Your Directors have recommended a dividend of Rs. 4/- per share (40%). On approval at the forthcoming Annual General Meeting, dividend will be paid to those members whose names appear in the Register of the Company on Record date, ie. on Friday, the 19th July, 2019 subject, however to the provision of Section 126 of the of the Companies Act, 2013. This equity dividend has not been included as a liability in the financial statement.

INDUSTRY STRUCTURE AND DEVELOPMENT, OPPORTUNITIES & THREATS, OUTLOOK, RISK AND CONCERN

The production of World Tea Crop stood at 5856 Million kgs (provisional) in 2018 as compared to 5697 million kgs in 2017. Indian Tea Crop was approx 1348.75 Million kgs; against 1278 million kgs. last year, the increase resulting from well distributed rainfall and better harvesting patterns. (source: International Tea Committee and Indian Tea Association respectively).

India is one of the several major tea producing centres of the world with tea produced in the country being one of the finest in the world. One of the oldest industries, the Indian tea industry has a large network of retailers, distributors, producers, packers, exporters and auctioneers. The reasons behind the popularity of Indian tea are not far to see – Indian tea owe its greatness to a host of factors from a great geographical spread, strong investments in tea processing facilities, calculated market development, constant innovation to a mix of high quality products. Global consumption of tea is likely to grow because of growing population and perception of the Consumer towards tea as natural health and wellness beverage.

Industry is experiencing rising input cost, increase in workers wage and related expenses, which is a challenge. Such increase in cost can only be set off by focused mechanization of estates operations and by improving the quality. This in turn will also result in global demand.

Identifying of risk is a continuous process which then leads to evaluating and managing significant risks faced through risk analysis process and risk mapping. The identified risks are then grouped into “High” “Medium” and “Low” and accordingly dealt with. The system is coordinated and designed to identify the key risk factors. Thereafter, the Audit Committee on a quarterly basis takes up the findings and envisages on the means through which the identified risk can be mitigated. During the financial year under review, no “high risk” were identified.

OPERATIONS

During the financial year under review, your Company recorded own crop of 18.63 Mn kgs. tea as compared to 18.83 Mn kgs. in the previous year, which is by and large similar to previous year which was a record year by itself. The slight shortfall in crop is due to the embargo imposed on plucking as per Tea Board Directive.

However, the total manufactured crop along with purchased leaf for your Company stood at 26.57 Mn kgs. vis-à-vis 24.03 Mn kgs. made last year, which is approximately 10% higher than the previous year.

A new dedicated Bought Leaf factory (Jogopur) was successfully opened at our Danguajhar factory site adding 2 Mn kgs. to the production. Your Company recently acquired Harchurah Tea Estate in Assam, from McLeod Russel India Limited which is expected to add another 1 mn kgs to the total production of the Company.

The season started with higher prices than the previous year, however it declined slightly during the later part due to high volume of production. Darjeeling teas fetched good prices both in auctions and private sales. The average selling price during the year was 5.76% higher than the peers. The interim wage revision in Assam by 18.25% and West Bengal by 21.57% has created a general inflation in the Cost of Production by 11% & 13% respectively, without any compensatory increase in the market price. This has created tremendous pressure on profitability. However, your company has introduced a number of mechanized activities in operations like Plucking, Planting, Uprooting & Spraying to increase the productivity of labour to mitigate the high cost of production.

The Uprooting and Replanting Policy of your Company continued to remain in focus and has further improved the percentage of tea plants below the age of fifty years which is approximately 44.70% of the total area. Height reduction operation has been increased to 3% of total area for better productivity. Uprooting of older tea areas which are unviable and replacing by higher yielding and better quality clones continues @ 2.5% per annum.

As part of a continuous up-gradation and modernization programme, mechanization has been further extended in areas of plucking, spraying, planting and pruning. During the year, 24% & 20% savings were achieved over last year on deployment of mandays on Pruning and Uprooting operations respectively. This has largely contributed in meeting the shortfall caused by scarcity of workers in a given tea season. With prevailing drought conditions every year, additional irrigation equipment were installed on the estates along with creation of new Water Bodies to bring more tea area under irrigation coverage.

The Shade Nurseries and Vegetative Propagation Nurseries in the gardens are of good standard, which is a key factor in developing a healthy plantation. The Afforestation programme was enhanced to maintain good ecological conditions on the estates. It has always been Your Company's endeavor to produce Quality teas, which has continued to command a premium both in the domestic and international market. Production of premium Orthodox Teas was increased with an aim to fetch better prices, Factory infrastructure and machinery was enhanced to meet the requirements.

Pests and disease were better controlled, strictly adhering to the approved chemicals listed under the Plant Protection Code. Usage of Compost and Vermicompost generated in-house for nutrition to the plants has helped in two ways - to reduce usage of inorganic nitrogen and to enrich the soil. This helped your Company to adopt green and eco-friendly measures and to reduce emissions. Being governed by the restrictions for supply of teas to the European Union, your Company has voluntarily upgraded the standard further to all teas produced by it. Twinning, UK has certified your Company to be a “Clean Organisation” and placed it at the top most position in India in terms of MRL compliance.

