About Scoreme Solutions Private Limited

www.scoreme.in

ScoreMe is a Fintech company providing a DIY (Do-It-Yourself) tool to assist in better understanding of the business health on an ongoing basis. The tool captures few of the most significant financial, non-financial and general industry parameters that are ideally considered by analysts of different banks/financial institutions in assessing the creditworthiness of the company/borrower. It is a cloud-based online digital platform/software for analysing the company's data for credit assessment.
