Are you a spreadsheet enthusiast who is tired of repetitive month end procedures? Ready to pull your sleeves up and innovate the accounting processes at technology driven company? We are in the look out for a seriously high achiever to head the accounts department. We are constantly looking to innovate and adopt new technologies, so you should be able to embrace constant learning.

Responsibilities:

- Work with Cost Engineer and Development team to manage and control project budget.
- Maintain financial records of all the departments, analyzing balance sheets and general ledger accounts.
- Support in the development of project accounting and reporting procedures.
- Support monthly & quarterly close procedures and preparation of the annual financial statements.
- Maintain and reconcile general ledger accounts, reconcile cash & cards transactions and travel costs.
- Identify accounting needs for local tax filings.
- Create documentation for accounting entries and perform controls.
- Give accounting advice and best practice to colleagues from other departments.
- Develop, implement and document new processes.
- Support the introduction of smart IT solutions for accounting.

Requirements:

- 2+ years of accounting experience.
- Completed undergraduate degree in Accounting or related field, or a similar qualification.
- CPA, CA, or equivalent qualification would be a plus.
- Analytical mind with strong problem-solving skills and attention to details.
- Experience in high growth / start up environment would be an advantage.
- Interested in process optimization, automation, digitization and big data analytics.
- Excellent IT skills (Microsoft Ofce) and competency in Accounting software (ERP software).
- Fluent in English language essential.
