduction in the fiscal deficit to GDP ratio makes it all the more creditable. In addition to the introduction of GST, the year also witnessed structural reforms undertaken towards resolution of problems associated with non-performing assets of the banks, further liberalization of FDI, etc., thus strengthening the momentum of reforms. After remaining in negative territory for a couple of years, growth of exports rebounded into positive one during 2016-17 and strengthened further in 2017-18. (Source: Economic survey and CSO)

The strong growth registered in the third quarter was primarily on account of the good performance of the manufacturing and construction sectors. The manufacturing sector registered a growth rate of 8.1% as compared to 6.9% in the previous quarter while the construction sector recorded a growth rate of 6.8% in contrast to 2.8% during the previous quarter.

#### Outlook

With GST being stabilised, India's GDP is expected to increase from 6.6% in FY18 to 7.5% in FY19. With a tremendous growth in the economy along with government's support, the Indian economy is expected to overtake Japan to be the 3rd largest economy by 2028. India's exports is also expected to improve in coming years benefitting from the trade war between US and China. Moreover, India's exports is expected to rise with India and China entering into a bilateral trade roadmap. This roadmap is for a medium and long-term period that will help to set timelines and action points for both the countries. It will help to increase bilateral trade between both the countries in a balanced and sustainable manner. (Source: PIB, Ministry of Commerce and Industry; Mckiney; BofAML; Commerce Ministry)

#### Global textile industry

Over the years, the textile industry has witnessed volatility in raw material prices and continuous change in fashion and trends of the customers. Low labour costs has allowed the developing countries like India, China and Bangladesh to focus on manufacturing while developed countries like Europe and US took a consumption side. The global textile industry is dominated by China followed by India and US being one of the largest market for textile products.

Overall the textile industry has witnessed changes in consumption pattern, which has resulted in textile players moving up the value chain and looking at better value added products which offer better quality. Textile players are now focusing on upgrading their machinery and utilize better technology to enhance productivity. Among the emerging nations, currently China is a dominant player in the global textile trade. This however is likely to change owing to increasing labour and production cost in the region, offering a wide opportunity to India.

The global textile and clothing industry trade is estimated at US\$800bn and has been growing at around 10% CAGR over the period of 2012-2017. Out of the total industry size, 60% is captured by clothing or apparel segment while the rest is from the textile segments. The textile and clothing trade is expected to grow at around 4% annually over the next decade and is expected to reach US\$1300bn. (Source: Third Party Report)

#### Core Sector Growth in 2017-18 (in %)

#### Core Sector Growth (in %)

#### Global home textile industry

The global home textile market is valued at US\$104.2bn, which is expected to grow 3.5% CAGR over 2015-2020 and reach close to US\$131.5bn. Growth in the home textiles would be supported by growing household income, increasing population and growth of end use sectors such as housing, hospitality, healthcare, etc. In the global textile market bed linen and bed spread account for the largest market share of 43.9% in 2014. This is expected to reach -60.8bn by 2020; this represents a growth of almost 4.4% CAGR between 2015-2020 and market share of almost 46%. Bath / Toilet Linen accounting for the second largest market share is expected to grow at a second fastest growth rate of 3.5% after Bed Linen & Bedspread and is expected to reach at US\$26.4 billion by 2020 representing 20.1% market share.

#### Indian textile industry

India has presence across the entire textile supply chain which includes spinning, weaving, knitting, processing and garmenting. The textile industry contributes to 7% industry output in value terms, 2% of India's GDP and to 15% of the country's export earnings. With over 45 million people employed directly and 60 million people employed indirectly, the textile industry is one of the largest employment providing industry in the country. Out of the total size of US\$24.55 trillions, India's export share stands at -US\$40 bn and has emerged as the hird largest exporter of textiles and apparels in the World after China (37%) and EU (25%) with an overall market share of -5%.

India is expected to have a market share of 15-20% of the global textile and apparel trade from the present 5%.

The domestic textile and apparel industry in India has shown promise over last decade and is expected to reach a market size of US\$ 250 billion by 2023 from US\$ 150 billion in 2016. Textile and apparel exports from India are expected to increase to US\$82 billion by 2021 from US\$ 36.66 billion in 2016. Key drivers to this growth would be increasing investments along with policy support by the government (Technology Upgradation Fund Scheme – TUFS, 100% foreign direct investment – FDI), rise in disposable income, better penetration in smaller cities and rapid urbanization. The domestic market is also expected to grow at 12% p.a. or higher.

#### India Home Textile Industry

India's contribution to the home textile industry is at –11% behind China with 35% share. The US home textile market which is –17% of the total home textile market, India share stands at –31% just behind china with –39%. In terms of cotton textile products like bed sheets, India is the largest supplier globally with –48% share. The Home textile industry is expected to continue on its upward journey owing to rising consumerdriven by the dominance of organised retail. Since the US is a large and homogenous market, it attracts Indian companies. However, Europe's free trade agreement with other countries places Indian companies at a disadvantage, led by higher duty (Indian exporters pay 8–10% vis-à-vis nil duty to be paid by Pakistan and Bangladesh).

#### Advantage India - Cotton

During the year, the cotton production of India increased from 34.5 million bales in 2016-17 to 37.7 million bales in 2017-18. In 2017-18. Pakistan opened its gates to import Indian cotton. This came in as a challenge in terms of increase in cotton price. This also helped India to increase its cotton exports from 5.8 million bales in 2016-17 to 6.7 million bales in 2017-18. During the year, Indian cotton production suffered a major hit due to pink ball worm attack which affected the quality of cotton and drove its prices higher. (Source: Economic Times)

#### GST impact on the domestic textile sector

The recently introduced Goods & Services Tax (GST) will likely be addressing all major concerns of industry, GST would help reduce costs for manufacturers in the textile industry as it is likely to consider various fringe taxes like Octroi, entry tax, luxury tax etc. The GST Council has exempted taxes on silk and jute fibre, cotton, natural fibre, while all kinds of yarns and all categories of fabric will attract 5% tax rate. Manmade fibre and yarn will attract 12% tax rate. Manmade apparel up to ₹ 1.000 will attract a 5% tax, lower than the existing 7%. Those costing above ₹1,000 will continue to attract 12%. Due to the extensive procedure costs and delays made in the processing of duty drawback, the manufacturers/traders were not inclined towards exports. Under GST, the system of duty drawback will lose its significance, which would give a significant boost for promoting the export of textile products. The positive impact of GST will be largely felt by companies engaged in manufacturing and/or dealing with fibre

and yarn components, since the presence of unorganized units is relatively large compared to the fabric and garment units. However, the GST would affect the cotton value chain of the textile industry including all garments for men and women like shirts, trousers, saree, apparels, shoes and any more clothing materials which is chosen by most small medium enterprises as it currently attracts zero central excise duty (under optional route). This near-term disruptions could take a potential toll on the financial performance of most players, the textile industry as a whole is poised to grow as organized units gain market share back from their unorganized counterparts. In the current scenario, there has been a mixed response to these rates by the textile industry. Although in the near term, there could be some disruptions in the context of higher tax rates, but in longer term GST is expected to be beneficial by creating more opportunities.

#### Advantage of GST on Indian textile industry:

- GST is based on the concept of one tax one nation. This
  eliminates the cascading affect or tax on tax effect of
  traditional system of indirect tax.
- Availability of input tax credit under GST which was earlier available as CENVAT credit to manufacturing only
- GST will lead to a shift in textile industry from unorganized sector to organized sector.

#### Positives from Union Budget 2018-19

- Government of India allocated around ₹ 7,148 crore for the
  textile Industry Of which ₹ 2,300 crore have been allocated
  for the Amended Technology Up-gradation Fund Scheme
  (TUFS) and ₹ 2,164 crore for Remission of State Levies
  (ROSL), which is expected to be beneficial for exporters of
  made-ups and apparels, as backlog will be cleared and
  working capital will be released.
- The government has also proposed to contribute 12 per cent of the new employees' wages towards Employee Provident Fund (EPF) over the next three years, which is expected to boost hiring in the apparel segment and has also extended fixed-term employment to all sectors.
- The government has allocated ₹ 112.15 crore towards schemes for powerloom units.
- The government has allocated ₹ 30 crore (for the Scheme for Integrated Textile Parks, under which there are 47 ongoing projects.
- The handloom clusters under the National Handloom Development Programme will get ₹ 396 crore and the Integrated Processing Development Scheme will get ₹ 3.8 crore.

#### Growth drivers

#### Gained significant share in the US home textile import market

India's market share in US imports of terry towels and cotton sheets has consistently increased from 28% and 22% in

Calendar Year 08 to 40% and 50% in Calendar Year 16, respectively. This growth was driven by various structural advantages in favour of India – a) India is now the world's largest cotton producer and net exporter with abundant cotton availability, while competing countries such as China and Pakistan are net cotton importers. This has led to a higher cotton price spread with India's cotton price being lower than that of other countries; b) cost-competitiveness in key areas such as labour and power. China's increased focus on high margin man-made textiles has also helped India gain market share in the cotton home textile segment.

#### Per capita spend on apparel

Per capita spend on apparel Per capita apparel consumption in developing countries like India is expected to increase by more than 2 times in next 10 years (CAGR of 9-11%) and will make developing countries the drivers of incremental growth, while the developed markets will still remain important because of their large size.

#### Increase in disposable income

The per capita net national income during 2017-18 is estimated to be ₹ 1,11,782 showing a rise of 8.3 per cent as compared to ₹ 1,03,219 during 2016-17. Strong economic growth is expected to increase per capita income, resulting in more disposable income to spend on fashionable clothes. The increase in income would improve the general standard of living, which in turn would further propel demand for apparel.

#### Increasing urbanisation

Urbanization in India has been increasing with a large number of people shifting to the cities and towns for better livelihoods. According to Census 2011, the current rate of urbanization in India stands at 31.16% rising from 27.86% in 2001 and 25.72% in 1991. Rising urbanization leads to increase in demand for new designs and fashions to match new lifestyles. A large percentage of these new city dwellers are expected to be in their twenties thus possibly making first-time independent choices for various categories of clothing items including denims, shirts, and footwear. Urban people spends around 6.4% as textile expenditure and thus a rise in urbanization will boost the demand of textile industry.

#### Growing Ecommerce to drive the demand

The disruption of digital internet technology in India coupled with wide scale of usage devices such as smart phones, laptops and tablets having internet connection have resulted in an unprecedented growth of e-commerce. With the changing lifestyle and rising incomes, people are left with less spare time. Ecommerce has leveraged this opportunity and is providing consumers with what they want, with just a few simple clicks, making seamless and faster shopping experience. The huge success of ecommerce companies led Indian textile companies to explore the online market through their own ecommerce platforms. Textiles companies are increasingly looking to build up consumer loyalty by selling their products on their websites and establishing a direct connect with their consumers.

#### Foreign Direct Investment (FDI)

The government has allowed 100% FDI in this sector. The textiles industry in India is experiencing a significant increase in collaboration between global majors & domestic companies. FDI in textiles (including dyed, printed) grew at a CAGR of 17.13% during the period from FY10 to FY17.

#### Government initiative

Government has announced a special package of reforms for generation of around 1.11 crore jobs in apparel and made-ups sectors, and for a cumulative increase of US\$32.8 billion in exports and investment of ₹80.630 crore over next 3 years. The package includes a slew of measures which are labour-friendly and would promote employment generation, economies of scale and boost exports. The Government is providing additional production-linked incentive of 10% under the Amended Technology Upgradation Scheme (ATUFS), for promoting employment in garmenting segment. Furthermore, the Government has designed Pradhan Mantri Paridhan Rojgar Protsahan Yojana (PMPRPY) to incentivize employers in the apparel sector for generation of new employment. Under the PMPRPY, government provides additional 3.67% of the employer's contribution, in addition to Government bearing 8.33% of employer contribution of Provident Fund (EPF). The government has extended duty drawback facility for one year on all textile products to boost exports, and has increased rates in some cases for the benefit of Indian exporters. Under the revised norms, home textiles attract drawback of 7.5% now as against 7.3% earlier. Similarly, incorporation of blanket and other cotton products in this category will attract drawback rate of 8% now from 7.2% earlier. In a notification dated November 1, 2017 the Central Board of Excise and Customs (CBEC) extended the duty drawback benefit for textile exporters to overcome the barriers they face in exports.

#### Indian home textile market overview

Bed linen and bed spread segment accounted for 58.1% of the Indian home textile market worth US\$ 2.1b in 2014, and is expected to witness highest growth over 2015-20 (CAGR of 7.4%) to reach US\$ 3.3b. Bath/Toilet linen, which held the second largest market share in 2014, is expected to register a CAGR of 6.9% to reach US\$ 0.9b by 2020.

The global home textile market's total consumption by retail value currently stands at US\$ 109bn, while the global home textile export market is estimated at US\$ 45bn. The home textile export market is dominated by India, China and Pakistan; with India's market share continuously rising. The US (US\$ 18bn) and Europe (US\$ 25bn) are key markets, driven by the dominance of organised retail. Since the US is a large and homogenous market, it attracts Indian companies. However, Europe's free trade agreement with other countries places Indian companies at a disadvantage, led by higher duty (Indian exporters pay 8-10% vis-å-vis nil duty to be paid by Pakistan and Bangladesh).

#### Size of the Indian home textile market expected in 2020

Segment	US\$ in billion
Bed linen & Bed Spread	3.3
Bath/Toilet linen	0.9
Floor	0.3
Kitchen linen	0.2
Upholstery	0.9

#### Global paper sector overview

Globally over 400 million tonnes of paper and paper products are consumed. The world's three largest paper producing countries are China, the United States, and Japan (these three countries account for approximately half of the world's total paper production), while India accounts for a small but growing share of the global market. The global paper and pulp mills industry has contracted slightly over the past five years, primarily due to the shift to digital media and paperless communication across most developed economies. However, demand in emerging markets has partially offset the decline by driving increased demand for paper used in packaging materials.

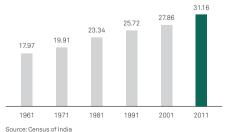

#### Per capita consumption

Countries	Kilograms				
US	229				
China	74				
India	13				
world	57				

#### Real GDP and per capita Income over the years

#### Rate of Urbanisation (In %)

#### Indian paper sector overview

The Indian Paper & Paperboard industry is one of the oldest organised manufacturing industries in India and the first paper mill was started in 1812 in Serampore, West Bengal. The industry accounts for approximately 4% of the world's production of paper.The domestic demand in India grew from 9.3 million tonnes in FY08 to 15.3 million tonnes in FY16 at a CAGR of 6.4%. In spite of the sustained growth witnessed by the industry, the per capita paper consumption in India stands at a little over 13 kg, is way behind the global average of 57 kg and 200 kg in North America.

For the Indian paper industry, strong economic growth has been accompanied by equally robust demand for paper. The demand drivers and growth triggers have come from a combination of factors such as rising income levels, growing per capita expenditure, rapid urbanization and a larger proportion of earning population which is expected to lead consumption and there is enormous potential for the paper industry in the country. According to CARE Ratings, the overall paper demand is expected to grow at a CAGR of 6.6% is likely to touch 18.5 million tonnes in 2018-19.

Printing and Writing segment demand is expected to grow at a CAGR of 4.2% and reach 5.3 million tonnes in FY19. The demand is expected to grow on account of an anticipated pick-up from the education sector with improving literacy rates and growing enrolment as well as increasing number of schools and colleges.

#### **About the Company**

Trident Limited, the flagship company of the Trident Group, is a leading manufacturer of yarn, Bath Linen, Bed Linen and wheat straw-based paper, Chemicals and Captive Power. It started as a cotton yarn manufacturer in 1990 under the name of Abhishek Industries Limited and later diversified into home textiles. Currently, the company has manufacturing facilities in Barnala (Punjab) and Budhni (Madhya Pradesh). Its founder-promoter Rajinder Gupta is a first-generation entrepreneur with wide-ranging exposure of promoting industrial ventures.

The company's first yarn plant in Sanghera, Punjab, which produces both cotton and blended yarn, was financed by a public issue in October 1992. With the amalgamation of Abhishek Spinfab Corporation Ltd in 1999 and Varinder Agro Chemicals Ltd in 2002, Trident diversified into terry towels and paper. The company has significantly invested in modernising assets and in forward/backward integration. In FY11, Trident undertook expansion of cotton yarn manufacturing in Barnal and Budhni, mostly through debt funding and the rest through equity/internal accruals. In FY16, with a view to expand

business, Trident forayed into bed linen by commissioning a bed linen facility in Budni.

The company has a strong client base in about 100 countries including nine of the top 10 retailers in the US, six leading retailers in Europe and five of the top seven retailers in Australia and New Zealand. Apart from this, in FY17, the company expanded its home textile presence to around 450 retail outlets across India.

#### Manufacturing capacity

In Bath linen, Company has a capacity of 672 looms producing 90,000 MTPA and in Bed linen, company has a capacity of 500 looms producing 42.96 million meters per annum in Budni, MP. In Yarn, company has 10 operating units with a capacity of 542,448 spindles with 6,464 rotors producing 115,200 ton per annum of Yarn. Company is the largest wheat straw based paper manufacturer with a capacity of 175,000 MTPA in Punjab.

Products	Location	Capacity					
Bath Linen	Budni	300 looms					
Bath Linen	(Punjab)	372 looms					
Bed Linen	(Budni)	500 looms producing 42.96					
		million meters per annum					
Yarn	(Budni)	5 units of 3,65,568					
		spindles and 2,880 rotors					
(Yarn)	(Punjab)	5 units of 1,76,880 spnidles					
		and 3,584 rotors					
Paper	Punjab	1,75,000 MTPA					
Chemical	(Punjab)	(1,00,000 TPA)					

#### **Business strategy**

- Focus on value added products: The Company will enhance its product mix by increasing the percentage of Value added products in its product portfolio. This will help Trident in enhancing its profitability.
- Increasing customer base: The Company is focusing on increasing its customer base and deepening its market presence. The Company strives to increase the volume with existing customers and also add new customers in its stride to fill in the capacities.
- 3. Cost optimization: The Company is continuously taking cost optimization measures in major areas of operations (i.e. power, steam & conversion ratio) to ensure competitiveness. The Company increased its production capacity by 10% in FY2017-18. The Company utilizes in-house energy generated from its 50 MW plant that helps it to optimize power cost in comparison to state electricity board.

#### Overview

Over the last decade, India has not only been successful in defending its market leadership; but also gained market share in the terry towel exports to US due to premium product portfolio, competitive cost of production, better availability of quality raw materials and favourable government policies. Between CY07-17, US terry towel Imports has grown at a CAGR of 2.6% from US\$ 1.29bn to US\$ 1.66bn, during the same period India's terry towel export to US have grown at a CAGR of 6% from US\$ 359mn to US\$ 642mn and India's market share has increased by 10.9ppts from 27.9% to 38.8% gaining market share from Turkey and RoW.

