

Study Plan	
Mentor	Damini Ma'am
Lecture Time	03 PM - 04 PM
Date	Subject
	Fundamentals of Nematology
09-Jul-2026	Introduction and History of Nematodes
10-Jul-2026	Habitat and diversity of nematodes
11-Jul-2026	Economic importance of nematodes
16-Jul-2026	General characteristics of plant parasitic nematodes
17-Jul-2026	Classification of nematodes up to family level
18-Jul-2026	Economically important nematode genera
23-Jul-2026	Classification based on feeding/parasitic habit
24-Jul-2026	Symptomatology of nematode damage
25-Jul-2026	Nematode pests of rice
30-Jul-2026	Nematode pests of wheat
31-Jul-2026	Nematode pests of vegetables
01-Aug-2026	Nematode pests of pulses
06-Aug-2026	Nematode pests of oilseed crops
07-Aug-2026	Nematode pests of fibre crops
08-Aug-2026	Nematode pests of citrus
13-Aug-2026	Nematode pests of banana
14-Aug-2026	Nematode pests of tea
15-Aug-2026	Nematode pests of coffee
20-Aug-2026	Nematode pests of coconut
21-Aug-2026	Cultural methods of nematode management
22-Aug-2026	Physical methods of nematode management
27-Aug-2026	Biological methods of nematode management
28-Aug-2026	Chemical methods of nematode management
29-Aug-2026	Plant quarantine
03-Sep-2026	Host plant resistance
04-Sep-2026	Integrated Nematode Management (INM)