An experiment was carried out successfully in Thurbo Tea Estate to use gas firing as a replacement of coal firing which is considered as a cleaner fuel. This is to increase the efficiency of the firing as well as to expend on Green / Environment friendly projects. This will be extended to other factories also once found to be successful.

Five factories of your Company are FSSC 22000 certified. Your Company also has 2 estates that have been audited for Fairtrade and the certification is awaited. Three estates are certified under "Rainforest Alliance." Our endeavor to have all our factories certified under the new Indian "Trustea" certification is progressing satisfactorily with several factories already certified. We are also in the process of assisting our Bought Leaf Suppliers to be compliant under this certification. Your Company also participates in the Ethical Tea Partnership, a global initiative.

The Instant Tea Plant at Aibheel Tea estate has largely contributed to the revenue of your Company. Apart from exporting 241 Metric tonnes, it has sold a considerable quantity in the Domestic market as well, with the DTA Sale permission.

The Consumer division has yet again shown good growth and the brands acquired from Godfrey Philips have also been successfully inducted into the division's portfolio.

SEGMENTWISE OR PRODUCTWISE PERFORMANCE

DOMESTIC

The domestic sales for this year was 32.53 million kgs compared to previous year's 31.70 million kgs.

The newly acquired Harchurah Tea Estate, in Assam is gradually augmenting into the Group's philosophy of best quality Teas.

Consumer Division of the Company dealing with branded retail business registered a positive growth both in volume and value and maintained its market share. In the Darjeeling category the brands continued to be the market leader. Company continues to be preferred supplier of its teas to AIR India, Jet Airways, Spicejet airline, Costa Coffee besides premium luxury hotels in the country. Your company's foray into lounges show positive result and we continue to explore opportunities to increase the presence.

Total exports for the year stood at 4.91 million kgs as compared to 5.33 million kgs in the previous year.

Instant Tea performed satisfactorily with newer markets being tapped. Markets remain very protective and competitive and the plant continues to look at areas where cost can be reduced.

FINANCIALS WITH RESPECT TO OPERATIONAL PERFORMANCE

The Company maintained healthy profit and production level. Export sales of bulk tea and instant tea continued to contribute to the growth of the Company's business alongwith an improved margin in branded teas.

DETAILS OF SIGNIFICANT CHANGES

The SEBI-LODR (Amendment) Regulation, 2018 introduced the requirement of disclosing details of significant changes (i.e., change of 25% or more as compared to the immediately previous financial year) in the key financial ratios, accordingly, such changes are tabled below-

Financial Ratios	Variance	Reasons for Variance
Net Profit Margin	-58%	Operating Costs increased sharply due to substantial wage increase in Assam and West Bengal. Further tea prices also reduced in the later part of the financial year thereby having an adverse effect on the margins. Finance costs increased due to higher borrowings.
Interest Coverage Ratio	-67%	Average working capital borrowing was higher during the year due to sharp rise in wages as well as higher production.
Debt Equity Ratio	169%	Debt position at year end was higher due to higher working capital borrowings and loans taken for acquisition of tea estate in Assam.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Financial statements (i.e. Balance Sheet, Profit & Loss Statement and Cash-Flow Statement, together with notes) are prepared through the process which has automated as well as manual controls to ensure accuracy of recording all transactions which have taken place during any accounting period, and the resultant financial position at period end. All data pertaining are recorded through ERP systems operating in tea estates as well as head office. All data/transactions entered in systems are checked by various functional personnel on the basis of supporting documents & records, then the accounting entries are checked by accounts personnel and finally those are validated by managerial personnel. At periodic intervals, the accounting data are compiled, and financial statements are prepared. While preparing the financial statements, it is ensured that all transactions pertaining to the accounting period are recorded. Fixed assets, stock of tea, all significant items of stores and monetary assets are physically verified. The Company has adopted policies and procedures for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, safeguarding of its assets, prevention and detection of fraud and errors, accuracy and completeness of the accounting records, and timely preparation of reliable financial disclosures. The position is reviewed by the Chief Internal Auditor along with independent firm of chartered Accountants to corroborate proper monitoring.

REPORT ON CORPORATE GOVERNANCE

The Directors present the Company's Report on Corporate Governance pursuant to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

1. COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Goodricke has put in place a formalised system of Corporate Governance even before the Securities and Exchange Board of India made it mandatory for Listed Companies. Its governance framework enjoins the highest standards of ethical and responsible conduct of business to create value for all stakeholders.

Goodricke defines Corporate Governance as a systemic process by which companies are directed and controlled to enhance their wealth-generating capacity. Since large corporations employ a vast quantum of societal resources, Goodricke believes that the governance process should ensure that these resources are utilised in a manner that meets stakeholders' aspirations and societal expectations. Any meaningful policy on Corporate Governance must empower the management of the Company. At the same time, Governance must create a mechanism of checks and balances to ensure that the decision-making powers vested in the management are used with care and responsibility to meet stakeholders' aspirations and societal expectations.