Trident is the second largest Indian exporter of terry towel to US, with a market share of -12-13% and it accounts for -30% of Indian towel exports to the US. While Indian exports of terry towel to US were growing at a CAGR of 6%, Tridents exports of terry towel grew at a CAGR of 12% from ₹ 445 Crores in FY2005-06 to ₹ 1736 crore in FY2017-18.

The domestic urban home textile market is expected to grow at a CAGR of 11.3% between 2016-21 to ₹ 438 bn by 2021 driven by growing per capita income, increasing affluence of the Indian consumer and growing trend of nuclearisation of families.

#### Overview

Trident is the largest manufacturer of wheat straw based paper manufacturer with an installed capacity of 175,000 TPA, which contribute -19% of its overall revenue. The company uses wheat straw (residue left after harvesting wheat, which typically wheat farmers sell for extra income) for manufacturing paper, which provides it with a locational advantage as Punjab is the highest wheat producing state in the country (facilitates easy procurement at attractive pricing). Additionally, the use of wheat straw is environment friendly. With production capacity of -450TPD, The Company saves 5,000 trees per day by using wheat straw instead of wood. This, in turn, results in a reduction of 5,520lbs of CO2 emissions per 1,000 reams of paper produced.

The manufacturing facilities are technology advanced as well and Trident has adopted fuzzy logic for burner management in lime-kiln, in-house QC and R&D lab.

Amongst branded copier segment. Trident's market share is around -10% with roughly 6000 MT monthly volumes. The Company produces branded copier paper, writing & printing maplitho paper and bible & offset print paper. Branded copier accounts 48 % of Trident's paper revenue in FY2017-18 up from 45% in FY2012-13. Trident has

consistently increased its share of copier paper over the years. Copier paper contributed 45% of the company's overall Paper sales volume in FY2012-13, which increased to 48% in FY2017-18.

Between FY2013-18 Trident's paper revenue grew at a CAGR of 3.4% to ₹ 857.9 Cr in FY2017-18. Trident paper product portfolio includes Branded copiers, Maplitho paper, Bible and offset printing paper.

The Company intends to further increase the share of branded copier and leverage on the industry-wide growth in the segment. Copier paper in India is witnessing a CAGR of -8% v/s -4% in other paper and stationery.

Trident commands the highest market share in north India, and is the fourth largest player in India. Easy procurement at attractive pricing as discussed earlier also provides multiplesourcing alternatives to the company.

Demand for the branded copier segment is estimated to grow at a CAGR of 9-10% over FY17-22 owing to rise in incremental spend on stationery by corporates and rise in the number of offices, coupled with steady growth in service industry.

#### 4. Chemicals

Trident is amongst North India's largest commercial and battery grade sulphuric acid manufacturer with an installed capacity of 100,000 TPA. It caters diverse battery needs and finds usage in the production of zinc sulphate, alum, detergent and dye and fertilizers.

We produce three grades of sulphuric acid, which are utilized in various industries for, amongst others, production of zinc sulphate, alum, detergent, dye, and fertilizer, battery manufacturing, metal pickling, power plant, pharmaceutical products. Our sulphuric acid is manufactured by burning of elemental sulphur using the double contact double absorption technology. We have an absorption process at Dhaula which has minimum emissions.

#### **Risk Management**

#### Price risk

Increase in raw material price could impact the profitability of the company

### Mitigation strategy

Currency fluctuations could impact the revenues of the Company

The Company uses hedging for mitigating risks associated with foreign exchange fluctuations.

#### Debt risk

Currency risk

The inability of the Company to pay its debts could impact its image

#### Mitigation strategy

Mitigation strategy

mitigate risk of rising prices.

This Company repaid H 5447 mn of debt in FY2017-18, -53% of which was high cost. Further, its debt-equity ratio improved to  $0.9 \times$  in FY2017-18 ( $1.0 \times$  in FY2016-17) owing to repayment as well as partial prepayment of high-cost debt. As of March 31, 2018, out of the total long-term debt of H 16.9 bn, more than 70% falls under TUFS at a low interest rate.

#### Geographical risk

Concentration in a particular territory could lead in depleting market presence of the Company

#### Mitigation strategy

The Company's 46% of the total revenue is derived from the domestic market. Trident has presence in around 100 countries and caters to a wide customer base. Also, the Company's products are presence on various e-commerce platform proving it an adequate hedge against the risk.

#### Policy risk

Implementation of any policy which is not in favour of the Company could hamper the operations of the Company

#### Mitigation strategy

The GoI has laid great emphasis on Make in India as well as promoting exports and has also provided various incentives such as the rebate of state levies, duty drawback, ATUFS, etc. The Company has capitalized on these schemes and has benefitted from them.

32

#### **SWOT Analysis**

#### Strengths

- · Easy availability of cotton and wheat straw which are important raw material
- · A strong customer base of prestigious and loyal customers
- One of the market leaders in terry towel market of India
- · Ventures in fast growing bed linen segment

#### Opportunities

- · Expansion into value added products
- · Increase in export demand and rise in Indian Companies

#### Weakness

- · The paper industry is cyclical in nature
- · The company is present in a highly competitive market

#### Threats

· Growing pressure is leading to a price competition in the market

#### **Human Resource**

People are the single biggest competitive advantage a company can have. This is because human resource can never be replicated and it contributes immensely to the success of an organisation. The Company realises this and is hence aiming to deliver higher performance from its employees by taking initiative to train and develop its talent pool. Various training workshops and modules are organised at regular intervals that help promote harmonious team work and good employee growth in the Company. In 2017-18, the Company's manpower strength stood at 12,579 as compared to 12,825 in 2016-17. Industrial Relations remained cordial during the year under review.

#### Finance review

Profit and loss account analysis

#### Gross revenues

Gross revenues increased by 2.1 % to ₹ 4670.5 cr in 2017-18, compared with ₹ 4722.9 cr reported in 2016-17. This was on account of destocking by US customers and unfavourable currency movements

#### Operating profit

Operating profit (EBITDA) decreased by 7.9 % to ₹ 914 cr in during 2017-18 from ₹ 991.9 cr in 2016-17, largely because of volatility in raw material costs.

#### Depreciation

Depreciation for the year under review stood at ₹ 404 cr. compared with ₹ 412.4 cr recorded in the previous year, up/ down by 2 % on a y-o-y basis.

#### Finance costs

Finance cost for the year under review decreased/increased by 16.2 % from ₹ 141 cr to ₹ 118.2 cr because of payment of high cost debts in addition to scheduled repayments.

#### Other income

Other income for the year under review stood at ₹94.1 cr, down by 11 % from the last year because of lower forex gains.

#### Total tax expenses

Total tax expenses for the year stood at ₹128.1cr, which included current tax of ₹85.2 cr, tax adjustments related to earlier years of ₹0.5 cr and deferred tax charges of ₹42.3 cr.

#### Net profit

Consolidated net profit for the year under review stood at ₹ 263.7 cr, a 21.8 % decrease over the previous financial year.

#### **Balance Sheet analysis**

#### Net worth

The Company's net worth stood at ₹ 2941.4 cr as on March 31, 2018 increasing by 6.7 %, compared with ₹ 2756.8 cr as on March 31, 2017. The net worth comprised paid-up equity share capital amounting to ₹497.8 cr as on March 31, 2018. The Company's reserves and surplus stood at ₹ 2443.6 cr.

#### Loan profile

The total loan funds stood at ₹ 2797.8 cr while long-term borrowings stood at ₹ 1410.8 cr. The Company's net debt as on March 31, 2018 stood at ₹ 2620.4 cr (including short-term borrowings amounting to ₹1108.4 cr).

(b) Does the Company publish a BR or a Sustainability Report? What is the hyperlink for viewing this report? How frequently it is published?

Yes, the Company publishes its Business Responsibility Report annually and the same is available online at http://www.tridentindia.com/corporategovernance

#### Section E: Principle-Wise Performance

#### Principle 1

 Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/ No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

The Company believes in the conduct of the affairs of its constituents in a fair and transparent manner by adopting highest standards of professionalism, honesty, integrity and ethical behavior in the Organization. The Company exercises complete transparency in its operations with clear communication of the decisions impacting the stakeholders.

The Code of Corporate Governance & Conduct extends to all the members of the Board, Key Managerial Personnel and Senior Management of the Company. Also the Company has formulated Member Service Rules which are applicable to all

the employees of the Company. These Member Service Rules mandate the conduct by the employees of the Company with all the stakeholders in a fair and ethical manner.

The Company has set up an adequate control mechanism in place to address the issues relating to ethics, bribery and corruption

The Company also adopted a Vigil Mechanism and a Whistle Blower Policy applicable to all Directors, Employees and Stakeholders including Vendors, Channel Partners, Business Associates including contractors or Customers of the organization, who can make Protected Disclosures regarding any unethical behavior or improper practices being followed under the Policy.

There is an Internal Complaints Committee wherein any wrongful conduct as regards sexual harassment or any discrimination can be reported.

How many stakeholder complaints have been received in the past financial year and what % was satisfactorily resolved by the management? If so, provide details thereof.

As detailed in the Corporate Governance Report, 11 investors' complaints were received during the financial year 2017-18. No Complaint was outstanding as on March 31, 2018 and all complaints stand resolved.

During the reporting period, no complaint was received as regards ethics, bribery and corruption from any of the stakeholder.

#### Principle 2

 List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/ or opportunities.

E-Melange Sheets [Bed Linen]

Good nature Sheets [Bed Linen]

Agro-waste based Paper

- For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):
  - (a) Reduction during sourcing/ production/ distribution achieved since the previous year throughout the value chain?

The Company continuously strives to innovate and unlock the value of its product to present the best to its customers. At the same time being a socially responsible citizen, the Company reconciles economy with ecology.

We endeavour to make the products durable with multi attributes so as to reduce the burden on resources.

The E-Melange range of Bed Linen are designed in an environment friendly way and the effect of dyeing appearance is exquisite and highly appealing.

The Good nature range of Bed Linen is made up of environmentally friendly fabrics without inorganic chemicals and colours.

The Company is one of the few companies manufacturing paper with wheat straw (unconventional raw material). Besides, the Company's captive power plant utilizes waste from other processes as well as biomass for power generation, strengthening its credentials as an environment-friendly organization.

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Not Applicable

 Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what % of your inputs was sourced sustainably? Also, provide details thereof

Yes, the business model of the Company has their roots in an agro-based economy which leads to prosperity of farmers. The Company procures its raw material requirement from within a radius of 150 kms of the plant area.

Realizing the responsibility towards environment, the Company continuously innovates for Green Initiatives. The major breakthrough has been achieved in the Textiles wherein Company has used a green process of dyeing which reduces wastage of water.

We discourage the use of child labour or forced labour at the premises of business associates in the area of ethical sourcing. We would not be able to ascertain the % of our inputs which have been sourced sustainably.

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

Yes, the Company take services from the local and small producers. Further, the raw materials used by the Company are agro-based so they are sourced from local economy.

(1) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Through its sustained efforts, the Company has helped local farmers and service providers to prosper their respective businesses. The Company procures cotton, wheat straw and other inputs from local farmers. Also, the Company provides financial and other assistance to farmers who produce these agriculture products. This increases the capacity and capability of farmers and also the quality of the products produced.

The Company's manufacturing sites act as an economic centre for the communities in the vicinity. The Company ensures that it engages local villagers and small businesses around its manufacturing facilities in variety of productive employment i.e. housekeeping, horticulture etc.

 Does the Company have a mechanism to recycle products and waste? If yes what is the % of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof.

The Company is having mechanism to recycle its products. The Company is very cautious about the waste management, therefore wastes are treated in such a way which is best for the environment.

Trident maintains a zero liquid discharge facility for towel processing, saving fresh water of 6 million litres per day directly. The facility has a biological plant for biodegradation of wastewater and an RO system to recover 92% of water.

The Company's captive power plant utilizes waste from other processes as well as biomass for power generation, strengthening its credentials as an environment- friendly organization. Also, the power plant is equipped with the

latest multi-fuel AFBC boilers with complete automated DCS operation and intelligent load management system. The plant can consume agro-wastes (rice husk), ETP sludge, methane (from ETP), bet coke and imported coke.

#### Principle 3

- Please indicate the Total number of employees. 12,579 permanent employees
- Please indicate the Total number of employees hired on temporary/contractual/casual basis. - 2,066 contractual employees
- 3. Please indicate the Number of permanent women employees. 2,163 women employees
- 4. Please indicate the Number of permanent employees with disabilities 51 permanent employees with disabilities
- 5. Do you have an employee association that is recognized by management.-  $\mbox{No}$
- 6. What % of your permanent employees is members of this recognized employee association?- Not Applicable
- Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year. - Not Applicable

No.	Category	No. of complaints filed during the financial year	No. of complaints pending as at end of the financial year
1	Child labour/ forced labour/ involuntary labour	-	-
2	Sexual harassment	-	=
3	Discriminatory employment	-	-

- 8. What % of your under mentioned employees were given safety & skill upgradation training in the last year?
  - (a) Permanent Employees 20.2%
  - (b) Permanent Women Employees 18.3%
  - (c) Casual/Temporary/Contractual Employees 6.1%
  - (d) Employees with Disabilities 51.0%

#### Principle 4

1. Has the Company mapped its internal and external stakeholders?

Ye

- Out of the above, has the Company identified the disadvantaged, vulnerable & marginalized stakeholders.
- Are there any special initiatives taken by the Company to engage with the disadvantaged, vulnerable and marginalized stakeholders. If so, provide details there of.

The Company has taken special initiatives for the benefit of local communities and other disadvantaged and marginalized stakeholders. The Company also actively participated in the CSR activities to benefit the local communities nearby the Company's manufacturing facilities.

Under the CSR programme, the Company has taken following initiatives to benefit the local and marginalized stakeholders:-

Saakshar: Trident educates the illiterate masses of the villages beyond the scope of mere reading-writing and numeric. The Company holds and conducts its Adult Education Programme 'Saakshar' in association with the village Panchayats and Anganwadi centres. Regular awareness campaigns are conducted to highlight the importance of women education and functional literacy for a more independent lifestyle. People are educated and made aware about combating social disparities.

Nirmal Narmada Abhiyan: Trident's CSR team runs mass awareness drive to clean the most polluted Ghat- The Sethani Ghat in Hoshangabad City - along with other ghats in Budni and Hoshangabad. The Company has installed dustbins at multiple places (close to and on the ghats) and conducts monthly cleanliness review of River Narmada and its phats in the city.

Mobile dispensary & Medical Camps: Trident runs a fullyequipped mobile dispensary that carries a team of Doctors to the remote & tribal areas around Budni. This dispensary provides free primary health care services to poor rural masses of all age groups.

Mega medical camps, in association with the CMC Hospital was conducted by the Company at Ludhiana and Barnala Location. More than 50,000 people have benefited from the medical camp and mobile dispensary endeavours.

Enhancing earning ability in Women: Trident promotes women empowerment and extends its support to several self-help groups of women in rural areas of Punjab and Madhya Pradesh. Making women self-sustaining and confident.

It encourages women to use their skills like traditional hand embroidery, block printing, stitching, crochet work and jute-products making, etc. Members of Hastakala Self Help Groups have also been provided with Sewing Machines to help increase their earning ability.

Further, the other CSR initiatives taken by the Company are detailed in full Annual Report.

#### Principle 5

 Does the policy of the Company on human rights cover only the Company or extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs/Others?

The Company advocates the supremacy of human rights and all its policies acknowledge this. The Company discourages its business associates from doing any violation of Human Rights.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

The Company did not receive any stakeholder complaint in 2017-18 regarding violation of human rights.

#### Principle 6

 Does the policy related to Principle 6 cover only the Company or extends to the Group/ Joint Ventures/ Suppliers/ Contractors/ NGOs/ others.

The Company as a responsible corporate citizen considers its obligation to maintain highest standards of the environmental management and ensure for all its members,

consultants, contractors and customers a safe and healthy environment free from occupational injury & diseases. However, the policy of the Company in this regard governs the conduct of the Company only.

Does the Company have strategies/initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for web page etc.

The Company is very much concerned about the climate change due to industrialisation, so it adopts best of processes & techniques, so that it minimises the negative effect on the environment. Decision to manufacture Paper from wheat straw was one of the most important initiatives taken by the Company. This saves thousands of trees from cutting down, which is one of the best ways to preserve our precious environment from being exposed to be polluted.

Trident maintains a zero liquid discharge facility for towel processing, saving fresh water of 6 million litres per day directly. The facility has a biological plant for biodegradation of wastewater and an RO system to recover 92% of water.

The Company endeavours to impact the environment positively with cleaner production methods, use of energy efficient and environment friendly technologies.

The Company has been assessed as best performer in terms of energy saving under the Perform, Achieve and Trade (PAT) Scheme Cycle I in the Pulp and Paper Sector by Bureau of Energy Efficiency, Government of India, Ministry of Power. The award is recognition of the Company's outstanding efforts to continuously conserve energy efficiency and supporting India's journey towards sustainable development.

 Does the Company identify and assess potential environmental risks? Y/N

Yes, potential environmental risks are identified as a part of the Company's risk management activity and feature in the Company's risk library. The Company regularly reviews its environmental risks and undertakes initiatives to mitigate them.

 Does the Company have any project related to Clean Development Mechanism? If so, provide details thereof. Also, if Yes, whether any environmental compliance report is filed?

The Company continues to work towards cleaner tomorrow by use of cleaner fuels and maximum utilisation of energy produced during the manufacturing process. Further, the adoption of globally-accepted manufacturing principles such as CLRI (Cleaning, Lubricating, Re-tightening and Inspection) and TPM (Total Productive Maintenance) strengthens the health of assets. However no Compliance Report has been filed.

The Company was also awarded with the following awards during the Financial Year 2017-18:

Award	Category	Division		
National Energy Management Award 2017 by	Energy Efficient Unit	Home Textiles, Budni, Madhya Pradesh		
Confederation of Indian Industry	Excellent Energy Efficient Unit	Home Textiles, Barnala, Punjab		
	Excellent Energy Efficient Unit	Paper and Chemical, Barnala, Punjab		
	Most Useful Presentation	Paper and Chemical, Barnala, Punjab

Award for Excellence				
Best performer in terms of energy saving by	Under Perform, Achieve and Trade (PAT) Scheme Cycle I in the Pulp and			
Bureau of Energy Efficiency, Government of	Paper Sector			
India, Ministry of Power				

 Has the Company undertaken any other initiatives onclean technology, energy efficiency, renewable energy, etc.
 Y/N. If yes, please give hyperlink for web page etc.

All the manufacturing facilities of the Company are ultra modern and fully automated which makes efficient use of energy and technology. The Company uses the steam produced as a by-product, in the production of energy / power, which makes it highly energy efficient. The power plant is equipped with the latest multi-fuel AFBC boilers with complete automated DCS operation and intelligent load management system. The plant can consume agro-wastes (rice husk), ETP sludge, methane (from ETP), pet coke and imported coke. The other initiatives taken by the Company for energy efficiency are detailed in Annexure I to the Directors' Report included in the Annual Report for FY 2017-18.

