# IBPS SO IT OFFICER

## Professional Knowledge

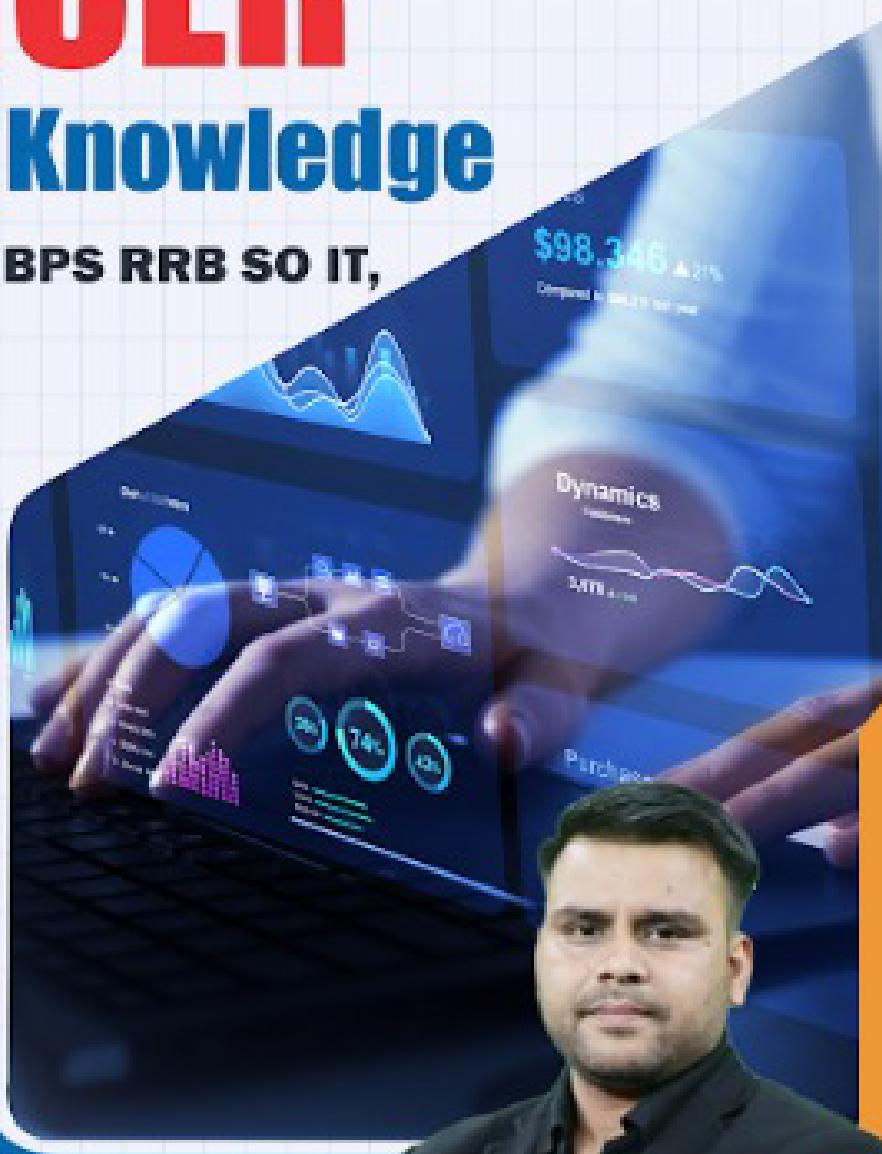

Useful for IBPS SO IT, IBPS RRB SO IT,  
SBI SO IT Exams

1300+  
MCQ's

### THIS EDITION INCLUDES

- ▶ Based on Latest Pattern
- ▶ Complete Chapterwise Theory & Practice Questions
- ▶ Covers Networking, DBMS, Operating System, Data Structure, Programming Languages & Much More
- ▶ 10 Practice Sets
- ▶ Covers 2024 Previous Year Questions

Vivek Pandey

# CONTENTS

|   |     |
|---|-----|
| <b>1 Software &amp; Hardware</b>                | 6   |
| 1. Introduction                                 | 6   |
| 2. Software                                     | 8   |
| 3. Hardware                                     | 10  |
| 4. Basics of Memory                             | 13  |
| 5. Ports  | 14  |
| 6. Types of Computer                            | 14  |
| PRACTICE SET                                    | 16  |
| SOLUTIONS                                       | 19  |
| <b>2 DBMS</b>                                   | 20  |
| 1. Introduction                                 | 20  |
| 2. Database Architecture                        | 23  |
| 3. Entity-Relationship Model                    | 24  |
| 4. Relational Database Management System        | 30  |
| 5. Normalization                                | 34  |
| 6. Structured Query Language                    | 43  |
| 7. Beyond MySQL                                 | 57  |
| 8. Transaction Control                          | 59  |
| 9. Deadlock Handling                            | 64  |
| PRACTICE SET                                    | 65  |
| SOLUTIONS                                       | 69  |
| <b>3 DATA WAREHOUSING &amp; DATAMINING</b>      | 70  |
| 1. Data warehousing:                            | 70  |
| 2. Data Mining:                                 | 74  |
| PRACTICE SET                                    | 75  |
| SOLUTIONS                                       | 78  |
| <b>4 OPERATING SYSTEM</b>                       | 80  |
| 1. Introduction                                 | 80  |
| 2. Process Management:                          | 84  |
| 3. Memory Management:                           | 103 |
| 4. File System:                                 | 106 |
| 5. INPUT- OUTPUT system                         | 108 |
| 6. Directory system/ structures:                | 109 |
| 7. Short Introduction of UNIX operating system: | 109 |

|   |            |
|---|------------|
| PRACTICE SET .....  | 110        |
| SOLUTIONS .....   | 114        |
| <b>5 Networking</b> .....                                 | <b>115</b> |
| 1. Networking.....  | 115        |
| 2. Data Communication:.....                               | 118        |
| 3. Networking Devices: .....                              | 122        |
| 4. Networking Switching: .....                            | 123        |
| 5. Network Models:.....                                   | 123        |
| 6. Internet.....  | 132        |
| 7. Some Important Networking Protocol.....                | 133        |
| PRACTICE SET .....  | 137        |
| SOLUTIONS .....   | 140        |
| <b>6 Information Security</b> .....                       | <b>141</b> |
| 1. Introduction .....                                     | 141        |
| 2. Security Threats and Malwares.....                     | 143        |
| 3. Botnets .....  | 145        |
| 4. Authentication and Authorization .....                 | 146        |
| 5. Cryptography .....                                     | 146        |
| 6. Firewall .....   | 150        |
| 7. Proxies.....   | 152        |
| 8. Antivirus Software.....                                | 152        |
| 9. Intrusion Detection System (IDS) .....                 | 153        |
| 10. Vulnerability Scanners .....                          | 153        |
| PRACTICE SET .....  | 154        |
| SOLUTIONS .....   | 158        |