2. BOARD OF DIRECTORS

2.6 Evaluation of the Board's Performance

The primary role of the Board is that of trusteeship to protect and enhance shareholder value through strategic supervision. The Board ensures that the Company has clear goals aligned to shareholder value and its growth. The Board sets strategic goals and seeks accountability for their fulfilment. The Board also provides direction and exercises appropriate control to ensure that the Company is managed in a manner that fulfils stakeholders' aspirations and societal expectations. The Board, as part and parcel of its functioning, annually reviews its role and also evaluates the performance of the Directors and the Board Committees. Pursuant to the guidance note issued by SEBI on Board evaluation, the Board evaluated its performance as well as that of its Committees and individual Directors, including the Chairman of the Board. The exercise was carried out covering various aspects of the Boards functioning such as composition of the Board and Committees, experience and competencies, performance of specific duties and obligations, governance issues etc. Separate exercise was carried out to evaluate the performance of individual Directors including the Non- Executive Chairman, who were evaluated on parameters such as attendance, contribution at the meetings and otherwise, independent judgement, etc.

Further, the SEBI (LODR) (Amendment) Regulations, 2018 dated 9th May 2018, prescribed additional criterion to be included in the evaluation process for Independent Directors which includes performance of Directors, fulfilment of independence criteria and independence from the Management. The Board of Directors additionally evaluated the Independent Directors on such parameters and confirmed the same. The Independent Directors who were subject to the evaluation has not participated in the process.

The Company received the resignation of Mr Prodosh Kumar Sen who resigned with effect from 31st March 2019 before expiry of his term scheduled to be concluded at the Annual General Meeting of 2020. He tendered his resignation citing personal reasons and also confirmed that there were no other material reason other than the one provided for such resignation.

2.7 Skill, Expertise and Competency of Directors

The Board of Directors of the Company are required to have knowledge of the plantation sector alongside a penchant for financials and in depth knowledge of eco-social well being. This triple bottomline makes a corporate sustainable and growth oriented. An optimum combination of experienced planters, brokers, bankers, financially literate professionals and socialist-educationist exists on the Board of Directors. Under their unmatched passion and able guidance, the Company achieves its corporate vision.

2.8 Code of Conduct

The Company has laid down a Code of Conduct for its Board Members and all the employees in the Senior Management grade of the Company which is available on the Company's website. All the Board Members and Senior Management personnel have confirmed compliance with the code. A declaration under Regulation 34 (3) of SEBI (LODR) Regulations, 2015 signed by the Managing Director & Chief Executive Officer is attached and forms part of this Annual Report.

**TO THE MEMBERS OF
GOODRICKE GROUP LIMITED****INDEPENDENT AUDITOR'S CERTIFICATE ON CORPORATE GOVERNANCE**

1. This certificate is issued in accordance with the terms of our engagement letter dated 30th July, 2018.
2. We, Deloitte Haskins & Sells LLP, Chartered Accountants, the Statutory Auditors of Goodricke Group Limited ("the Company"), have examined the compliance of conditions of Corporate Governance by the Company, for the year ended on 31st March 2019, as stipulated in regulations 17 to 27 and clauses (b) to (i) of regulation 46(2) and para C and D of Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the Listing Regulations).

Managements' Responsibility

3. The compliance of conditions of Corporate Governance is the responsibility of the Management. This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure the compliance with the conditions of the Corporate Governance stipulated in Listing Regulations.

Auditor's Responsibility

4. Our responsibility is limited to examining the procedures and implementation thereof, adopted by the Company for ensuring compliance with the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
5. We have examined the books of account and other relevant records and documents maintained by the Company for the purposes of providing reasonable assurance on the compliance with Corporate Governance requirements by the Company.
6. We have carried out an examination of the relevant records of the Company in accordance with the Guidance Note on Certification of Corporate Governance issued by the Institute of the Chartered Accountants of India (the ICAI), the Standards on Auditing specified under Section 143(10) of the Companies Act 2013, in so far as applicable for the purpose of this certificate and as per the Guidance Note on Reports or Certificates for Special Purposes issued by the ICAI which requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.
7. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

8. Based on our examination of the relevant records and according to the information and explanations provided to us and the representations provided by the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in regulations 17 to 27 and clauses (b) to (i) of regulation 46(2) and para C and D of Schedule V of the Listing Regulations during the year ended 31st March, 2019.
9. We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

**INDEPENDENT AUDITOR’S REPORT
TO THE MEMBERS OF GOODRICKE GROUP LIMITED**

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Goodricke Group Limited** (“the Company”), which comprise the Balance Sheet as at 31st March, 2019, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2019, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor’s Response

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Report of the Directors and Management Discussion & Analysis Report, but does not include the financial statements and our auditor's report thereon.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes

public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 30.1(a).
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Goodricke Group Limited** (“the Company”) as of 31st March, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2019, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- (b) The Company has a program of verification of property, plant and equipment to cover all the items in a phased manner over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain property, plant and equipment were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) With respect to immovable properties of land and buildings that are freehold, according to the information and explanations given to us and the records examined by us and based on the examination of the registered sale deed/ transfer deed / conveyance deed provided to us, we report that, the title deeds of such immovable properties are held in the name of the Company as at the balance sheet date.