6. Are the Emissions / Waste generated by the Company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Yes, the Emissions/ Waste generated by the Company are within the permissible limits given by CPCB/SPCB for the financial year.

 Number of showcause/ legal notices received from CPCB/ SPCB which are pending (i.e. not resolved to satisfaction) as on the end of Financial Year.

There is no show cause / legal notice received from CPCB / SPCB which is pending as on the end of financial year in relation with non-compliance with environmental laws and regulations.

#### Principle 7

 Is your Company a member of any trade and chamber or association? If Yes, name only those major ones that your business deals with:

Yes, our Company was member of the following Organizations as on March 31, 2018:

- i. Federation of Indian Chambers of Commerce and Industry [FICCI]
- ii. Confederation of Indian Industry [CII]
- iii. The Associated Chambers of Commerce & Industry of India [ASSOCHAM]
- iv. All India Management Association [AIMA]
- v. Confederation of Indian Textile Industry

- vi. PHD Chamber of Commerce & Industry
- vii. Federation of Indian Export Organisations [FIEO]
- viii. The Cotton Textiles Export Promotion Council
- ix. Apparel Export Promotion Council [AEPC]
- x. Electronics and Computer Software Export Promotion
- xi. Indian Paper Manufacturers Association [IPMA]
- xii. Indian Agro & Recycled Paper Mills Association [IARPMA]
- xiii. Northern India Textile Mills Association [NITMA]
- Have you advocated/lobbied through above associations for the advance mentor improvement of public good? Yes/ No;if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy Security, Water, Food Security, Sustainable Business Principles, Others)

The Company appreciates the importance of trade associations. Trade associations provide a forum for information sharing and discussion with both trade association officials and representatives of various sectors. The Company participates in the discussions, meetings and seminar organized by the various associations and actively put forth its viewpoint on various policy matters and inclusive development policies. The Company utilizes these forums for pushing new policy initiatives and agendas.

#### Principle 8

 Does the Company have specified programmes/initiatives/ projects in pursuit of the policy related to Principle 8? If yes, details thereof.

Being a responsible corporate citizen, Trident has a value system of giving back to society and improving life of the people and the surrounding environment. The Company's CSR initiatives are inspired by the opportunity to contribute to a more secure and sustainable future. The details on the same have been shared in the Section 'Corporate Social Responsibility that forms part of the 'Management Discussion & Analysis' in the Annual Report for the financial year 2017-18.

Are the programmes/ projects undertaken through inhouse team/ own foundation/ external NGO/ government structures/ any other organization?

Programmes as covered under CSR Activities are undertaken through Company as well as external organizations also. Activities undertaken by external organizations are directed and monitored by the Company on regular intervals /periods.

3. Have you done any impact assessment of your initiative?

The CSR programmes and their impacts/ outcomes are monitored and reviewed by the CSR Committee of the Board and management periodically to understand the impact of these programmes.

 What is your Company's direct contribution to community development projects-Amount in ₹ and the details of the projects undertaken.

In 2017-18, the Company spent ₹ 62.4 million on various CSR initiatives, detailed in Annexure IV to the Directors' Report included in the Annual Report of the Company for the Financial Year 2017-18.

Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain.

The Company has made a special team along with a special CSR Department. These employees visit the areas to understand the problems being faced by the community and determine the action required to betaken. The same is then discussed with CSR Head for budget allocation and implementation. The Company strives to reach out to the end user itself to have a maximum impact. For eg: Free Medical Camp in collaboration with CMC Hospital, Ludhiana and Barnala, distribution of notebooks and providing desks for students in schools, Initiatives to enhance earning ability of Women, etc.

#### Principle 9

 What % of customer complaints/consumer cases are pending as on the end of financial year.

The Mission of the Company is to continue growth by leading national and international standards and embracing ethical means in harmony with the environment, ensuring customer delight, stakeholder trust and social responsibility.

There were no Customer complaints/consumer cases pending as on the end of financial year.

 Does the Company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A./ Remarks (additional information)

The Company fully complies the laws of land. All the display and disclosure requirements as per applicable Statutes are complied with

Is there any case filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year. If so, provide details thereof.

There have been no cases relating to unfair trade practices, irresponsible advertising and/or anti-competitive behaviour against the Company in the last five years.

4. Did your Company carry out any consumer survey/ consumer satisfaction trends?

Customers' satisfaction is the Company's goal, which motivates the Company to keep its products as per the consumers' requirements. To understand the customers better, the Company adopts several procedures including customer surveys, customer audits and direct feedback. The Company Conducted regular Retailer meets for better market research and customer service. Feedback is also taken by the management during the visit of Customers at the manufacturing facilities. This helps the Company in preparing and planning the future business strategies and profitability.

The Company has achieved "Platinum Level Status for 2017 in accordance with the JC Penny Qualifications" and also received "Excellence in operations in Quality" Award for Financial Year 2017 from IKEA. The recognitions conferred upon the Company is attributed to quality standards and customer centric approach and motivate Company to drive in Company's efforts to continue its quality excellence, commitment, ethical business practices, sustainability and social responsibility.

#### Senior Management Personnel and KMP and Other Employees

The Company has specific job descriptions for the various positions in the Organization Structure. The

job descriptions detail the minimum qualifications and experience requirements of the specific position, including for KMP and other Senior Management Personnel, which commensurate with the size of its business and the nature and complexity of its operations. These positions will be filled internally as well as by lateral hiring. Any new recruit in the Company is to match the requirements prescribed for the position.

#### II. Remuneration

#### a. Provisions relating to remuneration of Managing Director, Key Managerial Personnel, Senior Management Personnel and other employees

The Managing Director, Key Managerial Personnel, Senior Management Personnel and other employees receive basic salary, allowances and other perquisites and performance based remuneration. The Company policy is that remuneration should be fair and reasonable and should be reflective of market competitiveness so as to attract the best talent. The following are the guiding factors:

- The scope of duties, the role and nature of responsibilities;
- The level of skill, knowledge, experience, local factors and expectations of individual;
- The Company's performance, long term strategy and availability of resources;
- The level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors, KMPs, Senior Management Personnel and other employees of the quality required to run the Company successfully:
- Relationship of remuneration to performance is clear and meets appropriate performance benchmark; and
- Remuneration involves a balance between fixed and incentive pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

The remuneration of Managing Director, Key Managerial Personnel and other Senior Management Personnel are determined and reviewed by Nomination and Remuneration Committee, while the HR department reviews the remuneration of other employees. Any increase in the maximum aggregate remuneration payable beyond permissible limit under the Companies Act, 2013 shall be subject to the approval of the Shareholders' and/or of the Central Government, as may be applicable.

## b. Provisions relating to remuneration of Non-Executive / Independent Director(s)

- The amount of sitting fees shall be subject to ceiling/ limits as provided under Companies Act, 2013 and rules made thereunder or any other enactment for the time being in force and as decided by the Board from time to time.
- The Non-Executive/ Independent Director(s) may also receive remuneration / compensation / commission etc as per criteria/limit thereof prescribed under Companies Act, 2013 and rules made thereunder.
- Non-Executive Directors may also receive stock options. Limits shall be set for the maximum

number of stock options that can be granted to Non-Executive Directors in any financial year and in the aggregate. However Independent Directors shall not be entitled to any stock option.

 Any increase in the maximum aggregate remuneration payable beyond permissible limit under the Companies Act, 2013 shall be subject to the approval of the Shareholders' and/or of the Central Government, as may be applicable.

#### III. Evaluation

Section 149 of the Companies Act, 2013 read with Schedule IV of the said Act and Regulation 25 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 provides that the Independent Directors shall at its separate meeting review performance of non-independent directors, Chairperson of the Company and the Board as a whole. The performance evaluation of Independent Directors shall be done by the entire Board of Directors excluding the Director being evaluated.

The evaluation will be done on following parameters:

- Role which he/she is expected to play, internal Board Relationships to make decisions objectively and collectively in the best interest of the Company to achieve organizational successes and harmonizing the Board;
- Attendance and contribution at Board and Committee
  meetings:
- Subject expertise, skills, bahaviour, experience, leadership qualities, understanding of business and strategic direction to align company's values and standards;
- Ability to monitor the performance of management and satisfy himself with integrity of the financial controls and systems in place by ensuring right level of contact with external stakeholders;
- Vision on Corporate Governance and Corporate Social Responsibility:
- Ability to create a performance culture that drives value creation and a high quality of discussions;
- Effective decision making ability to respond positively and constructively to implement the same to encourage more transparency;
- 8. Open channels of communication with executive management and other colleague on Board to maintain high standards of integrity;
- Contribution to enhance overall brand image of the Company;

Based on evaluation criteria, the Nomination & Remuneration Committee and the Board shall annually review the performance of each and every Director. Based on the rating of performance, the Board can decide to extend or continue the term of appointment or to introduce new candidate as a member of the Board or Retirement of the member based on his/her performance rating.

#### **Disclosures**

The Company shall make the necessary disclosures of the policy in the Board Report as required under the Act and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

# Annexure IV to the Directors' Report

#### **Annual Report on CSR Activities**

 Brief Outline of the company's CSR Policy, including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs:

#### Brief Outline of the Company's CSR Policy

Trident Limited believes in corporate excellence and social welfare. This corporate philosophy is the force behind integrating Corporate Social Responsibility (CSR) into Trident values, culture, operation and business decisions at all levels of the organization. Being a responsible corporate citizen, Trident has a value system of giving back to society and improving life of the people and the surrounding environment.

The Company's CSR initiatives are inspired by the opportunity to contribute to a more secure and sustainable future. Trident believes that the corporate strategy which embraces social developments as an integral part of the business activities ensure long term sustainability of business enterprises. With this belief, the Company is committed to make substantial improvements in the social framework of the nearby community. Looking at the social problems which the country faces today, we believe that every such contribution shall bring a big change in our society.

#### Overview of Projects or Programs Proposed to be Undertaken

During the year under review, the Company has undertaken many initiatives beyond business with the aim for inclusive development. The Company gives preference to the development of local area i.e. area in the vicinity of its manufacturing locations or offices. These included contributions for improving availability of health care facilities to economically weaker sections of the society, promoting/ sponsoring education in economically and educationally backward areas of Punjab and Madhya Pradesh, and sponsoring Skill Development Initiatives, promoting earnability of rural females etc.

#### Form No. MR-3

#### Secretarial Audit Report

#### for the financial year ended on March 31, 2018

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule no.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

The Members. Trident Limited

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Trident Limited (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company as specified in Annexure I and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the period covered by our audit, that is to say, from April 01, 2017 to March 31, 2018 (hereinafter referred to as "Audit Period"), complied with the statutory provisions listed hereunder and also that the Company has proper boardprocesses and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the Audit Period according to the provisions of:

- 1. The Companies Act, 2013 ("the Act") and the rules made thereunder;
- 2. The Securities Contracts (Regulation) Act, 1956 ("SCRA") and the rules made thereunder:
- 3. The Depositories Act, 1996 and the regulations and byelaws framed thereunder:
- 4. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Overseas
- 5. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992
  - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - b. The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations");
  - c. The Securities and Exchange Board of India (Registrars

to an Issue and Share Transfer Agents) Regulations. 1993 regarding the Companies Act and dealing with

- d. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015:
- e. The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
- 6. Laws specifically applicable to the industry to which the Company belongs, as identified by the management, that
  - a. Textile (Development and Regulation) Order, 2001:
  - b. Water (Prevention and Control of Pollution) Act. 1974 read with rules issued thereunder:
  - c. Air (Prevention and Control of Pollution) Act. 1981:
  - d. The Noise Pollution (Regulation and control) Rules,
  - e. Environment (Protection) Act. 1985 and rules issued thereunder:
  - f. The Public Liability Insurance Act. 1991:
  - g. Hazardous Waste (Management, Handling and Transboundary Movement) Rules, 2008.

We have also examined compliance with the applicable clauses of the following:

a. Secretarial Standards 1 and 2 issued by the Institute of Company Secretaries of India;

During the Audit Period, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, etc. mentioned above.

#### Management Responsibility:

- 1. Maintenance of secretarial records is the responsibility of the management of the Company. Our responsibility is to express an opinion on these secretarial records based on
- 2. We have followed the audit practices and the processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We

believe that the processes and practices, we followed provide a reasonable basis for our opinion;

# Annexure VII to the Directors' Report

#### **Dividend Distribution Policy**

#### Objective

The objective of the Dividend Distribution Policy of the Company is to reward its shareholders by sharing a portion of the profits. whilst also ensuring that sufficient funds are retained for growth of the Company.

This policy aims to ensure a regular dividend income for the shareholders and long term capital appreciation for all stakeholders of the Company. The Company would ensure to strike the right balance between the quantum of dividend paid and amount of profits retained in the business for various purposes. The Board of Directors will refer to the policy while declaring/recommending dividends on behalf of the Company. Through this policy, the Company would endeavor to maintain a consistent approach to dividend pay-out plans.

The Company would endeavor to pay 6% of the face value per share as dividend every year, subject to the gross dividend payout not exceeding 33% of the net profit after tax of the Company.

The Company would endeavor to keep the gross dividend payout ratio up to 33% except for reasons to be recorded. The dividend for each year would be recommended by the Board at its discretion taking into account the free cash flow position, the profit earned during that year, the capex requirements and applicable taxes. The Board may also declare interim dividend at its discretion within the aforesaid payout ratio.

Depending on the long term growth strategy of the Company and the prevailing circumstances, the Board may increase the aforesaid threshold dividend of "6% of the face value per share" from time-to-time, while trying to ensure that sufficient funds are retained for growth of the Company.

#### **Category of Dividends**

The Companies Act provides for two forms of Dividend- Final & Interim. The Board of Directors shall have the power to recommend final dividend to the shareholders for their approval in the general meeting of the Company. The Board of Directors shall have the absolute power to declare interim dividend during the financial year, as and when they consider it fit.

#### Final Dividend

The Final dividend is paid once for the financial year after the annual accounts are prepared. The Board of Directors of the Company has the power to recommend the payment of Final Dividend to the shareholders in a general meeting. The declaration of Final dividend shall be included in the ordinary business items that are required to be transacted at the Annual General Meeting.

#### Process for approval of Payment of Final Dividend:

- · Board to recommend quantum of final dividend payable to shareholders in its meeting in line with this Policy:
- Based on the profits arrived at as per the audited financial statements:

- Shareholders to approve in Annual General Meeting:
- · Once in a financial year.

This form of dividend can be declared by the Board of Directors one or more times in a financial year as may be deemed fit by it. The Board of Directors of the Company would declare an interim dividend, as and when considered appropriate, in line with this policy. Normally, the Board could consider declaring an interim dividend after finalization of quarterly (or half yearly) financial accounts. This would be in order to supplement the annual dividend or in exceptional circumstances.

#### Process for approval of Payment of Interim Dividend:

- · Board may declare Interim Dividend at its complete discretion in line with this Policy:
- Based on profits arrived at as per quarterly (or half- yearly) financial statements including exceptional items;
- · One or more times in a financial year.

#### **Dividend Guideline**

The Board at its discretion, while approving the annual accounts in each financial year, also recommend the dividend for approval of the shareholders after taking into account the free cash flow position, the profit earned during that year, the Capex requirements and applicable taxes. A dividend policy stated by the current Board cannot be binding on the extant Board. However, the current Board can form a guideline on dividend payout in future in the interest of providing transparency to the shareholders.

#### Circumstances under which the shareholders may expect dividend

The Equity Shareholders of the Company may expect dividend only if the Company is having surplus funds after providing all expenses, depreciation etc and complying all other statutory requirements of the Companies Act, 2013. Company's immediate expansion plan shall also be a big factor for taking the dividend decision and determining the dividend amount.

Preference Shareholders shall be entitled and paid dividend at the fixed rate as per the terms of issue. In case of the Cumulative Preference Shares, if the Company is not having distributable profits for any certain financial year or the Company is not able to pay the dividend, then this shall be accumulated and be paid

The financial parameters that shall be considered while declaring dividend.

Subject to the provisions of the Companies Act, Dividend shall be declared or paid only out of:

- (i) Current financial year's profit:
  - a) after providing for depreciation in accordance with law;

- b) after transferring to reserves such amount as may be prescribed or as may be otherwise considered appropriate by the Board at its discretion.
- (ii) The profits for any previous financial year(s):
  - a) after providing for depreciation in accordance with law:
  - b) remaining undistributed; or
- (iii) out of i) & ii) both.

In computing the above, the Board may at its discretion. subject to provisions of the law, exclude any or all of (i) extraordinary charges (ii) exceptional charges (iii) one off charges on account of change in law or rules or accounting policies or accounting standards (iv) provisions or write offs on account of impairment in investments (long term or short term) (v) non cash charges pertaining to amortisation or ESOP or resulting from change in accounting policies or accounting standards.

The Board may, at its discretion, declare a Special Dividend under certain circumstances such as extraordinary profits from sale of investments.

#### Internal and external factors that shall be considered for declaration of dividend

The decision regarding dividend pay-out is a crucial decision as it determines the amount of profit to be distributed among shareholders and amount of profit to be retained in business. The Board of Directors will endeavor to take a decision with an objective to enhance shareholders wealth and market value of the shares. However, the decision regarding pay-out is subject to several factors and hence, any optimal policy in this regard may be far from obvious.

The Dividend pay-out decision of any company depends upon certain external and internal factors.

#### **External Factors**

State of Economy - in case of uncertain or recessionary economic and business conditions, Board will endeavor to retain larger part of profits to build up reserves to absorb future shocks.

Capital Markets - when the markets are favorable, dividend pay-out can be liberal. However, in case of unfavorable market conditions, Board may resort to a conservative dividend payout in order to conserve cash outflows.

Statutory Restrictions - The Board will keep in mind the restrictions imposed by Companies Act with regard to declaration of dividend.

#### Internal Factors

Apart from the various external factors aforementioned, the Board will take into account various internal factors while declaring Dividend, which inter alia will include:

- (i) Profits earned during the year;
- (ii) Present & future Capital requirements of the existing
- (iii) Brand/Business Acquisitions;
- (iv) Expansion/ Modernization of existing businesses;
- (v) Additional investments in subsidiaries/associates of the
- (vi) Fresh investments into external businesses;
- (vii) Any other factor as deemed fit by the Board.

#### Policy as to how the retained earnings shall be utilized

The profits earned by the Company can either be retained in business and used for acquisitions, expansion or diversification, or it can be distributed to the shareholders. The Company may choose to retain a part of its profits and distribute the balance among its shareholders as dividend. This Policy aims to reconcile between all these needs.

#### Provisions for dividend with regard to various classes of shares Dividend on Preference Shares:

Preference Shareholders shall receive dividend at the fixed rate as per the terms of allotment and shall stand in priority to equity shareholders for payment of dividend.

