

We are looking for the best **Mobile Application developer (React Native)** to join our software development team. The individual should share the passion to engineer the best electric motorcycle in the world. Importantly, you shouldn't be afraid to take initiative and push your boundary. We are constantly looking to innovate and adopt new technologies, so you should be able to embrace constant learning.

Responsibilities

- Work as part of a small team to build React Native iOS / Android applications.
- Implement pixel perfect UI that match designs.
- Implement clean, modern, smooth animations and transitions that provide an excellent user experience.
- Takes extreme ownership and drives the design department to implement modern and minimal designs staying true to Yatri philosophy.
- Work with native modules when required.
- Complete weekly sprints, and participate in sprint retrospectives and daily stand ups.
- Architect, build and maintain excellent React Native applications with clean code.
- Excellent collaborator and communicates with the embedded systems team and other stakeholders of the project in creation of all the necessary data interfaces and API endpoints
- Conduct code reviews and architecture discussions.
- Write unit and integration tests.
- Release applications to the Apple and Google Play stores.

Requirements

- 1-2+ years of professional experience working with React Native.
- Firm grasp of the JavaScript and TypeScript language, including ES6+ syntax
- Experience working with Swift, Objective C, and Java is a plus point.
- Familiarity with native build tools, like Xcode, Gradle, Android Studio.
- Experience with automated testing suites, like Jest or Mocha.
- Meaningful experience working on large, complex systems.

- Ability to take extreme ownership over your work. Every day is a challenge to ensure you are performing to the expectations you and your team have agreed upon.
- An understanding of React Native best practices and a commitment to following them.
- Thorough and solid understanding of modern mobile architectures and OS internals
- Ability to create and maintain continuous integration and delivery of React Native applications.
- A positive mindset and can-do attitude.
- A passion for software development. It's not just your career, it's also your hobby. You're constantly striving to learn new things and improve. You follow industry news, regularly tinker with new technologies, and read books and blogs to keep your skills current.

Benefits

- Health insurance with 100% premium covered
- Generous PTO / sick leave
- PF plan with employer match
- Free snacks and drinks
- Annual company retreat
- Bring your dog to work 🐕
- Work in a high-growth start up that will redefine urban mobility

About Us

Yatri was founded in 2017 to prove world-class electric vehicles can be designed, engineered and manufactured from the ground up in Nepal – that switching to electric does not have to be a compromise but better, quicker and kinder to the planet.
