

JD_Web Designer

We are hiring dynamic, young individuals who have a passion for design and take pride in producing high quality work.

Want to learn and follow best international practices for designing modern, responsive scalable websites and mobile apps?

If you have studied visual communication design or graphic design and wish to work in new media, meet us. We work with global companies and build their marketing communication on web and mobile. We build websites, mobile apps and more.

Work with latest web design techniques and trends under an able leadership. Excellent growth opportunities for candidates who are hardworking and fast learners.

Desired Candidate Profile :

- Good knowledge of HTML5 and CSS3 is a must.
- The candidate must be a quick learner, hardworking, and self-driven.
- Short-term / full-term course in graphic design and/or web design from a reputed institute.
- Excellent command on working in Photoshop is a must.
- Excellent comprehension of English language is a must.
- Ability to work in a team and meet deadlines is a must.
- Should be open to working in night shift on a rotational basis.

Candidates with good skills in Photoshop, good knowledge of colour and font combinations will get a preference.

Freshers pursuing web design course can join us as an intern and learn how to build modern, responsive websites using latest web trends and technologies. Get trained under experienced industry professionals. Join full time or part time.