In case of participatory preference shares, the shareholders shall have the right in receiving a share in the other profits of the company.

#### **Dividend on Equity Shares:**

Equity Shareholders shall be entitled for the dividend, interim or final, as the case may be, if declared by the Board of Directors or the shareholders of the Company. Equity dividend shall stand second in priority after payment of dividend to the Preference Shareholders

#### Review

This policy will be reviewed periodically by the Board.

# **Corporate Governance Report**

### Company's Philosophy on Corporate Governance

Corporate Governance at Trident Limited ('the Company') cares for the overall well-being and welfare of all constituents of the system and takes into account the stakeholders' interest in every business decision.

The Company is committed to pursue growth by adhering to the highest national and international standards of Corporate Governance. The Company's philosophy on Corporate Governance is based on following principles:

- 1. Lay solid foundations for management
- 2. Structure the Board to add value
- 3. Promote ethical and responsible decision-making
- 4. Safeguard integrity in financial reporting
- 5. Make timely and balanced disclosures
- 6. Recognise and manage business risks
- 7. Respect the rights of the shareholders
- 8. Encourage enhanced performance
- Remunerate fairly and responsibly
- 10. Recognise the legitimate interest of the stakeholders
- 11. Legal and statutory compliances in letter and spirit

The Board of Directors of the Company has adopted a "Combined Code of Corporate Governance and Conduct" (hereinafter referred to as 'Code') based on the principles of good Corporate Governance and best management practices being followed globally besides complying with the laws of land. The Code is available at the following link: https://tridentindia.com/webroot/reports/Combined\_Code\_of\_Corporate\_Governance\_and\_Conduct.pdf

### **Board of Directors**

As on the date of report, the Board comprised of five directors, of which 80% are Non-Executive and 60% are Independent Directors. The Company has a Non-Executive Independent Chairperson. The Board also has representation of woman Independent Director and one Executive Director.

As per the disclosure received from the Directors,

### Meetings

### Meeting details - Board and Committees

At least four Board meetings are held in a year, one in each quarter to review the financial results and other items of the agenda. The maximum gap between any two consecutive Board meetings does not exceed 120 days. Apart from the four scheduled Board meetings, keeping in view the business requirements, if any, additional Board meetings may be convened. Urgent matters are also approved by the Board by passing resolutions through circulation.

The Independent Directors of the Company also hold at least one meeting in a year without the attendance of Non-Independent Directors and members of management to carry out the evaluations/ review as prescribed under the Schedule IV of the Companies Act, 2013 and Regulation 25 of the SEBI

(Listing Obligations and Disclosure Requirements) Regulations, 2015 ['SEBI (LODR) Regulations, 2015'].

The Company also holds at least one Audit Committee meeting in each quarter, inter-alia, to review financial results. The Statutory Auditors and Internal Auditors attended the meetings of Audit Committee on the invitation of Chairperson of the Audit Committee, for their respective agenda items. Meetings of other committees of the Board are held whenever matters falling under their terms of reference need discussion and decision.

Every Director on the Board/ Committee is free to suggest any item for inclusion in the agenda for the consideration of the Board/ Committee. The information as required under Regulation 17 of the SEBI (LODR) Regulations, 2015 and Combined Code of Corporate Governance and Conduct are made available to the members of the Board/ Committee.

Following are the details of meetings of Board of Directors, Committees thereof and Independent Directors' Meeting held between April 1, 2017 and March 31, 2018:

ir. Io.	Meetings	No. of meetings held during the year	Date of meetings

Mr Rajinder Gupta, Mr Rajiv Dewan and Mr Deepak Nanda were present in the Annual General Meeting of the Company held on September 23, 2017.

### Agenda and Minutes

All the departments in the Company communicate to the Company Secretary well in advance with regard to matters requiring approval of the Board/Committees to enable her to include the same in the agenda for the Board/Committee meeting(s). Agenda papers are circulated to the Directors / Committee Members well in advance before the respective meetings of the Board / Committees.

The Company Secretary while preparing the agenda and minutes of the Board/Committee meeting is required to ensure adherence to the applicable provisions of the law including Companies Act, 2013. The applicable Secretarial Standards issued by the Institute of Company Secretaries of India (ICSI) are also complied with by the Company. The draft minutes of the proceedings of each Board/Committee meeting are circulated to the Board/Committee members for their comments and thereafter considering the comments received, if any, the minutes are entered in the minute book within 30 days of the respective meetings. Copy of the signed minutes is also circulated to the Directors/ members of the Committees, as applicable, within 15 days of signing by the Chairman. The Board also takes note of the minutes of the Committee meetings duly approved by their respective Chairman.

All material information is incorporated in the agenda papers for facilitating meaningful and focused discussions at the meeting. The information regularly supplied to the Board, interalia, includes the following:

- → Annual operating plans and budgets and any updates thereon;
- → Capital budgets and any updates;
- Quarterly results for the Company and its operating divisions or business segments:
- → Minutes of meetings of Audit Committee and other committees;
- → Legal compliances report and certificate;
- → The information on recruitment and remuneration of senior officers just below the board level, including appointment or removal of Key Managerial Personnel of the Company;
- → Show cause, demand, prosecution notices and penalty notices issued against the Company having material impact, if any;

- → Fatal or serious accidents, dangerous occurrences, any material effluent or pollution problems, if any;
- → Any material default in financial obligations to and by the Company, or substantial non-payment for goods sold by the Company, if any;
- Any issue, which involves possible public or product liability claims of substantial nature, including any judgment or order, which may have passed strictures on the conduct of the Company or taken an adverse view regarding another enterprise that can have negative implications on the Company, if any:
- → Details of any joint venture or collaboration agreement, if any;
- → Transactions that involve substantial payment towards goodwill, brand equity, or intellectual property, if any;
- → Significant labour problems and their proposed solutions. Any significant development in human resources/ industrial relations front like signing of wage agreement, implementation of Voluntary Retirement Scheme, etc., if any:
- → Sale of investments, subsidiaries, assets, which are material in nature and not in normal course of business, if any:
- Quarterly details of foreign exchange exposures and the steps taken by management to limit the risks of adverse exchange rate movement, if material:
- Non-compliance of any regulatory, statutory nature or listing requirements and shareholders service such as non-payment of dividend and delay in share transfer etc, if any.
- → Any other information as may require Board's deliberation or may be required by law to be placed before the Board.

### **Board Level Committees**

### Risk Management Committee

The broad terms of reference of Risk Management Committee include laying down procedures to inform Board members about the risk assessment and minimization procedures, monitoring, reviewing and recommending updations in the risk management plan for the Company; insuring any compensation or damages to be paid in virtue of any legal liability including a liability arising from a breach of contract by way of insurance against the risk of meeting any liability, overseeing legal compliance by the Company, highlighting instances of non-compliance to Board with its recommendation to minimize the probable risk and providing its report/ recommendation on the overall compliance structure of the Company and performing such other functions as may be assigned by the Board of Directors from time to time.

### **Directors' Remuneration**

### Policy for Directors' Remuneration

### Executive Directors

The remuneration paid to the Executive Directors is recommended by the Nomination & Remuneration Committee in accordance with Nomination & Remuneration Policy adopted by the Company and approved by the Board of Directors subject to the approval by the shareholders, if required.

### Non-executive Directors

Non-executive Directors are paid remuneration by way of sitting fee for attending meetings of the Board and/or Committees thereof

The members of the Company, in the Annual General Meeting held on September 23, 2017, have also approved the payment of Commission to Independent Directors of the Company for each financial year over a period for five years w.e.f. April 1, 2017 within the overall maximum limit of 1% (one percent) of the Net Profits of the Company over and above the sitting fees being paid to them for attending meetings of the Board and/or Committee thereof.

Further, the members of the Company, in the Annual General Meeting held on September 12, 2015, approved payment of remuneration by way of commission @ 3% of net profits of the Company to Mr Rajinder Gupta, Non-executive Co-Chairman of the Board, for a period of five years w.e.f. April 1, 2015 to March 31, 2020, over and above the sitting fees being paid to him for attending meetings of the Board and/or Committee thereof.

The details of the remuneration paid to the Directors along with their relationships and business interests are detailed below:

### Relationships of Directors, their business interests and remuneration

(₹ million)

Name of the Director Relationship with other		Business relationship with the Company, if any	Remuneration paid/ payable for the year ended March 31, 2018			ended
	Directors		Sitting fee	Salary & Perquisites	Commission	Total
Ms Pallavi Shardul Shroff	None	None	0.4	-	-	0.4
Mr Rajinder Gupta	None	Promoter	0.6	-	114.2	114.8
Mr Dinesh Kumar Mittal	None	None	0.2	-	5.0	5.2
Mr Rajiv Dewan	None	None	0.7	-	-	0.7
Mr Deepak Nanda	None	None	-	22.4	-	22.4

Further, during the financial year 2017-18 the Company has neither advanced any loan nor granted any stock options to any of its directors. The Company has also taken Directors' and Officers' (D&O) Liability Insurance to protect its Directors' officers and their spouses' personal liability for financial losses that may arise out of their unintentional wrongful acts.

### Pecuniary Relationships or Transaction of Non-Executive Directors vis-a-vis the Company

The Company does not have any direct pecuniary relationships or transactions with any of its non-executive directors. However, a sum of ₹ 8.5 million was paid to M/s Shardul Amarchand Mangaldas & Co., in which Ms Pallavi Shardul Shroff, Chairperson of the Company is a partner, during the financial year 2017-18 towards fees for legal services. The said payment does not affect independence of Ms Pallavi Shardul Shroff as the same is not material as per criteria prescribed.

Mr Rajinder Gupta, Co-Chairman, has entered into a lease

agreement with the Company for taking on lease residential building of the Company. A sum of ₹ 0.9 million has been received from Mr Rajinder Gupta as lease rent during the year under review.

# Terminaton of Agreement with Managing Director and Severance fees

The employment of Managing Director shall terminate automatically in the event of his ceasing to be a Director of the Company in the General Meeting and/or in the event of his resignation as a Director of the Company and subsequent acceptance of the resignation by the Board and no severance fee is payable to the Managing Director.

### Directorships of Board Members in other Companies, Associations and Firms

The Directors of the Company also hold position as directors, committee members, partners and shareholders in other companies, associations and firms. ### o) Share transfer/demat requests in process

As on March 31, 2018, no requests for transfer or dematerialisation of shares were in process.

### p) Stock options

The Company has granted options to its employees under Trident Employee Stock Options Plan, 2007. The Company has made two grants under the scheme till date. The first grant was made on July 9, 2007 and second grant was made on July 23, 2009 by the erstwhile Compensation Committee as per the terms and conditions of Employee Stock Options Plan, 2007. As per the terms of the plan, the Company can allot a maximum of 9,709,733 options to eligible employees from time to time. One option entitles the participant for one equity share of the Company subject to fulfillment of vesting criteria. Since these are the options given to participants, the exact impact on the paid up capital of the Company depends on exercise of rights of participants to convert these options into equity shares of the Company. As on March 31, 2018 Nil options were outstanding and in force. During the financial year 2017-18, the Company has allotted 16,307 equity shares to the Employees of the Company pursuant to exercise of options in terms of Trident Employee Stock Options Plan, 2007 in aggregate.

The Company had also introduced Trident Employee Stock Options Scheme, 2009 and Trident Employee Stock Options Scheme, 2015, by way of trust route, after the approval of shareholders in their meeting held on August 27, 2009 and September 12, 2015. respectively. The Company has not yet implemented the said scheme and there has not been any grant under these both schemes till date. The disclosures as required under the SEBI (Share Based Employee Benefits) Regulations, 2014 has been given on the website of the Company under the following link: http://www.tridentindia.com/report/ESOP\_Disclosure\_for\_FY\_2017-18.pdf

### Trident Limited - Unclaimed Securities Suspense Account

After merger of Varinder Agro Chemicals Limited and Trident Infotech Limited with Trident Limited, the Company had allotted fully paid equity shares of Trident Limited in lieu of shares held in these companies in the ratio approved in respective schemes of amalgamation. The certificates in respect of shares held by them in these transferor companies are deemed to have been automatically cancelled and are of no effect. The Company had sent individual letters to all the shareholders of these companies to claim their undelivered/unclaimed share certificates of Trident Limited.

The unclaimed shares on this account as lying to the credit of "Trident Limited - Unclaimed Securities Suspense Account" at the end of the year are as follows:

Particulars	No of Shareholders	No of Shares
Balance at the beginning of the year [A]	22,355	9,521,086
Additions made during the year [B]	-	-
Total [C] = [A] + [B]	22,355	9,521,086
Shareholders who approached Company for transfer of shares from suspense account during the year	176	167,199
Shareholders to whom shares were transferred from suspense account during the year [D]	176	167,199
Balance at the end of the year [E] = [C] - [D]	22,179	9,353,887

The shareholders of these transferor companies who have not received the shares of Trident Limited may approach the Company or M/s Alankit Assignments Limited, the Registrar and Share Transfer Agent of the Company, with their correct particulars and proof of their identity for crediting of shares from the Unclaimed Securities Suspense Account to their individual demat account or issue in physical form. The voting rights on these shares shall remain frozen till the rightful owner of such shares claims the shares.

### Unclaimed Dividend

The Details regarding dividends are as under:

Financial Year	Dividend	Date of Declaration	Due date for transfer to IEPF
2010-11	Final	September 30, 2011	November 6, 2018
2013-14	Final	September 24, 2014	October 31, 2021
2014-15	1st Interim	August 6, 2014	September 12, 2021
	2nd Interim	February 12, 2015	March 21, 2022
2015-16	1st Interim	July 27, 2015	September 3, 2022
	2nd Interim	October 27, 2015	December 4, 2022
	Final	September 9, 2016	November 14, 2023
2016-17	1st Interim	August 7, 2016	October 12, 2023
	2nd Interim	January 18, 2017	March 24, 2024
	Final	September 23, 2017	November 28, 2024
2017-18	1st Interim	August 12, 2017	October 17, 2024
	2nd Interim	January 29, 2018	April 4, 2025

The above unclaimed dividends shall be transferred to the Investor Education and Protection Fund as per law. The shareholders having claims w.r.t. above unpaid dividends may approach the Company or M/s Alankit Assignments Limited, the Registrar and Share Transfer Agent of the Company. The information regarding unclaimed and unpaid amounts as on date of last annual general meeting has been uploaded on the official website of the Company as well as on the website of the Ministry of Corporate Affairs. The information relating to unclaimed and unpaid dividend as on the date of forthcoming annual general meeting shall be uploaded within the prescribed time.

In accordance with the provisions of Section 124(6) of the Act read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended, a Company requires to transfer in the name of IEPF Authority all shares in respect of which dividend has not been paid or claimed for 7 (seven) consecutive years or more. The Company shall initiate necessary action for transfer of said shares in the name of IEPF Authority. The details of unpaid and unclaimed dividend amounts lying with the Company as on September 23, 2017 have been uploaded on the website of the Company, to facilitate shareholders in order to claim unpaid dividend & prevent transfer of shares in the name of IEPF Authority.

### s) Nomination

Shareholders holding shares in physical form and desirous of making nomination in respect of their shareholding in the Company are requested to submit their request to the Company in Form SH - 13. Shareholders holding shares in demat form may contact their Depository Participant for the purpose.

### t) Commodity price risk or Foreign Exchange Risk and Hedging Activities

### **Certificate on Corporate Governance**

### To the Members of Trident Limited

We, Vinod Kothari & Company, Practising Company Secretaries have examined the compliance of Corporate Governance by Trident Limited ("the Company") for the period between April 1, 2017 and March 31, 2018, as stipulated in Regulations 17 to 27 and clauses (b) to (i) of sub-regulation (2) of regulation 46 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

The compliance of conditions of Corporate Governance is the responsibility of the Management of the Company. Our examination was limited to review of the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us and based on the representation

made by the directors, the management and the Company's officers, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the abovementioned Listing Regulations.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted its affairs.

# **Independent Auditor's Report**

### To the Members of Trident Limited

### Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Trident Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

# Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act. 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor

considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

### Opinio

In our opinion and to the best of our information and according to the explanations given to us, the standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

### Other Matte

The Ind AS financial statements of the Company for the year ended March 31, 2017, included in these standalone Ind AS financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on May 09, 2017.

### Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure 1 a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2. As required by Section 143 (3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - (c) The Balance Sheet, Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
  - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended:
  - (e) On the basis of written representations received from the directors as at March 31, 2018, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being

- appointed as a director in terms of Section 164 (2) of the Act:
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these standalone Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report:
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 32 to the standalone Ind AS financial statements:
  - ii. The Company did not have any long-term contracts including derivative contracts for which

- there were any material foreseeable losses. Refer Note 46 to the standalone Ind AS financial statements.
- There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

# **Annexure 1**

### referred to in paragraph 1 under the heading "Report on other legal and regulatory requirements" of our report of even date

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- (i) (b) The Company has a program of verification of property, plant and equipment to cover most of the items in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and nature of its assets. Pursuant to the program, certain property, plant and equipment were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (i) (c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.
- (ii) The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification. However, in respect of certain items, the inventories were verified by the management on a visual estimation which has been relied upon by us.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans, guarantees and securities given in respect of which provisions of Section 185 of the Companies Act, 2013 apply and hence not commented upon. In our opinion and according to

- the information and explanations given to us, provisions of Section 186 of the Companies Act, 2013 in respect of guarantees given and investments made have been complied with by the Company.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under Section 148(1) of the Companies Act, 2013, related to the manufacture of its products and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and service tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess and other material statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases
- (vii) (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, incometax, service tax, sales-tax, duty of custom, duty of excise, value added tax, goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (vii) (c) According to the records of the Company, the dues of income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax and cess on account of any dispute, are as follows:

Nature of Statute	Nature of Dues	Amount (in million)	Period to which the Amount relate	Forum where dispute is pending
Sales Tax Act	Sales tax	0.8	2009 -10 & 2010-11	MP Commercial Tax Appeallate Board
The Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act. 1996	Building Cess	8.1	From FY 2007 - 2009 tillJune 30, 2017	High Court of Madhya Pradesh
Finance Act, 1994	Service Tax	0.4	2010 – 11	Commissioner (Appeals), Bhopal
Income Tax Act, 1961	Income Tax (including interest)	6.4	2004-05	Assessing Officer
Income Tax Act, 1961	Income Tax (including interest)	0.4	2014-15	CIT (A)
Income Tax Act, 1961	Income Tax (including interest)	0.6	2013-14	ITAT

The following matters have been decided in the favour of the Company, although the department has preferred appeals at higher levels:

Nature of Statute	Nature of Dues	Amount (in million)	Period to which the Amount relate	Forum where dispute is pending
Central Excise Act, 1944	Excise Duty	4.1	2002-03 and 2003-04	Punjab and Haryana
				High Court,
				Chandigarh-ED
Central Excise Act, 1944	Excise Duty	10.7	2013-14	High Court,
				Chandigarh
Income Tax Act, 1961	Income Tax (including	40.0	Assessment year 2012-2013,	Income Tax Appellate
	interest)		2013-2014 and 2014-15	Tribunal
Income Tax Act, 1961	Income Tax (including	292.3	Assessment year1989-1990,	High Court
	interest and penalty)		1990-1991, 1999-2000, 2004-	
			2005, 2005-2006, 2006-2007,	
			2008-2009, 2009-2010 and	
			2010-2011	
Income Tax Act, 1961	Income Tax (including	19.2	Assessment year 2004-2005	Supreme Court
	interest)		and 2008-2009	

- (viii) In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of loans or borrowing to a financial institution or banks. Further, the Company did not have any outstanding debentures and loan from Government during the year.
- (ix) In our opinion and according to the information and explanations given by the management, the Company has utilized the monies raised by way of term loans for the purposes for which they were raised. According to the information and explanations given by the management, the Company has not raised any money by way of initial public offer / further public offer and debt instruments during the year hence, not commented upon.
- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or no fraud on the Company by the officers and employees of the Company has been noticed or reported during the year.
- (xi) According to the information and explanations given by the management, the managerial remuneration has been paid/provided in accordance with the requisite approvals mandated by the provision of Section 197 read with Schedule V to the Companies Act. 2013.
- (xii) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the Order are not applicable to the Company and hence not commented upon.

- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with Section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) of the order are not applicable to the Company and, not commented upon.
- (xv) According to the information and explanations given by the management, the Company has not entered into any noncash transactions with directors or persons connected with him as referred to in Section 192 of Companies Act, 2013.
- (xvi) According to the information and explanations given to us, the provisions of Section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

# Annexure 2

To the Independent Auditor's Report of Even Date on the Standalone Financial Statements of Trident Limited

# Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Trident Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of fits business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone financial statements.

# Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company: (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

# Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Standalone

Because of the inherent limitations of internal financial controls overfinancial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Oninio

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# **Notes to Standalone Financial Statements**

as at and for the year ended March 31, 2018

### NOTE 1 - CORPORATE INFORMATION

Trident Limited ("the Company") is a public company domiciled in India and incorporated on April 18, 1990 under the provisions of the Companies Act. 1956. The name of the Company was changed from Abhishek Industries Limited to Trident Limited on April 18, 2011. The equity shares of the Company are listed on two stock exchanges in India i.e. National Stock Exchange of India Limited (NSE) and BSE Limited (BSE), The Company is engaged in manufacturing, trading and selling of Textiles (Yarn, Terry Towels, Bedsheets), Paper and Chemicals,

The address of its registered office and principal place of business are disclosed in the introduction to the annual report. The principal activities of the Company are described in Note 40. These financial statements were authorised for issuance by the Board of Directors of the Company in their meeting held on May 7, 2018.

### **NOTE 2.1 - SIGNIFICANT ACCOUNTING POLICIES**

### A Statement of compliance

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards ) Rules, 2015, as amended.

### Basis of preparation and presentation

The financial statements have been prepared under the historical cost convention on accrual basis except for following assets and liabilities which have been measured at fair value:

- 1. Derivative financial instruments
- 2. Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments in Note O).
- 3. Defined benefit plans plan assets are measured at fair value

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The financial statements of the Company are presented in Indian Rupee (₹) and all values are rounded to the nearest million with one decimal place (₹ 000,000), except when otherwise indicated.

### Changes in accounting policies and disclosures New and amended standards and interpretations

The Company applied for the first time certain amendments to the standards, which are effective for annual periods beginning on or after April 1, 2017. The nature and the impact of each amendment is described below:

### Amendments to Ind AS 7 Statement of Cash Flows: Disclosure Initiative

The amendments require entities to provide disclosure of changes in their liabilities arising from financing activities, including both changes arising from cash flows and noncash changes (such as foreign exchange gains or losses). The Company has provided the information for both the current and the comparative period in Cash flow statement.

### Amendments to Ind AS 102 Classification and Measurement of Share-based Payment Transactions

The amendments to Ind AS 102 Share-based Payment addresses three main areas: the effects of vesting conditions on the measurement of a cash-settled sharebased payment transaction; the classification of a sharebased payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled.

On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met. The Company applied these amendments without restating prior periods. However, their application has no effect on the Company's financial position and performance as the Company had no such transaction.

### Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The following specific criteria must also be met before revenue is recognised.

### Sale of products

Revenue in respect of sale of products is recognised when the significant risks and rewards of ownership of the goods are passed on to the buyer. Amounts disclosed as revenue are inclusive of excise duty and net of returns and allowances, trade discounts and rebates. The Company has assumed that recovery of excise duty flows to the Company on its own account. This is for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the Company on its own account, revenue includes excise duty. The Company collects sales tax, value added tax ("VAT") and Goods & Service Tax (GST) on behalf of the government and therefore, these are not economic benefits flowing to the Company. Hence, these are excluded from the revenue.

The revenue in respect of duty drawback and similar other export benefits is recognized on post export basis at the

as at and for the year anded March 31, 2018

rate at which the entitlements accrue and is included in the 'sale of products'.

### Interest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

### Dividend income

Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

### Other income

Insurance claims are recognised when there exists no significant uncertainty with regard to the amounts to be realized and the ultimate collection thereof.

### C Government grants/subsidies

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in the statement of profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Specifically, Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in balance sheet and transferred to statement of profit or loss on a systematic and rational basis over the useful lives of the related assets and is netted off from the related expenses.

Subsidy from government in the form of refund of taxes are recognised on accrual basis when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the subsidy will be received.

### D Borrowing costs

Borrowing costs include interest and amortisation of ancillary costs incurred in relation to borrowings. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/development of the qualifying asset

upto the date of capitalisation of such asset are added to the cost of the assets. Qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Interest revenue earned on the temporary investment of specific borrowings for qualifying assets pending their expenditure, is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in statement of profit and loss in the period in which they are incurred.

### F Income taxes

Income tax expense comprises current income tax and deferred tax.

Current tax expense for the year is ascertained on the basis of assessable profits computed in accordance with the provisions of the Income-tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax is recognised using the liability method on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax assets are generally recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The Company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India, no deferred tax (asset or liability) is recognized in respect of temporary differences which reverse during the tax holiday period, to the extent the concerned entity's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognized in the year in which the temporary differences originate. However, the Company restricts recognition of deferred tax assets to the extent it is probable that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

Minimum Alternate Tax (MAT) paid as current tax expense in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as tax credit and recognised as deferred tax asset when there is reasonable certainity that the Company will pay normal income tax in the future years and future economic benefit associated with it will flow to the Company.

# Notes to Standalone Financial Statements

as at and for the year ended March 31, 2018

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Deferred tax assets and deferred tax liabilities are off-set if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relates to the same taxable entity and the same taxation authority.

### F Retirement and Employee benefits

The Company has various schemes of employees benefits such as Provident fund, Gratuity and Compensated absences, which are dealt with as under:

### **Defined Contribution**

Provident fund is the defined contribution scheme. The contribution to this scheme is charged to statement of profit and loss of the year in which contribution to such scheme become due and when services are rendered by the employees. The Company has no obligation other than the contribution payable to the provident fund. If the contribution payable to the scheme for services received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

### Defined Benefit plan

The gratuity liability in respect of employees of the Company is covered through trusts' group gratuity schemes managed by Life Insurance Corporation of India, SBI Life Insurance Company Limited, Kotak Mahindra and Bajaj Allianz. The cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at each balance sheet date by an independent valuer. Remeasurement gains and losses are recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to statement of profit or loss. Past service cost is recognised in statement of profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements):
- · net interest expense or income; and
- remeasurement

### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised on an undiscounted accrual basis during the year when the employees render the services. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services.

### Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date. The cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognised in the statement of profit and loss in the period in which they occur. The Company presents the entire leave liability as current liability, since it does not have an unconditional right to defer its settlement for 12 months after the reporting period.

### G Property, Plant and Equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses (if any). Freehold land is not depreciated and have been measured at fair value at the date of transition to Ind AS.The Company regards the fair value as deemed cost at the transition date, viz., April 01, 2016.

Properties in the course of construction for production, supply or administrative purposes are carried at cost. less any recognised impairment loss. Property, plant and equipment except freehold land is carried at cost net of accumulated depreciation and accumulated impairment losses if any. Freehold land are carried at deemed cost being fair value as at the date of transition to Ind AS (April 01, 2015). Cost comprises of its purchase price including non refundable duties and taxes and excluding any trade discount and rebates and any directly attributable costs of bringing the asset to it working condition and location for its intended use. Cost also includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy (refer note 2.1 (D)). Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets commences when the assets are ready for their intended use.

Subsequent expenditure related to an item of PPE is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Gains or losses arising from derecognition of the assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

### H Depreciation on tangible assets

Depreciable amount for assets is the cost of an asset. or other amount substituted for cost, less its estimated residual value.

Depreciation on tangible property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

	As per management estimate	As per schedule II
General plant and equipment on triple shift basis	- 9.5 years	- 7.5 years
End user devices, such as, desktops, laptops, etc (included under Computers)	- 5 years	- 3 years
Servers and networks (included under Computers)	- 5 years	- 6 years
Office equipments	- 10 years	- 5 years
Vehicles	- 6 years	- 8 years
		1 11

Leasehold improvements are depreciated over the remaining lease period.

When parts of an item of Property, plant & equipment have different useful life, they are accounted for as separate items (Major components) and are depreciated over the useful life of part or the parent asset to which it relates, whichever is lower.

When significant spare parts, stand-by equipment and servicing equipment have useful life of more than one period, they are accounted for as separate items and are depreciated over the useful life of such item or the parent asset to which it relates, whichever is lower

### Intangible assets

### Intangible assets acquired separately

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets with finite lives are amortised on a straight line basis over the estimated useful economic life. The estimated useful life and amortisation method are reviewed at the end of each reporting period.

Development expenditure on an individual project are recognised as an intangible asset when the Group can demonstrate

- · The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- · Its intention to complete and its ability and intention to use or sell the asset
- · How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

During the period of development, the asset is tested for impairment annually.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

### Inventories

Raw materials, work in progress, finished goods, process waste and stores and spares are valued at cost or net realizable value, whichever is lower. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and cost necessary to make the sale. The basis of determining cost for various categories of inventories is as follows:

- · Raw materials: weighted average cost \* Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Work in progress: cost of raw materials plus conversion cost depending upon the stage of completion. Cost is determined on a weighted average basis
- Finished goods (including stock in transit): cost of raw materials plus conversion cost and packing cost. Cost

# **Notes to Standalone Financial Statements**

as at and for the year ended March 31, 2018

- is determined on a weighted average basis
- Process waste is valued at net realizable value
- · Stores and spares: weighted average cost Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- \* Includes by products which is valued at net realizable

### K Impairment of tangible & intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset. unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available, and if no such transactions can be identified an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's CGU's to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long term growth rate is calculated and applied to projected future cash flows after the fifth year.

Impairment losses, including impairment on inventories, are recognized in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss.

### L Segment reporting

The Company identifies primary segments based on the dominant source, nature of risks and returns and the

internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker, Chief Operating Decision Maker review the performance of the Company according to the nature of products manufactured with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the locations of customers.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases.

Rental expense from operating leases is generally recognised on a straight-line basis over the relevant lease term other than where the rentals are structured solely to increase in line with expected general inflation to compensate for the increase in lessor's expected inflationary cost, such increase is recognised in the year in which such benefits accrue. In the event that lease premiums are paid to enter into operating leases, such premiums are recognised as a prepaid expenditure and amortised over the period of lease.

### N Provisions, contingent liabilities and contingent assets Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation at the balance sheet date and measured using the present value of cash flows estimated to settle the present obligations (when the effect of time value of money is material). These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

### Contingent liabilities

A contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise. Contingent liabilities are disclosed by way of note to the financial statements.

### Contingent Assets

A contingent asset is a possible asset that arises from past events the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise.

Contingent assets are neither recognised nor disclosed in the financial statements.

### O Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

### (a) Financial assets

### Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

### Subsequent measurement

Debt Instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. For the purposes of subsequent measurement, debt instruments are classified in three categories:

- · Debt instruments at amortised cost;
- · Debt instruments at fair value through other comprehensive income (FVTOCI);
- · Debt instruments at fair value through profit or loss (FVTPL)

### Debt instruments at amortised cost

A debt instrument is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

### Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

a) The objective of the business model is achieved

both by collecting contractual cash flows and selling the financial assets, and

b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the EVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

### Debt instrument at FVTPL

EVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

### Equity Instruments-

For the purposes of subsequent measurement, equity instruments are classified in two categories:

- · Equity instruments at fair value through profit or Ines (FVTPI)
- · Equity instruments measured at fair value through other comprehensive income (FVTOCI)

# Equity instruments at fair value through profit or loss

In case of equity instruments which are held for trading are initially measured at fair value plus transaction costs and subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in statement of profit and loss.

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

### Equity instruments at fair value through Other Comprehensive Income (FVTOCI)

In the case of equity instruments which are not held for trading and where the Company has taken irrevocable election to present the subsequent changes in fair value in other comprehensive income,

# **Notes to Standalone Financial Statements**

these elected investments are initially measured at fair value plus transaction costs and subsequently. they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Equity instruments through other comprehensive income' under the head 'Other Equity'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. The Company makes such election on an instrument -by-instrument basis.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

A financial asset is held for trading if:

- · it has been acquired principally for the purpose of selling it in the near term; or
- · on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- · it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

### Investment in Subsidiaries and Associates

Investment in Subsidiaries and Associates is carried at deemed cost in the separate financial statements.

### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- · The rights to receive cash flows from the asset have expired, or
- · The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

### Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, trade receivables and other contractual rights to receive cash or other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls). discounted at the original effective interest rate (or creditadjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

For trade receivables, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

### (b) Financial liabilities

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including derivative financial instruments.

### Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss (FVTPL) include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as

held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109 'Financial instruments'.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

### Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the FIR. The FIR amortisation is included as finance. costs in the statement of profit and loss. This category generally applies to borrowings.

### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another financial liability from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

### P Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

### Operating cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current

### R Derivative financial instruments

The derivative financial instruments i.e. forward exchange contracts are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately. Derivatives are carried as financial assets when the fair value is positive and as financial liabilties when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss.

### S Fair Value Measurement

The Company measures financial instruments, such as, derivatives at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- · In the principal market for the asset or liability, or
- · In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market narticinants act in their economic hest interest

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- · Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- · Level 2-Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- · Level 3-Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

# **Notes to Standalone Financial Statements**

as at and for the year ended March 31, 2018

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for disposal in discontinued operation.

External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets, and significant liabilities, such as contingent consideration, if any.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

### T Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

### U Dividend to equity holders of the Company

The Company recognises a liability to make dividend distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India a distribution is authorised when it is approved by the shareholders. However, Board of Directors of a company may declare interim dividend during any financial year out of the surplus in statement of profit and loss and out of the profits of the financial year in which such interim dividend is sought to be declared. A corresponding amount is recognised directly in equity.

### V Foreign exchange gains and losses

The Company's functional and reporting currency is INR (₹) Exchange differences are dealt with as follows:

Foreign currency transactions are recorded at the exchange rate that approximates the actual rate at the date of transaction. Monetary items denominated in a foreign currency are reported at the closing rate as at the date of balance sheet. Non-monetary items, which are carried at fair value denominated in foreign currency, are reported at the exchange rate that existed when such values were determined, otherwise on historical exchange rate that existed on the date of transaction.

The exchange difference arising on the settlement of monetary items or on reporting these items at rates different from the rates at which these were initially recorded/ reported in previous financial statements are recognized as income/expense in the period in which they arise. Further, where foreign currency liabilities have been incurred in connection with property, plant and equipment, the exchange differences arising on reinstatement, settlement thereof during the construction period are adjusted in the cost of the concerned property, plant and equipment to the extent of exchange differences arising from foreign currency borrowings are regarded as an adjustment to interest costs in accordance of para 6 (e) as per Ind AS 23.

### NOTE 2.2 Standards issued but not vet effective

The amendments to the standards are issued, but not yet effective, upto the date of issuance of the financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

The Ministry of Corporate affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2017 and Companies (Indian Accounting Standards) Amendment Rules, 2018 amending the following standard:

### (i) IND AS 115 Revenue From Contracts With Customers:

INDAS 115 was issued on 28th March, 2018 and establishes a five -step model to account for revenue arising from contracts with customers. Under IND AS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under IND AS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after April 01, 2018. The Company plans to adopt the new standard on the required effective date using the modified retrospective method.

The Company is in the process of making an assessment of the impact of IND AS 115 upon initial recognition, which is subject to changes arising from more detailed ongoing analysis.

### (ii) Amendment to existing issued Ind AS

The MCA has also carried out amendments in following accounting standards. These are:

a) Ind AS 21 - The Effects of Changes in Foreign Exchange Rates

as at and for the year ended March 31, 2018

- b) Ind AS 40 Investment Property
- c) Ind AS 12 Income Taxes
- d) Ind AS 28 Investments in Associates and Joint Ventures and
- e) Ind AS 112 Disclosure of Interests in Other Entities
  Application of above standards are not expected to
  have any significant impact on the Company's financial
  statements

### NOTE 2.3 Key sources of estimation uncertainity

In the application of the Company accounting policies, the management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Company's accounting policies and that

have the most significant effect on the amounts recognised in the financial statements:-

### Useful lives of Intangible assets

The intangible assets are amortised over the estimated useful life. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

### Useful lives of depreciable tangible assets

Management reviews the useful lives of depreciable assets at each reporting date. As at March 31, 2018 management assessed that the useful lives represent the expected utility of the assets to the Company. Further, there is no significant change in the useful lives as compared to previous year.

### Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

# **Notes to Standalone Financial Statements**

as at and for the year ended March 31, 2018

### NOTE 35 - EMPLOYEE BENEFITS

### a) Defined contribution plans

The Company makes contribution towards employees' provident fund scheme. Under the scheme, the Company is required to contribute a specified percentage of salary, as specified in the rules of the scheme. The Company has recognized ₹ 184.3 million (Previous year ₹ 180.5 million) during the year as expense towards contribution to this plan. ₹ 2.2 million (Previous year ₹ 2.3 million) has been included under Property, plant and equipment / Capital work in progress.

(₹ million)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
Contribution to provident fund (including contribution to Pension fund)	186.5*	182.8

\* Net of rebate of ₹ 14.8 million under Pradhan Mantri Roigar Protsahan Yojana Scheme.

### b) Defined benefit plans

### Gratuity scheme

The Company has a defined gratuity plan (Funded) and the Gratuity plan is governed by The Payment of Gratuity Act 1972 ("Act"). Under the Act, employee who has completed five years of service is entitled for specific benefit. The amount of benefit depends on respective employee's salary, the years of employment and retirement age of the employee and the gratuity benefit is payable on termination/retirement of the employee. There is no maximum limit for the payment of gratuity benefit. The present value of obligation is determined based on an actuarial valuation as at the reporting date using the Projected Unit Credit Method.