In respect of immovable properties of leasehold land and disclosed as Property, Plant and Equipment in the Note 5A to the financial statements, according to the information and explanations given to us and the records examined by us and based on the examination of the sale agreement provided to us, we report that, the lease deed is not in the name of the Company as the lease deed is yet to be executed.

- (ii) As explained to us, the inventories other than stocks lying with third parties (which have substantially been confirmed) were physically verified during the year by the Management at reasonable intervals and no material discrepancies were noticed on such physical verification.
- (iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit during the year and had no unclaimed deposits at the beginning of the year as per the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013.
- (vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended prescribed by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013, and are of the opinion that, prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
 - (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees’ State Insurance, Income-tax, Customs Duty, Goods and Services Tax, Cess and other material statutory dues applicable to it to the appropriate authorities.
 - (b) There were no undisputed amounts payable in respect of Provident Fund, Employees’ State Insurance, Income-tax, Customs Duty, Goods and Services Tax, Cess and other material statutory dues in arrears as at 31st March, 2019 for a period of more than six months from the date they became payable.
 - (c) Details of dues of Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, and Value Added Tax, which have not been deposited as on 31st March, 2019 on account of disputes are given below:

Notes to the Financial Statements

1. Company Overview

Goodricke Group Limited is engaged in the manufacture and cultivation of tea. The Company operates within 18 tea estates spread across West Bengal and Assam and sells bulk tea both in domestic and international markets. The Company also produces Instant Tea at its plant located in Dooars, West Bengal primarily for the international market and has got a strong presence in Packet Tea domestic market through its various Brands. The Company is listed on the Bombay Stock Exchange (BSE).

2. Statement of Compliance

These financial statements, for the year ended 31st March 2019, have been prepared in accordance with Indian Accounting Standards (Ind ASs) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules 2016. The Company adopted Ind AS from 1st April, 2016.

3. Significant Accounting Policies

A. Basis of Preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain items which are measured at fair value at the end of each reporting period, as explained in the accounting policies given below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

B. Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1. The Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

C. Property, Plant and Equipment

(i) Tangible Assets (Other than Bearer Plants)

Property, Plant and Equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes deemed cost as at 1st January, 2015 measured as per the previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006.

Cost is inclusive of incidental expenses related to acquisition. Borrowing costs attributable to the construction or production of qualifying assets are capitalised. Expenses for the repair of Property, Plant and Equipment are charged against income when incurred.

Land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Depreciation of these assets, are on the same basis as other property assets, and commences when the assets are ready for their intended use.

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Items of Property, Plant and Equipment are depreciated in a manner that amortises the cost of the assets less its residual value, over their useful lives on a straight line basis. Estimated useful lives of the assets are as follows-

Buildings	30-60 years
Plant and equipment	5-18 years
Furniture and fixtures	10 years
Vehicles	6-8 years

The above estimated useful lives are also as specified in Schedule II of the Companies Act, 2013.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, and the effect of any changes in estimate is accounted for on a prospective basis.

(ii) Bearer Plants

Bearer plants comprising of mature tea bushes and shade trees are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes deemed cost as at 1st January, 2015. The Company recognised bearer plants for the first time at fair value as of 1st January, 2015 (transition date to Ind AS) and used such fair value as deemed cost.

Immature bearer plants, including the cost incurred for procurement of new seeds and maintenance of nurseries, are carried at cost less any recognised impairment losses under capital work-in-progress. Cost includes the cost of land preparation, new planting and maintenance of newly planted bushes until maturity. On maturity, these costs are classified under bearer plants. Depreciation of bearer plants commence on maturity.

Costs incurred for infilling including block infilling are generally recognised in the Statement of Profit and Loss unless there is a significant increase in the yield of the sections, in which case such costs are capitalised and depreciated over the remaining useful life of the respective sections.

Depreciation on bearer plants is recognised so as to write off its cost over useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

Estimated useful lives of the bearer plants has been determined to be 46 years.

D. Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight line basis over the estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less impairment losses.

Cost includes deemed cost as at 1st January, 2015 measured as per the previous GAAP, which includes

Standards notified under the Companies (Accounting Standards) Rules, 2006.

The useful life of an intangible asset is considered finite where the rights to such assets are limited to a specified period of time by contract or law (e.g., patents, licences, trademarks, franchise and servicing rights) or the likelihood of technical, technological obsolescence (e.g., computer software, design, prototypes) or commercial obsolescence (e.g., lesser known brands are those to which adequate marketing support may not be provided). If, there are no such limitations, the useful life is taken to be indefinite.

Intangible assets of the Company with finite useful lives comprise acquired computer software. Cost of software is capitalised where it is expected to provide future enduring economic benefits. Capitalisation costs include licence fees and cost of implementation / system integration services. The costs are capitalised in the year in which the relevant software is implemented for use and is amortised across a period not exceeding 5 years. Expenses incurred on upgradation / enhancements is charged off as revenue expenditure unless they bring similar significant additional benefits.

