D.C.A. - PROGRAMME SPECIFIC OUTCOME

DCA		UG DIPLOMA	
	Essential of Information Technology & OS		**PO1:** It will equip the students with skills required for designing, developing applications in Information Technology.
	Essential of Office Automation		**PO2:** Students will able to learn the latest trends in various subjects of computers & information technology.
	Programming in 'C' language		**PO3:** The PG Diploma is aimed at graduates with a computing Background and provides a detailed coverage of the key concepts and challenges in data and resource protection and computer software security.
	GUI-Programming in Visual Basic		**PO4:** To give hands on to students while developing real life IT application as part of the study.
	E Commerce		**PO5:** To train graduate students in Basic computer technology concepts and information technology applications.
	HTML Internet Application		**PO6:** Design and develop applications to analyze and solve all computer science related problems

DCA COURSE OUTCOME

PROGARM	CLASS	PAPER TITLE	COMPUSORY/OPTIONAL	POINTS OF COURSE OUTCOME
DCA	**DCA 1st SEM**	**Essential of Information Technology & OS**	**COMPULSORY**	**It will equip the students with skills required for designing, developing applications in Information Technology.**
		Essential of Office Automation	**COMPULSORY**	**Students will able to learn the latest trends in various subjects of computers & information technology.**
		Programming in 'C' language	**COMPULSORY**	**The PG Diploma is aimed at graduates with a computing Background and provides a detailed coverage of the key concepts and challenges in data and resource protection and computer software security.**
	DCA 2nd SEM	**GUI-Programming in Visual Basic**	**COMPULSORY**	**To give hands on to students while developing real life IT application as part of the study.**
		E- Commerce	**COMPULSORY**	**To train graduate students in Basic computer technology concepts and information technology applications.**
		HTML Internet Application	**COMPULSORY**	**Design and develop applications to analyze and solve all computer science related problems**

PROGRAMME SPECIFIC OUTCOME

PROGRAMME	SUBJECT	CLASS UG/PG	PROGRAMME SPECIFIC OUTCOME
PGDCA	Fundamental of computers	PG DIPLOMA	**PO1:** It will equip the students with skills required for designing, developing applications in Information Technology.
	Office automation & tally		**PO2:** Students will able to learn the latest trends in various subjects of computers & information technology.
	Programming in C		**PO3:** The PG Diploma is aimed at graduates with a computing Background and provides a detailed coverage of the key concepts and challenges in data and resource protection and computer software security.
	Programming in VB.Net		**PO4:** To give hands on to students while developing real life IT application as part of the study.
	DBMS		**PO5:** To train graduate students in Basic computer technology concepts and information technology applications.
	Internet and web technology		**PO6:** Design and develop applications to analyze and solve all computer science related problems

PGDCA COURSE OUTCOME

PROGARM	CLASS	PAPER TITLE	COMPUSORY/OPTIONAL	POINTS OF COURSE OUTCOME
PGDCA	PGDCA 1st SEM	Fundamental of computers	COMPULSORY	It will equip the students with skills required for designing, developing applications in Information Technology.
		Office automation & tally	COMPULSORY	Students will able to learn the latest trends in various subjects of computers & information technology.
		Programming in C	COMPULSORY	The PG Diploma is aimed at graduates with a computing Background and provides a detailed coverage of the key concepts and challenges in data and resource protection and computer software security.
	PGDCA 2nd SEM	Programming in VB.Net	COMPULSORY	To give hands on to students while developing real life IT application as part of the study.
		DBMS	COMPULSORY	To train graduate students in Basic computer technology concepts and information technology applications.
		Internet and web technology	COMPULSORY	Design and develop applications to analyze and solve all computer science related problems