The fund has the form of an irrevocable trust and it is governed by Board of Trustees. The Board of trustees is responsible for the administration of the plan assets and for the definition of investment strategy. The scheme is funded with qualifying insurance policies. The Company is contributing to trusts towards the payment of premium of such company gratuity schemes.

The following table sets out the details of defined benefit plan and the amounts recognised in the financial statements:

### Components of Net Benefit Expense

(₹ million)

S.No.	Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
1	Current Service Cost	114.5	94.0
2	Past Service Cost	(115.2)	-
3	Net Interest Cost	(5.3)	(5.4)
4	Total expense recognised in the Statement of Profit and Loss	(6.0)	88.6
	Re-measurements recognised in Other Comprehensive Income		
5	Effect of changes in financial assumptions	(84.9)	45.3
6	Effect of experience adjustments	(73.5)	10.5
7	Return on plan assets (greater)/less than discount rate	12.6	(11.2)
8	Total loss/ (gain) of re-measurements included in OCI	(145.8)	44.6

### II Net Asset recognised in Balance Sheet

(₹ million)

S.No.	Particulars	As at	As at
		March 31, 2018	March 31, 2017
1	Present Value of defined benefit obligation	(465.9)	(623.5)
2	Fair value of plan assets	757.7	629.9
3	Net defined benefit asset	291.8	6.4
3	Net defined benefit asset	291.8	

### NOTE 35 - EMPLOYEE BENEFITS (contd..)

### III Change in present value of defined benefit obligation

(₹ million)

S.No.	Particulars	March 31, 2018	March 31, 2017
1	Present Value of defined benefit obligation at the beginning of the year	623.5	465.0
2	Current Service Cost	114.5	94.0
3	Past Service Cost (refer note 52)	(115.2)	-
4	Interest Cost	43.4	35.7
	Remeasurement gains / (losses):		
5	Effect of changes in financial assumptions	(84.9)	45.3
6	Effect of experience adjustments	(73.5)	10.5
7	Benefits Paid	(41.9)	(27.0)
8	Present Value of defined benefit obligation at the end of the year	465.9	623.5

### IV Change in fair value of Plan assets

(₹ million)

S.No.	Particulars	March 31, 2018	March 31, 2017
1	Fair value of Plan assets at the beginning of the year	629.9	462.8
2	Interest income on plan assets	48.7	41.2
3	Employer cotributions	133.6	141.7
4	Return on plan assets greater /(lesser) than discount rate	(12.6)	11.2
5	Benefits paid	(41.9)	(27.0)
6	Fair value of assets at end of the year	757.7	629.9

The fund managers do not disclose the composition of their portfolio investments, accordingly break-down of plan assets by investment type has not been disclosed.

### V The assumptions used in accounting for the defined benefit plan are set out below:

(₹ million)

			((()))
S.No.	Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
1	Discount Rate (%)	7.70%	7.20%
2	Pre-retirement mortality	Indian Assured Lives Mortality (2006-08) Ult.	Indian Assured Lives Mortality (2006-08) Ult.
3	Salary increase rate *	6.00%	7.00%
4	Attrition Rate	4.00%	5.00%
5	Retirement Age	58 Years	58 Years

<sup>\*</sup> The estimate of future salary increases take account of inflation, seniority promotion and other relevant factors, such as supply and demand in the employment market

### VI Net Asset / (Liability) recognised in Balance Sheet (including experience adjustment impact)

(₹ million)

S.No.	Particulars	March 31, 2018	March 31, 2017
1	Present Value of Defined Benefit Obligation	(465.9)	(623.5)
2	Status [Surplus/(Deficit)]	291.8	6.4
3	Experience Adjustment of obligation [(Gain)/Loss]	(73.5)	10.5

# **Notes to Standalone Financial Statements**

as at and for the year ended March 31, 2018

# NOTE 35 - EMPLOYEE BENEFITS (contd..)

### VII Acturial risks

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

### Salary Inflation risk

Higher than expected increases in salary will increase the defined benefit obligation.

### Demographic risk

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

### VIII Sensitivity Analysis- Impact on defined benefit obligation

(₹ million)

			(**************************************		
S.No.	Particulars	March 31, 2018 Increase/ (Decrease)	March 31, 2017 Increase/ (Decrease)		
1	Discount Rate + 50 basis points	(23.9)	(32.9)		
2	Discount Rate - 50 basis points	26.1	35.9		
3	Salary Increase Rate + 0.5%	26.4	35.9		
4	Salary Increase Rate – 0.5%	(24.3)	(33.2)		
5	Attrition Rate + 5%	22.1	(10.8)		
6	Attrition Rate - 5%	(39.7)	6.9		

The sensitivity analysis presented above may not be representative of the actual changes in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumption may be

Furthermore, in presenting the above sensitivity analysis the present value of the defined benefit obligations has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the financial statements.

There was no change in the methods and assumption used in preparing the senstivity analysis from prior years.

The senstivity analysis above have been determined based on reasonably possible changes of the respective assumption occuring at the end of the reporting period, while holding all other assumptions constant.

The following benefit payments are expected in future years:

(₹ million)

Year ending	March 31, 2018
March 31, 2019	46.6
March 31, 2020	26.2
March 31, 2021	33.8
March 31, 2022	42.5
March 31, 2023	50.4
March 31, 2024 to March 31, 2028	392.3

The average duration of the defined benefit obligation at the end of the reporting period is 13 years (previous year 11 years) The expected employer contribution for the year ended March 31, 2018 is Nil (previous year ₹ 155.9 million)

NOTE 36 - DISCLOSURES REQUIRED UNDER SECTION 22 OF THE MICRO, SMALL AND MEDIUM ENTERPRISES **DEVELOPMENT ACT, 2006** 

₹	,	١	Ī	ı	i.	_	r	١

		(< 111111101
Particulars	As at March 31, 2018	As at March 31, 2017
Principal amount remaining unpaid to any supplier as at the end of the accounting year	26.0	42.7
Interest due thereon remaining unpaid to any supplier as at the end of the accounting year	0.9	1.2
The amount of interest paid along with the amounts of the payment made to the supplier beyond the appointed day	-	-
The amount of interest due and payable for period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act	-	
The amount of interest accrued and remaining unpaid at the end of the accounting year	-	-
The amount of further interest due and payable even in the succeeding year, until such date when the interest dues as above are actually paid to the small enterprises for the purpose of disallowance as a deductible expenditure under Section 23	-	-

Dues to Micro, Small and Medium Enterprises have been determined to the extent such parties have been identified on the basis of information collected by the management.

### NOTE 40 - SEGMENT INFORMATION

### I Segment Accounting Policies:

### a. Product and Services from which reportable segment derive their revenues (Primary Business Segments)

Based on the nature and class of product and services, their customers and assessment of differential risks and returns and financial reporting results reviewed by Chief Operating Decision Maker (CODM), the Company has identified the following business segments which comprised:

Textiles: Yarn, Towel, Bedsheets, Dyed Yarn manufacturing (Including utility services)

Paper and Chemical: Paper and Sulphuric Acid (Including utility services)

Till the previous year, the Company was showing "Sale of software and related services" as a saperate segment, however, CODM does not consider the same as separate segment and hence the same is included under unallocated segment in the previous year as well as current year.

### b. Geographical segments (Secondary Business Segments)

The geographical segments considered and reviewed by Chief Operating Decision Maker for disclosure are based on markets, broadly as under:

India

USA

Rest of the world

### c. Segment accounting policies

Segment accounting policies: In addition to the significant accounting policies applicable to the business segment as set out in note 2, the accounting policies in relation to segment accounting are as under:

### i. Segment assets and liabilities:

Segment assets include all operating assets used by a segment and consist principally of cash, debtors, inventories and Property, Plant and Equipment including capital work in progress, net of allowances and provisions, which are reported as direct offset in the balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities.

### ii Segment revenue and expenses:

 $\ \, \text{Joint revenue and expenses of segments are allocated amongst them on reasonable basis. All other segment revenue and expenses are directly attributable to the segments. }$ 

### iii Inter segment sales:

Inter segment sales are accounted for at cost plus appropriate margin (transfer price) and are eliminated in consolidation.

### iv Segment results :

Segment results represents the profit before tax earned by each segment without allocation of central administration costs, other non operating income as well as finance costs. Operating profit amounts are evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

### II Detail of Primary Business Segments and its reconciliation with Financial Statements:

### NOTE 43 - EMPLOYEES 'STOCK OPTION PLANS

The erstwhile Compensation Committee of Board of Directors of the Company has granted options to the employees pursuant to Trident Employees Stock Options Plan 2007 ('the Plan') on July 09, 2007 (Grant I) and July 23, 2009 (Grant II). These options were granted at ₹ 17.55 and ₹ 11.20 per option respectively, being the latest available closing market price prior to the date of grant of options in accordance with SEBI guidelines. The quoted price of share on grant and the exercise price of option is equal and therefore there is no impact on statement of profit and loss due to Employee Share-based options as the Company is following intrinsic value method.

The Company has allotted 16,307 equity shares (previous year 208,234 equity shares) to employees during the year under the Trident Employees Stock Options Plan, 2007.

In respect of options granted under the Employees' Stock Option Plan, 2007 in accordance with Guidance Note on Accounting for Employee Share-based Payment issued by the Institute of Chartered Accountants of India, the details of Options outstanding is as under:

	897.4	(261.1)	15.4	651.7
MAT credit entitlement	1,247.9	457.5	-	1,705.4
Net tax liabilities	1,584.0	88.6	(15.4)	1,657.2

The Company has recognized Minimum Alternate Tax (MAT) credit entitlement ₹ 1,188.7 million (previous year ₹ 1,705.4 million) which represents that portion of the MAT Liability, the credit of which would be available based on the provision of Section 115JAA of the Income Tax Act, 1961. The management based on the future profitability projections and also profit earned during the current year is confident that there would be sufficient taxable profit in future which will enable the Company to utilize the above MAT credit entitlement.

# Notes to Standalone Financial Statements

as at and for the year ended March 31, 2018

# NOTE 45 - Financial Instruments

### Capital management

For the purpose of Company's capital management, capital includes Issued Equity capital and all reserves attributable to equity holders of the Company

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company manages capital risk in order to maximize shareholders' profit by maintaining sound/optimal capital structure through monitoring of financial ratios, such as net debt-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary. There is no change in the overall capital risk management strategy of the Company compared to last year.

Debt-to-equity ratio as of March 31, 2018 and March 31, 2017 is as follows:

(₹ million)

Particulars	March 31, 2018	March 31, 2017
Net debt (A) *	26,319.4	27,169.8
Total equity (B)	29,086.9	27,245.0
Net debt to equity ratio (A/B)	0.9	1.0

<sup>\*</sup> The Company includes with in net debt, interest bearing loans and borrowings less cash and cash equivalents and other bank balances.

### Fair Values and its categories:

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments:

(₹ million)

Particulars	Carryin	g Value	Fair Value	
	As at March 31, 2018	As at March 31, 2017	As at March 31, 2018	As at March 31, 2017
Financial assets				
Measured at FVTPL				
Investments (refer note 4 and 9)	121.7	60.5	121.7	60.5
Measured at amortised cost				
Security Deposits	394.7	364.2	394.7	364.2
Measured at FVTOCI				
Investments (refer note 4)	142.0	112.8	142.0	112.8
Financial liabilities				
Measured at amortised cost				
Borrowings (Including current maturties)	16,893.7	20,455.6	16,893.7	20,455.6
Measured at FVTPL				
Derivative financial instrument	145.6	53.7	145.6	53.7

The management assessed that fair value of trade receivables, cash and cash equivalents, other bank balances, other current financial assets, short term borrowings, trade payables and other current financial liabilities (except derviative financial liabilities) approximate their carrying amounts largely due to short-term maturities of these instruments.

The fair value of the Financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

### NOTE 45 - Financial Instruments (contd..)

### NOTE 45 - Financial Instruments (contd..)

### Financial Risk Management Framework

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, receivables from government authorties, security deposits and cash and cash equivalents that derive directly from its operations. The Company also holds investments and enters in to derviative transactions.

The Company's corporate treasury function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company seeks to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures. The Company does not enter into or trade financial instruments, including derivative financial instuments, for speculative purposes.

The Corporate Treasury function reports quarterly to the Board of Directors of the Company for monitoring risks and reviewing policies implemented to mitigate risk exposures.

### CREDIT RISK

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collatarel, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹4,777.6 million and ₹ 3,816.8 million as of March 31, 2018 and March 31, 2017, respectively. Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Credit risk has always been managed by the group through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

The following table gives details in respect of percentage of revenues generated from top one customer and top five customers:

Particulars	As at March 31, 2018	As at March 31, 2017
Revenue from top customer (%) *	10.6%	14.5%
Revenue from top five customers (%)	29.1%	28.6%

<sup>\*</sup> Revenue from top customer amounting to ₹ 4,855.6 million pertains to Textiles segment in USA market

### Credit Risk Exposure

The Company has used a practical expedient by computing the expected loss allowance for trade receivables based on historical credit loss experience and adjustments for forward looking information

(₹ million)

Age of receivables	As at March 31, 2018	As at March 31, 2017
With in the credit period	4,301.9	3,585.0
Up to 6 months past due	475.7	231.8
More than 6 months past due	6.3	91.0
Total	4,783.9	3,907.8

The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2018 was ₹ 6.3 million. The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2017 was ₹91.0 million.

<sup>\*</sup> The fair value of these investments appearing under Level III approximates the carrying value and hence, the valuation technique and inputs with sensitivity analysis have not been given.

<sup>\*</sup> The fair value of these investments appearing under Level III approximates the carrying value and hence, the valuation technique and inputs with Sensitivity analysis have not been given.

Balance at the end	6.3	91.0

### LIQUIDITY RISK

### (i) Liquidity risk management

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Chief Financial Officer of the Company is responsible for liquidity risk management who has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. The Chief Financial Officer reports the same to the Board of Directors on quarterly basis.

### (ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

# **Notes to Standalone Financial Statements**

### NOTE 45 - Financial Instruments (contd..)

### Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial intitution. These derivative financial instruments are values based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

(₹ million)

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
Derivative financial instruments				
March 31, 2018				
Foreign exchange forward contracts				
- USD	9,214.5	-	-	-
- EURO	640.3	-	-	-
Total	9,854.8		-	-
March 31, 2017				
Foreign exchange forward contracts				
- USD	5,507.5	-	-	-
- EURO	69.3	-	-	-
Total	5,576.8	-	-	-

### Financing arrangements

The Company had access to following borrowing facilities at the end of the reporting period:

(₹ million)

Particulars	March 31, 2018	March 31, 2017
Bank Overdraft facility		
- Utilised	9,667.4	7,246.2
- Non Utilised	832.6	3,253.8
Secured Bill Acceptance facility		
- Utilised	1,417.0	792.3
- Non Utilised	83.0	707.7
	12,000.0	12,000.0

### MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: currency risk and interest rate risk. Financial instruments effected by market risk includes loan and borrowings and derivative financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company uses derivatives to manage market risks. Derivatives are only used for economic hedging purposes and not as speculative investments. All such transactions are carried out within the guidelines set by the Board of Directors and Risk Management Committee.

There has been no significant changes to the Company's exposure to market risk or the methods in which they are managed or measured.

### Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign  $exchange\ rates. The\ Company\ undertakes\ transactions\ denominated\ in\ foreign\ currencies; consequently, exposures\ to\ exchange\ rate$ fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities and borrowings when transactions are denominated in a different currency from the Company's functional currency.

The Company manages its foreign currency risk by hedging transactions that are expected to occur within a maximum 12 month period for hedges of forecasted sales and borrowings.

# Notes to Standalone Financial Statements

### Foreign currency rate sensitivity

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

(₹ million)

Particulars	Currency	March 31, 2018	March 31, 2017
Trade Receivables	USD	23.7	21.7
	EUR	1.1	0.1
Trade & Capital Payables	USD	0.6	0.3
	EUR	0.1	0.2
	JPY	-	-
	CHF	-	-
Secured Bank Loans	USD	27.1	19.3

Of the above foreign currency exposures, the following exposures are not hedged by a derivative.

(₹ million)

Particulars	Currency	March 31, 2018	March 31, 2017
Trade & Capital Payables	USD	0.6	0.3
	EUR	0.1	0.2
	JPY	-	-
	CHF	-	-
Secured Bank Loans	USD	0.0	1.0

For the year ended March 31, 2018, every one rupee depreciation/appreciation in the exchange rate against US\$, might have affected the Company's incremental margins (profit as a percentage to revenue) approximately by 0.60 %. The Company's exposure to foreign currency changes for all other currencies is not material.

### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The borrowings as at March 31, 2018 is ₹ 27,998.7 million which are interest bearing and interest rates are variable.

### Interest rate sensitivity

For the year ended March 31, 2018, every 1 precentage increase/decrease in weighted average bank interest rate might have affected the Company's incremental margins (profit as a percentage to revenue) approximately by 0.60 %.

### Price risk

The Company's investments in listed securities, mutual funds and other funds are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the price risk through diversification and by placing limits on individual and total equity instruments. Reports on the portfolio are submitted to the Company's senior management on a regular basis.

At the reporting date, the exposure to listed equity securities at fair value was ₹ 142.0 million. A decrease of 5% on the NSE market index could have an impact of approximately of ₹7.1 million on the OCI or equity attributable to the Company. An increase of 5% in the value of the listed securities would also impact OCI and equity by the same amount. These changes would not have an effect on profit or loss.

At the reporting date, the exposure in mutual funds and other funds is ₹ 120.3 million. A decrease or increase in NAV of 5% mutual funds and other funds could have an impact of approximately of ₹ 6.02 million on the profit or loss.

### NOTE 46 -

The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

### **NOTE 47 -**

The Board of Directors has recommended a final dividend of 3% (₹ 0.30 per equity share of ₹ 10/- each) for the financial year 2017-18 subject to the approval of the shareholders in the forthcoming Annual General Meeting of the Company. This final dividend is in addition to the two interim dividends of 6% each (₹ 0.60 per equity shares of ₹ 10/- each) declared during the financial year 2017-18. The total dividend for the financial year 2017-18 is 15% (₹ 1.50 per equity shares of ₹ 10/- each).