Indefinite life intangibles mainly consist of brands/trademarks. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues, if not, it is impaired or changed prospectively basis revised estimates.

E. Business combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. Acquisition-related costs are generally recognised in statement of profit and loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their respective fair values. Goodwill is measured as the excess of the sum of the consideration transferred over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

F. Goodwill

Goodwill arising on acquisition of a business is carried at cost as established at the date of acquisition of the business (see note E above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

G. Research and Development

Research and Development expenditure of revenue nature is written off in the Statement of Profit and Loss as incurred. Such expenditure is capitalised as intangible assets only if it meets the criteria of an intangible asset. Internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses.

H. Impairment of Assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible (including bearer plants) and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of an asset's net selling price and its value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If impairment is no longer justified in future periods due to a recovery in assets' fair value or value in use, the impairment reserve is reversed.

I. Biological Assets and Agricultural Produce

(i) Biological Assets

Biological assets of the Company comprises of unharvested green tea leaves that are classified as current biological assets and livestock for breeding purpose, classified as non-current biological assets. The Company recognises biological assets when, and only when, the Company controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the Company and the fair value or cost of the assets can be measured reliably. Expenditure incurred on biological assets are measured on initial recognition and at the end of each reporting period at its fair value less costs to sell. The gain or loss arising from a change in fair value less costs to sell of biological assets are included in Statement of Profit and Loss for the period in which it arises.

(ii) Agricultural Produce

The Company recognises agricultural produce when, and only when, the Company controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the Company and the fair value or cost of the assets can be measured reliably. Agricultural produce harvested from the Company's biological assets are valued at fair value less cost to sell at the point of harvest. A gain or loss arising on initial recognition of agricultural produce at fair value less costs to sell shall be included in Statement of Profit and Loss for the period in which it arises.

The Company's agricultural produce comprises of green leaves plucked from its tea estates.

J. Inventories

Inventories are stated at the lower of cost and net realisable value. Finished goods produced from agricultural produce are valued at lower of cost arrived at by adding the cost of conversion to the fair value of agricultural produce and the net realisable value. Net realisable value represents the estimated selling price for inventories less all selling costs.

Provision is made for obsolete, slow moving and defective inventories, whenever necessary.

K. Foreign Currency Transactions

The presentation currency of the Company is Indian Rupees. Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Monetary transactions remaining unsettled are translated at the rate of exchange ruling at the end of the year. Exchange gain or loss arising on settlement/translation is recognised in the Statement of Profit and Loss.

L. Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issues of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial assets or financial

liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

(i) Financial Assets

Recognition and Classification

The financial assets are classified at initial recognition in the following measurement categories as:

- those subsequently measured at amortised cost
- those to be subsequently measured at fair value [either through other comprehensive income (OCI), or through profit or loss]

Subsequent Measurement

- Financial assets measured at amortised cost - Financial assets which are held within the business model of collection of contractual cash flows and where those cash flows represent payments solely towards principal and interest on the principal amount outstanding are measured at amortised cost. A gain or loss on a financial asset that is measured at amortised cost and is not a part of hedging relationship is recognised in profit or loss when the asset is derecognised or impaired.
- Financial assets measured at fair value through other comprehensive income - Financial assets that are held within a business model of collection of contractual cash flows and for selling and where the assets' cash flow represents solely payment of principal and interest on the principal amount outstanding are measured at fair value through OCI. Movements in carrying amount are taken through OCI, except for recognition of impairment gains or losses. When a financial asset, other than investment in equity instrument, is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to Statement of Profit and Loss.

Classification of equity instruments, not being investments in subsidiaries, associates and joint arrangements, depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through OCI. When investment in such equity instrument is derecognised, the cumulative gains or losses recognised in OCI is transferred within equity on such derecognition.
- Financial assets measured at fair value through profit or loss - Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. Movements in fair value of these instruments are taken in profit or loss.

Impairment of financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Impairment losses are recognised in the profit or loss where there is an objective evidence of impairment based on reasonable and supportable information that is available without undue cost or effort. For all financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. The Company recognises loss allowances on trade receivables when there is objective evidence that the Company will not be able to collect all the due amounts depending on product categories and the payment mechanism prevailing in the industry.

Income recognition on financial assets

Interest income from financial assets is recognised in profit or loss using effective interest rate method, where applicable. Dividend income is recognised in profit or loss only when the Company's right to receive payments is established and the amount of dividend can be measured reliably.

(ii) Financial Liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered

into. Financial liabilities are classified, at initial recognition, as subsequently measured at amortised cost unless they fulfill the requirement of measurement at fair value through profit or loss. Where the financial liability has been measured at amortised cost, the difference between the initial carrying amount of the financial liabilities and their redemption value is recognised in the Statement of Profit and Loss over the contractual terms using the effective interest rate method. Financial liabilities at fair value through profit or loss are carried at fair value with changes in fair value recognised in the finance income or finance cost in the Statement of Profit and Loss.

