|--------------------------------------------------------------------------|-------------------------|-------------------------------------------------|
| Mentor                                                                   | Akash Sir               |                                                 |
| Subject                                                                  | Fruit Science           |                                                 |
| Lecture Time                                                             | 2 PM - 3 PM             |                                                 |
| Chapter Name                                                             | Day & Date              | Lecture Title                                   |
| Growth and Development of Fruit Crops                                    | Wednesday, Jan 14, 2026 | Growth and Development of Fruit Crops Lecture 1 |
|                                                                          | Thursday, Jan 15, 2026  | Growth and Development of Fruit Crops Lecture 2 |
|                                                                          | Friday, Jan 16, 2026    | Growth and Development of Fruit Crops Lecture 3 |
|                                                                          | Monday, Jan 19, 2026    | Growth and Development of Fruit Crops Lecture 4 |
|                                                                          | Tuesday, Jan 20, 2026   | Growth and Development of Fruit Crops Lecture 5 |
|                                                                          | Wednesday, Jan 21, 2026 | Growth and Development of Fruit Crops Lecture 6 |
|                                                                          | Thursday, Jan 22, 2026  | Growth and Development of Fruit Crops Lecture 7 |
|                                                                          | Friday, Jan 23, 2026    | Growth and Development of Fruit Crops Lecture 8 |
| Biotechnology of Fruit Crops                                             | Tuesday, Jan 27, 2026   | Unit Discussion <b>(30 Mins)</b>                |
|                                                                          | Wednesday, Jan 28, 2026 | Biotechnology of Fruit Crops Lecture 1          |
|                                                                          | Thursday, Jan 29, 2026  | Biotechnology of Fruit Crops Lecture 2          |
|                                                                          | Friday, Jan 30, 2026    | Biotechnology of Fruit Crops Lecture 3          |
|                                                                          | Monday, Feb 2, 2026     | Biotechnology of Fruit Crops Lecture 4          |
|                                                                          | Tuesday, Feb 3, 2026    | Biotechnology of Fruit Crops Lecture 5          |
|                                                                          | Wednesday, Feb 4, 2026  | Biotechnology of Fruit Crops Lecture 6          |
| Systematics of Fruit Crops                                               | Thursday, Feb 5, 2026   | Systematics of Fruit Crops Lecture 1            |
|                                                                          | Friday, Feb 6, 2026     | Systematics of Fruit Crops Lecture 2            |
|                                                                          | Monday, Feb 9, 2026     | Systematics of Fruit Crops Lecture 3            |
|                                                                          | Tuesday, Feb 10, 2026   | Systematics of Fruit Crops Lecture 4            |
|                                                                          | Wednesday, Feb 11, 2026 | Systematics of Fruit Crops Lecture 5            |
|                                                                          | Thursday, Feb 12, 2026  | Unit Discussion <b>(30 Mins)</b>                |
| Export Oriented Fruit Production                                         | Friday, Feb 13, 2026    | Export Oriented Fruit Production Lecture 1      |
|                                                                          | Monday, Feb 16, 2026    | Export Oriented Fruit Production Lecture 2      |
|                                                                          | Tuesday, Feb 17, 2026   | Export Oriented Fruit Production Lecture 3      |
|                                                                          | Wednesday, Feb 18, 2026 | Export Oriented Fruit Production Lecture 4      |
| NOTE - Classes will remain off on Saturdays, Sundays & National Holidays |                         |                                                 |