# **Independent Auditor's Report**

### To the Members of Trident Limited

### Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Trident Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates, comprising of the consolidated Balance Sheet as at March 31, 2018. the consolidated Statement of Profit and Loss including Other Comprehensive Income, the consolidated Cash Flow Statement, the consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

### Management's Responsibility for the Consolidated Ind AS **Financial Statements**

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position. consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associates in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its associates and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial

statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit oninion on the consolidated Ind AS financial statements

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and associates, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group and its associates as at March 31, 2018, their consolidated profit including other comprehensive income, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

### Other Matter

- (a) We did not audit the financial statements and other financial information, in respect of two subsidiaries, whose Ind AS financial statements include total assets of ₹ 278.5 million and net assets of ₹ 2.6 million as at March 31, 2018, and total revenues of ₹ 507.0 million and net cash inflows of ₹ 4.2 million for the year ended on that date. These financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The consolidated Ind AS financial statements also include the Group's share of net profit of ₹ 6.4 million for the year ended March 31, 2018, as considered in the consolidated financial statements, in respect of 3 associates. whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates, and our report in terms of subsections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates, is based solely on the report(s) of such other auditors.
- (b) The consolidated Ind AS financial statements of the Company for the year ended March 31, 2017, included in these consolidated Ind AS financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on May 9, 2017.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

### Report on Other Legal and Regulatory Requirements

As required by Section 143 (3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of

subsidiaries and associates, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

- (a) We / the other auditors whose reports we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated Ind AS financial statements;
- (b) In our opinion proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors:
- (c) The consolidated Balance Sheet, consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the consolidated Cash Flow Statement and consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;
- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2018 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary and associate company incorporated in India, none of the directors of the Group companies and its associate Company incorporated in India is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements

- of the Holding Company and its subsidiary company and associate company incorporated in India, refer to our separate report in "Annexure 1" to this report;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries and associates, as noted in the 'Other matter' paragraph:
  - The consolidated Ind AS financial statements disclose the impact of pending litigations on its consolidated financial position of the Group and its associates – Refer Note 33 to the consolidated Ind AS financial statements;
  - The Group and its associates did not have any material foreseeable losses in long-term contracts including derivative contracts during the year ended March 31, 2018. Refer Note 50 to the consolidated Ind AS financial statements.
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, its subsidiary and associate incorporated in India during the year ended March 31, 2018.

### **Annexure 1**

### To the Independent Auditor's Report of Even Date on the Consolidated Financial Statements of Trident Limited

# Report on the Internal Financial Controls under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Trident Limited as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of Trident Limited (hereinafter referred to as the "Holding Company") and its subsidiary company and its associate company, which are companies incorprograted in India as of that date.

### Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary company and its associate company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective companys policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these consolidated financial statements.

# Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Financial Statements

A company's internal financial control over financial reporting with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinio

In our opinion, the Holding Company, its subsidiary company and its associate company, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these consolidated financial statements and such internal financial controls over financial reporting with reference to these consolidated financial statements were operating effectively as at March 31,2018, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated financial statements of the Holding Company, in so far as it relates to these 1 subsidiary company and 1 associate company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiary company and associate company incorporated in India.

# **Notes to Consolidated Financial Statements**

as at and for the year ended March 31, 2018

### 1 - CORPORATE INFORMATION

The consolidated financial statements comprise financial statements of Trident Limited (the Parent Company), its subsidiaries (the Parent Company and its subsidiaries together referred to as "the Group") and associates for the year ended March 31, 2018. The Parent Company is a public company domiciled in India and incorporated on April 18, 1990 under the provisions of the Companies Act, 1956. The name of the Company was changed from Abhishek Industries Limited to Trident Limited on April 18, 2011. The equity shares of the Company are listed on two stock exchanges in India i.e. National Stock Exchange of India Limited (NSE) and BSE Limited (BSE). The Group is engaged in manufacturing, trading and selling of Textiles (Yarn, Terry Towels, Bedsheets), Paper and Chemicals.

The address of its registered office and principal place of business are disclosed in the introduction to the annual report. The principal activities of the Group are described in Note 41.

These consolidated financial statements were authorised for issuance by the Board of Directors of the Parent Company in their meeting held on May 07, 2018.

### 2.1 - SIGNIFICANT ACCOUNTING POLICIES

### A Statement of compliance

The consolidated financial statements of the Parent Company and its subsidiaries (together the 'Group') have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

### Basis of preparation and presentation

The consolidated financial statements have been prepared under the historical cost convention on accrual basis except for following assets and liabilities which have been measured at fair value:

- 1. Derivative financial instruments
- 2. Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments in Note (1)
- 3. Defined benefit plans plan assets are measured at fair value

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. Historical cost is generally based on the fair value of the

consideration given in exchange for goods and services.

The financial statements of the Group are presented in Indian Rupee (₹) and all values are rounded to the nearest million with one decimal place (₹ 000,000), except when otherwise indicated

### Changes in accounting policies and disclosures New and amended standards and interpretations

The Group applied for the first time certain amendments to the standards, which are effective for annual periods beginning on or after April 01, 2017. The nature and the impact of each amendment is described below:

### Amendments to Ind AS 7 Statement of Cash Flows: Disclosure Initiative

The amendments require entities to provide disclosure of changes in their liabilities arising from financing activities. including both changes arising from cash flows and noncash changes (such as foreign exchange gains or losses). The Group has provided the information for both the current and the comparative period in Cash flow statement.

### Amendments to Ind AS 102 Classification and Measurement of Share-based Payment Transactions

The amendments to Ind AS 102 Share-based Payment addresses three main areas; the effects of vesting conditions on the measurement of a cash-settled sharebased payment transaction; the classification of a sharebased payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled.

On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met. The Group applied these amendments without restating prior periods. However, their application has no effect on the Group's financial position and performance as the Group had no such transaction.

### B Principles of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries. Control is achieved when the Company:

- · has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- · has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee

unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- · the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders.
- · potential voting rights held by the Company, other vote holders or other parties:
- · rights arising from other contractual arrangements;
- · any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit and loss from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The financial statements of the subsidiary companies used in the consolidation are based on the audited financial statements which has been drawn upto the same reporting date as that of the Company i.e. March 31, 2018.

### Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105. Under the equity method, an investment in an associate is initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. Distributions received from an associate reduce the carrying amount of the investment. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

After application of the equity method of accounting, the Group determines whether there is any objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment in an associate and that event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated. If there exists such an objective evidence of impairment, then it is necessary to recognise impairment loss with respect to the Group's investment in an associate.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of profit of an associate' in the statement of profit or loss.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate, or when the investment is classified as held for sale. When the Group retains an interest in the former associate and the retained interest is a financial asset. the Group measures the retained interest at fair value at

# **Notes to Consolidated Financial Statements**

as at and for the year ended March 31, 2018

that date and the fair value is regarded as its fair value on initial recognition in accordance with Ind AS 109. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related accete or liabilities

When a group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

The financial statements of the associate companies used in the consolidation are based on the audited financial statements which has been drawn upto the same reporting date as that of the Parent Company i.e. March 31, 2018.

### D Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The following specific criteria must also be met before revenue is recognised

### Sale of products

Revenue in respect of sale of products is recognised when the significant risks and rewards of ownership of the goods are passed on to the buyer, Amounts disclosed as revenue are inclusive of excise duty and net of returns and allowances, trade discounts and rebates. The Group has assumed that recovery of excise duty flows to the Group on its own account. This is for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the Group on its own account, revenue includes excise duty. The Group collects sales tax, value added tax ("VAT") and Goods & Service Tax (GST) on behalf of the government and therefore, these are not economic benefits flowing to the Group. Hence, these are excluded from the revenue.

The revenue in respect of duty drawback and similar other export benefits is recognized on post export basis at the rate at which the entitlements accrue and is included in the 'sale of products'.

### Interest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income. interest income is recorded using the effective interest rate (EIR), EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

### Dividend income

Dividend on financial assets at FVTPL is recognised when the Group's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

### Other income

Insurance claims are recognised when there exists no significant uncertainty with regard to the amounts to be realized and the ultimate collection thereof.

### E Government grants/subsidies

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be

Government grants are recognised in the statement of profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, Government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in balance sheet and transferred to statement of profit or loss on a systematic and rational basis over the

useful lives of the related assets and is netted off from the related expenses.

Subsidy from government in the form of refund of taxes are recognised on accrual basis when there is reasonable assurance that the Group will comply with the conditions attaching to them and that the subsidy will be received.

### F Borrowing costs

Borrowing costs include interest and amortisation of ancillary costs incurred in relation to borrowings. Borrowing costs, allocated to and utilised for qualifying assets. pertaining to the period from commencement of activities relating to construction/development of the qualifying asset upto the date of capitalisation of such asset are added to the cost of the assets. Qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Interest revenue earned on the temporary investment of specific borrowings for qualifying assets pending their expenditure, is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in statement of profit and loss in the period in which they are incurred.

### Income taxes

Income tax expense comprises current income tax and deferred tay

Current tax expense for the year is ascertained on the basis of assessable profits computed in accordance with the provisions of the Income-tax Act, 1961.

Deferred tax is recognised using the liability method on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax assets are generally recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against

which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The Group is entitled to a tax holiday under the Incometax Act, 1961 enacted in India, no deferred tax (asset or liability) is recognized in respect of temporary differences which reverse during the tax holiday period, to the extent the concerned entity's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognized in the year in which the temporary differences originate. However, the Group companies restrict recognition of deferred tax assets to the extent it is probable that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first

Minimum Alternate Tax (MAT) paid as current tax expense in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as tax credit and recognised as deferred tax asset when there is reasonable certainity that the Group will pay normal income tax in the future years and future economic benefit associated with it will flow to the Group.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Deferred tax assets and deferred tax liabilities are off-set if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relates to the same taxable entity and the same taxation authority.

### Retirement and Employee benefits

The Group has various schemes of employees benefits such as Provident fund, Gratuity and Compensated absences, which are dealt with as under-

### **Defined Contribution**

Provident fund is the defined contribution scheme. The contribution to this scheme is charged to statement of

# **Notes to Consolidated Financial Statements**

as at and for the year ended March 31, 2018

profit and loss of the year in which contribution to such scheme become due and when services are rendered by the employees. The Group has no obligation other than the contribution payable to the provident fund. If the contribution payable to the scheme for services received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

### Defined Benefit plan

The gratuity liability in respect of employees of the Group is covered through trusts' group gratuity schemes managed by Life Insurance Corporation of India, SBI Life Insurance Group Limited, Kotak Mahindra and Baiai Allianz, The cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at each balance sheet date by an independent valuer. Remeasurement gains and losses are recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to statement of profit or loss. Past service cost is recognised in statement of profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- · service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements):
- net interest expense or income: and
- remeasurement

### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised on an undiscounted accrual basis during the year when the employees render the services. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services.

### Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date. The cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses

are recognised in the statement of profit and loss in the period in which they occur. The Group presents the entire leave liability as current liability, since it does not have an unconditional right to defer its settlement for 12 months after the reporting period.

### Property, Plant and Equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses (if any). Freehold land is not depreciated and had been measured at deemed cost being fair value as at the date of transition to Ind AS viz April 01, 2015.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Property, plant and equipment except freehold land is carried at cost net of accumulated depreciation and accumulated impairment losses if any. Freehold land are carried at deemed cost being fair value as at the date of transition to Ind AS (April 01, 2015). Cost comprises of its purchase price including non refundable duties and taxes and excluding any trade discount and rebates and any directly attributable costs of bringing the asset to it working condition and location for its intended use. Cost also includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy (refer note 2.1 (F)). Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets commences when the assets are ready for their intended use.

Subsequent expenditure related to an item of PPE is capitalised only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized

### J Depreciation on tangible assets

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on tangible property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories

of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes. manufacturers warranties and maintenance support, etc.:

	As per management estimate	As per schedule II
General plant and equipment on triple shift basis	- 9.5 years	- 7.5 years
End user devices, such as, desktops, laptops, etc (included under Computers)	- 5 years	- 3 years
Servers and networks (included under Computers)	- 5 years	- 6 years
Office equipments	- 10 years	- 5 years
Vehicles	- 6 years	- 8 years

Leasehold improvements are depreciated over the remaining lease period.

When parts of an item of Property, plant & equipment have different useful life, they are accounted for as separate items (Major components) and are depreciated over the useful life of part or the parent asset to which it relates. whichever is lower.

When significant spare parts, stand-by equipment and servicing equipment have useful life of more than one period, they are accounted for as separate items and are depreciated over the useful life of such item or the parent asset to which it relates, whichever is lower.

### K Intangible assets

### Intangible assets acquired separately

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets with finite lives are amortised on a straight line basis over the estimated useful economic life. The estimated useful life and amortisation method are \* Includes by products which is valued at net realizable reviewed at the end of each reporting period.

Development expenditure on an individual project are recognised as an intangible asset when the Group can demonstrate:

- · The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits

- . The availability of resources to complete the asset
- The ability to measure reliably the expenditure during

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

During the period of development, the asset is tested for impairment annually

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

### L Inventories

Raw materials, work in progress, finished goods, Process waste and Stores and spares are valued at cost or net realizable value, whichever is lower. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and cost necessary to make the sale. The basis of determining cost for various categories of inventories is as follows:

- Raw materials: weighted average cost \* Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Work in progress: cost of raw materials plus conversion cost depending upon the stage of completion. Cost is determined on a weighted average basis.
- · Finished goods (including stock in trade): cost of raw materials plus conversion cost and packing cost, Cost is determined on a weighted average basis.
- Process waste is valued at net realizable value.
- · Stores and spares: weighted average cost Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and

### M Impairment of tangible and intangible assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The

# **Notes to Consolidated Financial Statements**

as at and for the year ended March 31, 2018

recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available, and if no such transactions can be identified an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's CGU's to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long term growth rate is calculated and applied to projected future cash flows after the fifth year.

Impairment losses, including impairment on inventories, are recognized in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss.

### N Segment reporting

The Group identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the Chief Operating Decision maker in deciding how to allocate resources and in assessing performance.

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. Chief Operating Decision Maker review the performance of the Company according to the nature of products manufactured with each segment representing a strategic business unit that offers different products

and serves different markets. The analysis of geographical segments is based on the locations of customers.

### O Leases

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases.

Rental expense from operating leases is generally recognised on a straight-line basis over the relevant lease term other than where the rentals are structured solely to increase in line with expected general inflation to compensate for the increase in lessor's expected inflationary cost, such increase is recognised in the year in which such benefits accrue. In the event that lease premiums are paid to enter into operating leases, such premiums are recognised as a prepaid expenditure and amortised over the period of lease.

# Provisions, contingent liabilities and contingent assets

A provision is recognised when the Group has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation at the balance sheet date and measured using the present value of cash flows estimated to settle the present obligations (when the effect of time value of money is material). These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the notes.

### Contingent liabilities

A contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise. Contingent liabilities are disclosed by way of note to the financial statements.

### Contingent Assets

A contingent asset is a possible asset that arises from past events the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the

Contingent assets are neither recognised nor disclosed in the financial statements.

### Q Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

### (a) Financial assets

Initial recognition and measurement

as at and for the year ended March 31, 2018

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset

### Subsequent measurement

Debt Instruments-

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. For the purposes of subsequent measurement, debt instruments are classified in three categories:

- · Debt instruments at amortised cost;
- · Debt instruments at fair value through other comprehensive income (FVTOCI):
- · Debt instruments at fair value through profit or Inss (FVTPL)

### Debt instruments at amortised cost

A debt instrument is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss

### Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPL

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI), However, the Group recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the statement of profit and loss, Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the FIR method

### Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at EVTPL. In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

### Equity Instruments-

For the purposes of subsequent measurement, equity instruments are classified in two categories:

- · Equity instruments at fair value through profit or Ines (FV/TPL)
- · Equity instruments measured at fair value through other comprehensive income (FVTOCI)

### Equity instruments at fair value through profit or loss (FVTPL)

In case of equity instruments which are held for trading are initially measured at fair value plus transaction costs and subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in Statement of profit and loss.

Investments in equity instruments are classified as at FVTPL, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

### Equity instruments at fair value through Other Comprehensive Income (FVTOCI)

In the case of equity instruments which are not held for trading and where the Group has taken irrevocable election to present the subsequent changes in fair value in other comprehensive income, these elected investments are initially measured at fair value plus transaction costs and subsequently, they are

# **Notes to Consolidated Financial Statements**

as at and for the year ended March 31, 2018

measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Equity instruments through other comprehensive income under the head 'Other Equity'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. The Group makes such election on an instrument -by-instrument basis.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

A financial asset is held for trading if:

- · it has been acquired principally for the purpose of selling it in the near term; or
- · on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- · it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- · The rights to receive cash flows from the asset have expired, or
- · The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

### Impairment of financial assets

The Group applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, trade receivables and other contractual rights to receive cash or other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Group estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument

The Group measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses, 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12

For trade receivables, the Group always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Group has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

### (b) Financial liabilities

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables, loans and borrowings including derivative financial instruments.

### Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss (FVTPL) include financial liabilities held for trading and

as at and for the year ended March 31, 2018

financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109 'Financial instruments'.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

### Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another financial liability from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

### R Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders of the Parent Company by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders of the Parent Company and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

### Operating cycle

Based on the nature of products/activities of the Group

and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

### T Derivative financial instruments

The derivative financial instruments i.e. forward exchange contracts are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately. Derivatives are carried as financial assets when the fair value is positive and as financial liabilties when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss.

### U Fair Value Measurement

The Group measures financial instruments, such as, derivatives at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- · In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

· Level 1 - Quoted (unadjusted) market prices in active

# **Notes to Consolidated Financial Statements**

as at and for the year ended March 31, 2018

markets for identical assets or liabilities

- Level 2-Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- · Level 3-Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management determines the policies and procedures for both recurring fair value measurement. such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for disposal in discontinued operation.

External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets. and significant liabilities, such as contingent consideration, if any.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management, in conjunction with the Group's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

### V Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

### W Dividend to equity holders of the Parent Company

The Parent Company recognises a liability to make dividend distributions to equity holders of the Parent Company when the distribution is authorised and the distribution

is no longer at the discretion of the Parent Company, As per the corporate laws in India a distribution is authorised when it is approved by the shareholders. However Board of Directors of a Company may declare interim dividend during any financial year out of the surplus in statement of profit and loss and out of the profits of the financial year in which such interim dividend is sought to be declared. A corresponding amount is recognised directly in equity.

### X Foreign exchange gains and losses

The Group's functional and reporting currency is INR (₹) Exchange differences are dealt with as follows:

Foreign currency transactions are recorded at the exchange rate that approximates the actual rate at the date of transacion. Monetary items denominated in a foreign currency are reported at the closing rate as at the date of balance sheet. Non-monetary items, which are carried at fair value denominated in foreign currency, are reported at the exchange rate that existed when such values were determined, otherwise on historical exchange rate that existed on the date of transaction.

The exchange difference arising on the settlement of monetary items or on reporting these items at rates different from the rates at which these were initially recorded/reported in previous financial statements are recognized as income/expense in the period in which they arise. Further, where foreign currency liabilities have been incurred in connection with property, plant and equipment, the exchange differences arising on reinstatement, settlement thereof during the construction period are adjusted in the cost of the concerned property, plant and equipment to the extent of exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs in accordance of para 6 (e) as per Ind AS 23.