(iii) Derecognition of financial assets and financial liabilities

Financial assets are derecognised when the rights to receive benefits have expired or been transferred, and the Company has transferred substantially all risks and rewards of ownership of such financial asset. Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

(iv) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

M. Revenue from sale of products

Revenue is measured at the fair value of the consideration received or receivable and is net off returns and discounts. Revenue from the sale of goods excludes amounts collected on behalf of third parties, such as value added tax and goods and services tax.

Revenue from sale of goods is recognised when the Company perform its obligations to its customers and, the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably. The timing of such recognition is when the control over the same is transferred to the customer, which is mainly upon delivery.

N. Government Grant

Government grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants are recognised in the Statement of Profit and Loss on a systematic basis over the periods in which the Company recognises the related costs for which the grants are intended to compensate. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non – current assets are recognised as deferred revenue in the Balance Sheet and transferred to the profit or loss on a systematic and rational basis over the useful lives of the related assets.

O. Employee Benefits

The Company operates defined contribution schemes like Provident Fund and defined Contribution Pension Schemes. The Company makes regular contribution to provident funds which are fully funded and administered by Government and are independent of Company's finance. Contributions are recognised in Statement of Profit and Loss on an accrual basis. The Company operates a non-contributory defined contribution pension scheme for certain employees. The Company contributes 15% of the employees' current salary to the above contribution fund which is recognised in the Statement of Profit and Loss.

The Company also operates defined benefit Provident Fund Schemes for certain employees which are fully funded and administered by trustees and are independent of the Company's finance. The Company makes regular contributions to the fund and shortfall if any, determined by annual actuarial valuation, is recognised in the Statement of Profit and Loss.

Defined Benefit Gratuity Plan is maintained by the company for all its eligible employees. The Company also operates a Non Contributory Defined Benefit Pension Scheme for certain employees. The Company contributes to such funds on the basis of actuarial valuation at the end of each year after setting off any net asset in respect of either fund. Both the Pension Fund and gratuity fund are administered by the Trustees and is independent of the Company's finance.

For Schemes where recognised funds have been set up annual contributions determined as payable in the actuarial valuation report are contributed. Gain or Loss on account of remeasurements are recognised immediately through Other Comprehensive Income in the period in which they occur.

Post-retirement medical benefits are provided by the Company for certain category of employees. Liability is determined through independent year end actuarial valuation and recognised in the Statement of Profit and Loss. Provision is made for leave encashment benefit payable to employees on the basis of independent actuarial valuation, at the end of each year and charge is recognised in the Statement of Profit and Loss.

P. Leases

Leases are recognised as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rentals payable under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

Q. Taxes on Income

Taxes on income comprises of current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

R. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking in to account the risks and uncertainties surrounding the obligation.

S. Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the

chief operating decision-maker (CODM). The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer.

4. Key sources of estimation uncertainty

The following are the key assumptions concerning the future and other key sources of estimating uncertainty as at the balance sheet date that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

A. Useful lives of Property, Plant and Equipment

The Company has adopted the useful lives as specified in Schedule II of the Companies Act, 2013 for Property, Plant and Equipment other than for bearer plants. For bearer plants, it has determined the useful life to be 46 years. The Company reviews the estimated useful lives at the end of each reporting period. Such useful lives depend upon various factors such as usage, maintenance practices etc. and can involve estimation uncertainty. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore, future depreciation charges could be revised. The carrying amount of the Company's Property, Plant and Equipment at the balance sheet date is disclosed in Note 5A to the financial statements.

B. Impairment of Property, Plant and Equipment

An impairment exists when the carrying value of an asset exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing the asset. The value in use calculation is based on a discounted cash flow model and requires the Company to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

C. Fair value measurements and valuation processes

Some of the Company's assets are measured at fair value for financial reporting purposes. Significant estimates are used in fair valuation of agricultural produce (harvested green leaves) and biological assets (unharvested green leaves).

For harvested or unharvested green leaves, since there is no active market, the fair value is arrived at based on the observable market prices of made tea adjusted for manufacturing costs and plucking costs, as applicable.

D. Employee Defined Benefit Plans

The determination of Company's liability towards defined benefit obligations to employees is made through independent actuarial valuation including determination of amounts to be recognised in the income statement and in the other comprehensive income. Such valuation depend upon assumptions determined after taking into account inflation, promotion and other relevant factors such as supply and demand factors in the employment market. Any changes in these assumptions will impact the carrying amount of defined benefit obligations.

- (b) Amount spent during the year is Rs. 6.73 Millions (2018 Rs.5.44 Millions)

30.5 Employee Benefit Plans:

Defined Contribution Plans

The Company operates defined contribution schemes like provident fund and pension schemes for all qualifying employees. For these schemes, contributions are made by the Company, based on current salaries, to recognised funds maintained by the Company and for certain employees' contributions are made to State Plans.

An amount of Rs. 178.18 Millions (2018 – Rs. 155.69 Millions) has been charged to the Statement of Profit and Loss on account of defined contribution schemes.

Defined Benefit Plans

The Company also operates defined benefit schemes in respect of gratuity, pension, provident fund and post-retirement medical benefit towards its employees. These schemes offer specified benefits to the employees on retirement. The pension benefits and medical benefits are restricted to certain categories of employees. The liabilities arising in the Defined Benefit Schemes are determined in accordance with the advice of independent, professionally qualified actuaries, using the projected unit credit method as at year end. The Company makes regular contributions to these Employee Benefit Plans. Additional contributions are made to these plans as and when required based on actuarial valuation.

Provident Fund, Pension and Gratuity Benefits are funded and Post-Retirement Medical Benefits are unfunded in nature. The funds are administered through approved Trusts, which operate in accordance with the Trust Deeds, Rules and applicable Statutes. The concerned Trusts are managed by Trustees who provide strategic guidance with regard to the management of their investments and liabilities and also periodically review their performance.

Risk Management

The above benefit plans expose the company to actuarial risks such as follows-

- (a) Interest rate risk: The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase
- (b) Salary inflation risk: Higher than expected increases in salary will increase the defined benefit obligation
- (c) Demographic risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

These Plans have a relatively balanced mix of investments in order to manage the above risks. The investment strategy is designed based on the interest rate scenario, liquidity needs of the Plans and pattern of investment as prescribed under various statutes. The Trustees regularly monitor the funding and investments of these Plans. Robust risk mitigation systems are in place to ensure that the health of the portfolio is regularly reviewed and investments do not pose any significant risk of impairment. Pension obligation of the employees is secured by purchasing annuities thereby de-risking the Plans from future payment obligation.

VII Actuarial Assumptions	As at 31st March, 2019		As at 31st March, 2018	
	Discount Rate (%)	Salary Escalation Rate (%)	Discount Rate (%)	Salary Escalation Rate (%)
1 Gratuity	7.50%	3.00% to 6.00%	7.75%	3.00% to 7.00%

3 Provident fund	7.50%	—	7.75%	—
4 Medical	7.50%	6.00%	7.75%	6.00%

The estimates of future salary increase considered in the actuarial valuation takes into account factors like inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

VIII Major Categories of Fair Value of Plan Assets	As at 31st March, 2019			As at 31st March, 2018		
	Gratuity	Pension	Provident Fund	Gratuity	Pension	Provident Fund
1 Government of Indian Securities (Central and State)	94.67%	93.46%	93.61%	94.00%	80.74%	94.09%
2 Mutual Funds	4.93%	3.50%	2.47%	4.17%	3.04%	2.16%
3 Others	0.40%	3.04%	3.92%	1.83%	16.22%	3.75%

The fair value of the above equity instruments are determined based on quoted market prices in active markets.

IX. Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

(Rs. in Millions)

	DBO as at 31st March, 2019 Increase / (Decrease)				DBO as at 31st March, 2018 Increase / (Decrease)			
	Gratuity	Pension	Provident Fund	Medical	Gratuity	Pension	Provident Fund	Medical
1 Discount Rate + 100 basis points	(105.19)	(18.25)	(0.40)	(13.81)	(88.36)	(18.78)	(0.34)	(13.84)
2 Discount Rate - 100 basis points	123.92	19.92	0.45	16.89	103.64	20.58	0.38	16.04
3 Salary Increase Rate + 1%	123.98	19.46	-	1.11	102.65	20.11	-	1.91
4 Salary Increase Rate - 1%	(107.08)	(18.13)	-	(1.04)	(89.24)	(18.66)	-	(1.10)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

33. Financial Instruments and Related Disclosures

1. Capital Management

The Company aims at maintaining a strong capital base, maximising shareholders' wealth, safeguarding business continuity and augments its internal generations with a judicious use of borrowing facilities to fund spikes in working capital that arise from time to time as well as requirements to finance business growth. The Company determines the capital management requirement based on annual operating plans and long term and other strategic investment plans. The funding requirements are met through equity, borrowings and operating cash flows.

The Company's Debt to Equity ratio at 31st March 2019 was as follows:

(Rs. in Millions)

3. Financial risk management objectives

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company continues to focus on a system-based approach to business risk management. The Company's financial risk management process seeks to enable the early identification, evaluation and effective management of key risks facing the business. Backed by strong internal control systems, the current Risk Management System rests on policies and procedures issued by appropriate authorities; process of regular reviews / audits to set appropriate risk limits and controls; monitoring of such risks and compliance confirmation for the same.

a) Market risk

The Company's business primarily agricultural in nature, exposes it to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of adverse weather conditions and lack of future markets. The Company closely monitors the changes in market conditions and select the sales strategies to mitigate its exposure to risk.

i. Foreign currency risk

The Company undertakes transactions denominated in foreign currency which results in exchange rate fluctuations. Such exchange rate risk primarily arises from transactions made in foreign exchange and reinstatement risks arising from recognised assets and liabilities, which are not in the Company's functional currency (Indian Rupees). A significant portion of these transactions are in US Dollar, euro, etc.

The carrying amounts of the Company's foreign currency denominated financial assets and financial liabilities, at the end of the reporting period are as follows:

(In Millions)

As at 31st March, 2019	USD	EURO	GBP
Financial Assets	0.46	—	0.04
Financial Liabilities	—	—	—
As at 31st March, 2018	USD	EURO	GBP
Financial Assets	0.90	0.24	0.02
Financial Liabilities	—	—	—

Foreign currency sensitivity

The impact of sensitivity analysis on account of outstanding foreign currency denominated assets and liabilities is insignificant.

ii. Interest rate risk

Interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The objectives of the Company's interest rate risk management processes are to lessen the impact of adverse interest rate movements on its earnings and cash flows and to minimise counter party risks.

The Company is exposed to interest rate volatilities primarily with respect to its short terms borrowings from banks as well as financial institutions which are taken and squared off during the year. Such volatilities primarily arise due to changes in money supply within the economy and/or liquidity in banking system due to asset/liability mismatch, poor quality assets etc. of banks. The Company manages such risk by operating with banks having superior credit rating in the market as well as financial institutions.

Interest rate sensitivity

The table below shows the sensitivity of the Company's profitability related to change in rate of borrowings by 100 basis points on loans outstanding as at 31st March, 2019.

(Rs. in Millions)		
	2018-19	2017-18
Increase / (Decrease) in 100 bps	3.59	0.80

The above impact is based on only on change in interest rate, keeping all other business factors constant

iii. Price risk

The Company invests its surplus funds primarily in debt mutual funds measured at fair value through profit or loss. Aggregate value of such investments as at 31st March, 2019 is Rs Nil (2018 – Rs. Nil).

Investments in the mutual fund schemes are measured at fair value. Accordingly, these do not pose any significant price risk.

b) Liquidity risk

Liquidity risk is the risk that the Company may encounter difficulty, including seasonality in meeting its obligations. The Company mitigates its liquidity risks by ensuring timely collections of its trade receivables, close monitoring of its credit cycle and ensuring optimal movements of its inventories.

The table below provides details regarding the remaining contractual maturities of significant financial liabilities at the reporting date.

(Rs. in Millions)

Borrowings	191.00	49.00	142.00	191.00
	1628.62	1486.62	142.00	1628.62

c) Credit risk

Credit risk is the risk that counterparty will not meet its obligations leading to a financial loss. The Company has its policies to limit its exposure to credit risk arising from outstanding receivables. Management regularly assess the credit quality of its customer's basis which, the terms of payment are decided. Credit limits are set for each customer which are reviewed on periodic intervals. The credit risk of the Company is low as the Company largely sells its teas through the auction system which is on cash and carry basis and through exports which are mostly backed by letter of credit or on advance basis. There is no significant financing component involved.

The movement of the expected loss provision made by the Company are as under:

(Rs in Millions)

Particulars	Expected Loss Provision	
	2019	2018
Opening Balance	12.96	9.66
Add: Provisions Made	7.04	4.30
Less: Utilisation for impairment / de-recognition	—	1.00
Closing Balance	20.00	12.96

4. Fair value measurements

Fair value hierarchy

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities

Level 2: Inputs other than quoted price including within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparty. This is the case with listed instruments where market is not liquid and for unlisted instruments.

The management consider that the carrying amounts of financial assets (other than those measured at fair values) and liabilities recognised in the financial statements approximate their fair value as on 31st March, 2019 and 31st March, 2018.

There has been no change in the valuation methodology for Level 3 inputs during the year. The Company has not classified any material financial instruments under Level 3 of the fair value hierarchy. There were no transfers between Level 1 and Level 2 during the year.

34. Fair value measurements for biological assets other than bearer plants:

The following table gives the information about how the fair value of the biological assets are determined:

Biological Asset	Fair value as at (Rs. in Millions)		Fair value hierarchy	Valuation techniques and key inputs
	31 st March, 2019	31 st March, 2018		
Unharvested tea leaves	34.81	25.85	Level 2	Fair value is being arrived at based on the observable market prices of made tea adjusted for manufacturing costs. The same is applied on quantity of the tea leaves unharvested using plucking averages of various fields.
Livestock	0.38	0.84	Level 1	

35. The financial risk associated to agriculture would include climate change, price fluctuation, currency fluctuation and input cost increases. Being dependent on rainfall, any shortfall would directly impact the production. The sale of tea being largely through the auction system, any price fluctuation would impact profitability. Increased wages also has a direct impact on the cost of production because of labour intensive nature of the business operations.

Management is continuously monitoring all the above factors. Investment in irrigation, a planned replanting programme to ensure higher yields and improving efficiency of labour and modernisation are some of the measures taken by the management to mitigate the risks.

36. The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) (Amendment) Rules, 2019 on 30th March, 2019:

- notifying Ind AS 116, 'Leases' and
- amending Ind AS 12 'Income Taxes' and Ind AS 19 'Employee Benefits'.

The same are applicable for financial statements pertaining to annual periods beginning on or after 1st April, 2019. The Company is in the process of assessing the detailed impact on the financial statements resulting from the implementation of these standards/amendments.

37. Effective 1st April, 2018 the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method. The effect on adoption of the Standard was not material.

38. The financial statements were approved for issue by the Board of Directors on 24th May, 2019.