### NOTE 2.2 Standards issued but not yet effective

The amendments to the standards are issued, but not yet effective, upto the date of issuance of the financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective.

The Ministry of Corporate affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2017 and Companies (Indian Accounting Standards) Amendment Rules, 2018 amending the following standard:

### (i) IND AS 115 Revenue From Contracts With Customers:

IND AS 115 was issued on 28th March, 2018 and establishes a five -step model to account for revenue arising from contracts with customers. Under IND AS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under IND AS. Either a

as at and for the year ended March 31, 2018

full retrospective application or a modified retrospective application is required for annual periods beginning on or after April 01, 2018. The Group plans to adopt the new standard on the required effective date using the modified retrospective method

The Group is in the process of making an assessment of the impact of IND AS 115 upon initial recognition, which is subject to changes arising from more detailed ongoing analysis.

### (ii) Amendment to existing issued Ind AS

The MCA has also carried out amendments in following accounting standards. These are:

- a) Ind AS 21 The Effects of Changes in Foreign Exchange Rates
- b) Ind AS 40 Investment Property
- c) Ind AS 12 Income Taxes
- d) Ind AS 28 Investments in Associates and Joint Ventures and
- e) Ind AS 112 Disclosure of Interests in Other Entities

Application of above standards are not expected to have any significant impact on the Group's financial statements.

### NOTE 2.3 Key sources of estimation uncertainity

In the application of the Group accounting policies, the management of the Group is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised

in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:-

### Useful lives of Intangible assets

The intangible assets are amortised over the estimated useful life. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

### Useful lives of depreciable tangible assets

Management reviews the useful lives of depreciable assets at each reporting date. As at March 31, 2018 management assessed that the useful lives represent the expected utility of the assets to the Group. Further, there is no significant change in the useful lives as compared to previous year.

### Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

### **NOTE 36 - EMPLOYEE BENEFITS**

### a) Defined contribution plans

The Group makes contribution towards employees' provident fund scheme. Under the scheme, the Group is required to contribute a specified percentage of Salary, as specified in the rules of the schemes. The Group has recognized ₹ 184.6 million (Previous year ₹ 178.9 million) during the year as expense towards contribution to this plan. ₹ 2.2 million (Previous year ₹ 2.3 million) is included under property, plant and equipment / Capital work in progress.

(₹ million)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
Group's contribution to provident fund	186.8*	181.2

<sup>\*</sup> Net of rehate of ₹ 14.8 million under Pradhan Mantri Roigar Protsahan Yojana Scheme

### b) Defined benefit plans

### Gratuity scheme

The Group has a defined gratuity plan (Funded) and the Gratuity plan is governed by The Payment of Gratuity Act 1972 ("Act"). Under the Act, employee who have completed five years of service is entitled for specific benefit. The amount of benefit depends on respective employee's salary, the years of employment and retirement age of the employee and the gratuity benefit is payable on termination/retirement of the employee. There is no maximum limit for the payment of gratuity benefit. The present value of obligation is determined based on an actuarial valuation as at the reporting date using the Projected Unit Credit Method.

The fund has the form of an irrevocable trust and it is governed by Board of Trustees. The Board of trustees is responsible for the administration of the plan assets and for the definition of investment strategy. The scheme is funded with qualifying insurance policies. The Parent Company is contributing to trusts towards the payment of premium of such company gratuity schemes.

The following table sets out the details of defined benefit plan and the amounts recognised in the financial statements:

### Components of Net Benefit Expense

S.No.	Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
	Recognised in Statement of Profit and Loss		
1	Current Service Cost	114.5	94.0
2	Past Service Cost (refer note 55)	(115.2)	=
3	Net Interest Cost	(5.3)	(5.4)
4	Total expense recognised in the Statement of Profit and Loss	(6.0)	88.6
	Re-measurements recognised in Other Comprehensive Income		
5	Effect of changes in financial assumptions	(84.9)	45.3
6	Effect of experience adjustments	(73.5)	10.5
7	Return on plan assets (greater)/less than discount rate	12.6	(11.2)
8	Total loss/ (gain) of re-measurements included in OCI	(145.8)	44.6

### NOTE 36 - EMPLOYEE BENEFITS (contd..)

### II Net Asset recognised in Balance Sheet

				0			

S.No.	Particulars	As at	As at
		March 31, 2018	March 31, 2017
1	Present Value of defined benefit obligation	(465.9)	(623.5)
2	Fair value of plan assets	757.7	629.9
3	Net defined benefit asset	291.8	6.4

### III Change in present value of defined benefit obligation

(₹ million)

S.No.	Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
1	Present Value of DBO at the beginning of the year	623.5	465.0
2	Current Service Cost	114.5	94.0
3	Past Service Cost	(115.2)	-
4	Interest Cost	43.4	35.7
	Remeasurement gains / (losses):		
5	Effect of changes in financial assumptions	(84.9)	45.3
6	Effect of experience adjustments	(73.5)	10.5
7	Benefits Paid	(41.9)	(27.0)
8	Present Value of defined benefit obligation at the end of the year	465.9	623.5

### IV Change in fair value of Plan assets

(₹ million)

S.No.	Particulars	As at March 31, 2018	As at March 31, 2017
1	Fair value of Plan assets at the beginning of the year	629.9	462.8
2	Interest income on plan assets	48.7	41.2
3	Employer cotributions	133.6	141.7
4	Return on plan assets greater /(lesser) than discount rate	(12.6)	11.2
5	Benefits paid	(41.9)	(27.0)
6	Fair value of assets at end of the year	757.7	629.9

The fund managers do not disclose the composition of their portfolio investments, accordingly break-down of plan assets by investment type has not been disclosed.

### The assumptions used in accounting for the defined benefit plan are set out below:

(₹ million)

S.No.	Particulars	As at March 31, 2018	As at March 31, 2017
1	Discount Rate (%)	7.70%	7.90%
2	Pre-retirement mortality	Indian Assured Lives Mortality (2006-08) Ult.	Indian Assured Lives Mortality (2006-08) Ult.
3	Salary increase rate *	6.00%	7.00%
4	Attrition Rate	4.00%	5.00%
5	Retirement Age	58 Years	58 Years

<sup>\*</sup> The estimate of future salary increases take account of inflation, seniority promotion and other relevant factors, such as supply and demand in the employment market

# **Notes to Consolidated Financial Statements**

as at and for the year ended March 31, 2018

### NOTE 36 - EMPLOYEE BENEFITS (contd..)

### VI Net Asset / (Liability) recognised in Balance Sheet (including experience adjustment impact)

(₹ million)

			(
S.No.	Particulars	As at	As at
		March 31, 2018	March 31, 2017
1	Present Value of Defined Benefit Obligation	(465.9)	(623.5)
2	Status [Surplus/(Deficit)]	291.8	6.4
3	Experience Adjustment of obligation [(Gain)/Loss]	(73.5)	10.5

### VII Acturial risks

Through its defined benefit plans the Group is exposed to a number of risks, the most significant of which are detailed below:

The defined benefit obligation is calculated using a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

### Salary Inflation risk

Higher than expected increases in salary will increase the defined benefit obligation.

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

### VIII Sensitivity Analysis-Impact on defined benefit obligation

(₹ million)

S.No.	Particulars	As at March 31, 2018 Increase/ (Decrease)	As at March 31, 2017 Increase/ (Decrease)
1	Discount Rate + 50 basis points	(23.9)	(32.9)
2	Discount Rate - 50 basis points	26.1	35.9
3	Salary Increase Rate + 0.5%	26.4	35.9
4	Salary Increase Rate – 0.5%	(24.3)	(33.2)
5	Attrition Rate + 5%	22.1	(10.8)
6	Attrition Rate - 5%	(39.7)	6.9

The sensitivity analysis presented above may not be representative of the actual changes in the defined benefit obligations, as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumption may be

Furthermore, in presenting the above sensitivity analysis the present value of the defined benefit obligations has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the financial statements.

There was no change in the methods and assumption used in preparing the senstivity analysis from prior years.

The senstivity analysis above have been determined based on reasonably possible changes of the respective assumption occuring at the end of the reporting period, while holding all other assumptions constant.

The following benefit payments are expected in future years:

### NOTE 36 - EMPLOYEE BENEFITS (contd..)

(₹ million)

Year ending	March 31, 2018
March 31, 2018	46.6
March 31, 2019	26.2
March 31, 2020	33.8
March 31, 2021	42.5
March 31, 2022	50.4
March 31, 2023 to March 31, 2027	392.3

The average duration of the defined benefit obligation at the end of the reporting period is 13 years (previous year 11 years) The expected employer contributions for the year ended March 31, 2018 is Nil (previous year ₹ 155.9 million)

### NOTE 37 - DISCLOSURES REQUIRED UNDER SECTION 22 OF THE MICRO, SMALL AND MEDIUM ENTERPRISES **DEVELOPMENT ACT, 2006**

(₹ million)

		(< million)

## NOTE 41 - SEGMENT INFORMATION

### I Segment Accounting Policies:

### a. Product and Services from which reportable segment derive their revenues (Primary Business Segments)

Based on the nature and class of product and services, their customers and assessment of differential risks and returns and financial reporting results reviewed by Chief Operating Decision Maker (CODM), the Group has identified the following business segments which comprised:

Textiles: Yarn, Towel, Bedsheets, Dyed Yarn manufacturing (Including utility services)

Paper and Chemical: Paper and Sulphuric Acid (Including utility services)

Till the previous year, the Group was showing "Sale of software and related services" as a saperate segment, however, CODM does not consider the same as separate segment and hence the same is included under unallocated segment in the previous year as well as current year.

### b. Geographical segments (Secondary Business Segments)

The geographical segments considered and reviewed by Chief Operating Decision Maker for disclosure are based on markets, broadly as under:

India

USA

Rest of the world

### c. Segment accounting policies

Segment accounting policies: In addition to the significant accounting policies applicable to the business segment as set out in note 2, the accounting policies in relation to segment accounting are as under:

### i. Segment assets and liabilities:

Segment assets include all operating assets used by a segment and consist principally of cash, debtors, inventories and Property, Plant and Equipment including capital work in progress, net of allowances and provisions, which are reported as direct offset in the balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities.

### ii Segment revenue and expenses:

Joint revenue and expenses of segments are allocated amongst them on reasonable basis. All other segment revenue and expenses are directly attributable to the segments.

### iii Inter segment sales:

Inter segment sales are accounted for at cost plus appropriate margin (transfer price) and are eliminated in consolidation.

### iv Segment results :

Segment results represents the profit before tax earned by each segment without allocation of central administration costs, share of profit of associates, other non operating income as well as finance costs. Operating profit amounts are evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

### II Detail of Primary Business Segments and its reconciliation with Financial Statements:

Remeasurement of defined benefit obligations	14.0	-	15.4	29.4
Deferred income	177.6	142.3	-	319.9
Carry forward Tax Loss	450.1	(450.1)	-	_
Unrealised profits of associates of the Group	2.4	(0.7)	-	1.7
Exchange gain on translation of foreign operations		-	0.3	0.3
Others	106.1	51.2		157.3
	899.8	(261.8)	15.7	653.7
MAT credit entitlement	1,247.9	457.5	-	1,705.4
Net tax liabilities	1,581.6	89.3	(15.7)	1,655.2

The Group has recognized Minimum Alternate Tax (MAT) credit entitlement ₹ 1,188.7 million (previous year ₹ 1,705.4 million) which represents that portion of the MAT Liability, the credit of which would be available based on the provision of Section 115JAA of the Income Tax Act, 1961. The management based on the future profitability projections and also profit earned during the current year is confident that there would be sufficient taxable profit in future which will enable the Group to utilize the above MAT credit entitlement.

as at and for the year ended March 31, 2018

### NOTE 46 - Financial Instruments

### Capital management

For the purpose of Group's capital management, capital includes Issued Equity capital and all reserves attributable to equity holders of the Group

The Group's capital management objectives are:

- to ensure the Group's ability to continue as a going concern;
- · to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Group manages capital risk in order to maximize shareholders' profit by maintaining sound/optimal capital structure through monitoring of financial ratios, such as net debt-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary. There is no change in the overall capital risk management strategy of the Group compared to last year.

Debt-to-equity ratio as of March 31, 2018 and March 31, 2017 is as follows:

(₹ million)

Particulars	As at	As at
	March 31, 2018	March 31, 2017
Net debt (A) *	26,312.7	27,167.7
Total equity (B)	29,414.5	27,568.5
Net debt to equity ratio (A/B)	0.9	1.0

<sup>\*</sup>The Group includes with in net debt, interest bearing loans and borrowings less cash and cash equivalents and other bank balances.

### Fair Values and its categories:

Set out below, is a comparison by class of the carrying amounts and fair value of the Group's financial instruments:

(₹ million)

Particulars	Carryin	g Value	Fair Value		
	As at March 31, 2018	As at March 31, 2017	As at March 31, 2018	As at March 31, 2017	
Financial assets					
Measured at FVTPL					
Investments (refer note 4 and 9)	121.7	60.5	121.7	60.5	
Measured at amortised cost					
Security Deposits	395.8	365.1	395.8	365.1	
Measured at FVTOCI					
Investments (refer note 4)	142.0	112.8	142.0	112.8	
Financial liabilities					
Measured at amortised cost					
Borrowings	16,893.7	20,455.6	16,893.7	20,455.6	
Measured at FVTPL					
Derivative financial instrument	145.6	53.7	145.6	53.7	

The management assessed that fair value of Trade receivables, Cash and cash equivalents, Other bank balances, Other financial assets. Borrowings, Trade payables and Other financial liabilities (Except derviative financial liabilities) approximate their carrying amounts largely due to short-term maturities of these instruments.

The fair value of the Financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

### NOTE 46 - Financial Instruments (contd..)

### Financial Risk Management Framework

The Group's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables, receivables from government authorties, security deposits and cash and cash equivalents that derive directly from its operations. The Group also holds investments and enters in to derviative transactions.

The Group's corporate treasury function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Group seeks to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The Corporate Treasury function reports quaterly to the Board of Directors of the Parent Company for monitoring risks and reviewing policies implemented to mitigate risk exposures.

### CREDIT RISK

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collatarel, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 4.604.2 million and ₹3,750.9 million as of March 31, 2018 and March 31, 2017, respectively. Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Credit risk has always been managed by the group through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Group grants credit terms in the normal course of business.

The following table gives details in respect of percentage of revenues generated from top one customer and top five customers:

		(< 1111111011)
Particulars	As at	As at
	March 31, 2018	March 31, 2017
Revenue from top customer (%)*	10.6%	14.1%
Revenue from top five customers (%)	29.1%	28.6%

<sup>\*</sup> Revenue from top customer amounting to ₹ 4,855.6 million pertains to Textiles segment in USA market

### Credit Risk Exposure

The Group has used a practical expedient by computing the expected loss allowance for trade receivables based on historical credit loss experience and adjustments for forward looking information

(₹ million)

Particulars	As at March 31, 2018	As at March 31, 2017
With in the credit period	4,301.9	3,605.4
Up to 6 months past due	302.3	145.5
More than 6 months past due	7.0	91.0
Total	4,611.2	3,841.9

The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2018 was ₹ 6.3 million. The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2017 was ₹ 91.0 million.

Balance at the end	7.0	91.0

### LIQUIDITY RISK

### (i) Liquidity risk management

The Group's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times.

 $The \ Chief Financial \ Of ficer of the \ Parent \ Company is responsible for liquidity risk management \ who has established an appropriate \ Parent \ Company is responsible for liquidity risk management \ Parent \ Company is responsible for liquidity risk management \ Parent \$ liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. The Chief Financial officer reports the same to the Board of Directors on quarterly basis.

### (ii) Maturities of financial liabilities

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows.

Total	13,707.5	8,410.4	6,299.9	2,732.1

NOTE 46 - Financial Instruments (contd..)

### Derivative financial instruments

The Group holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial intitution. These derivative financial instruments are values based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

				(₹ million)

- Utilised	1,417.0	792.3
- Non Utilised	83.0	707.7
	12,000.0	12,000.0

### MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: currency risk and interest rate risk. Financial instruments effected by market risk includes loan and borrowings and derivative financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Group uses derivatives to manage market risks. Derivatives are only used for economic hedging purposes and not as speculative investments. All such transactions are carried out within the guidelines set by the Board of Directors and Risk Management Committee.

There has been no significant changes to the Group's exposure to market risk or the methods in which they are managed or measured.

### Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Group's exposure to currency risk relates primarily to the Group's operating activities and borrowings when transactions are denominated in a different currency from the Group's functional currency.

The Group manages its foreign currency risk by hedging transactions that are expected to occur within a maximum 12 month period for hedges of forecasted sales and borrowings.

# **Notes to Consolidated Financial Statements**

as at and for the year ended March 31, 2018

### Foreign currency rate sensitivity

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

(₹ million)

Particulars	Currency	As at March 31, 2018	As at March 31, 2017
Trade Receivables	USD	23.7	21.7
	EUR	1.1	0.1
Trade & Capital Payables	USD	0.6	0.3
	EUR	0.1	0.2
	JPY	-	-
	CHF	-	-
Secured Bank Loans	USD	27.1	19.3

Of the above foreign currency exposures, the following exposures are not hedged by a derivative.

(₹ million)

Particulars	Currency	As at	As at
		March 31, 2018	March 31, 2017
Trade & Capital Payables	USD	0.6	0.3
	EUR	0.1	0.2
	JPY	-	-
	CHF	-	-
Secured Bank Loans	USD	0.0	1.0

For the year ended March 31, 2018, every one rupee depreciation/appreciation in the exchange rate against US dollar, might have affected the Group's incremental operating margins (profit as a percentage to revenue) approximately by 0.60 %. The Group's exposure to foreign currency changes for all other currencies is not material.

### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The borrowings as at March 31, 2018 is ₹ 27,998.7 million which are interest bearing and interest rates are variable.

### Interest rate sensitivity

For the year ended March 31, 2018, every 1 precent increase/decrease in weighted average bank interest rate might have affected the Group's incremental operating margins approximately by 0.60 %.

The Company's investments in listed securities, mutual funds and other funds are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the price risk through diversification and by placing limits on individual and total equity instruments. Reports on the portfolio are submitted to the Company's senior management on a regular basis.

At the reporting date, the exposure to listed equity securities at fair value was INR 142.0 million. A decrease of 5% on the NSE market index could have an impact of approximately of ₹7.1 million on the OCI or equity attributable to the Company. An increase of 5% in the value of the listed securities would also impact OCI and equity by the same amount. These changes would not have an effect on profit or loss.

At the reporting date, the exposure in mutual funds and other funds is ₹120.3 million. A decrease or increase in NAV of 5% mutual funds and other funds could have an impact of approximately of ₹ 6.02 million on the profit or loss.

### NOTE 47 - Group Information

### Information about subsidiaries

The consolidated financial statements of the Group includes subsidiaries listed in the table below:
